Oil in the age of coronavirus: a U.S. shale bust like no other

Inside C2

Global stocks jump on strong U.S. jobs data; COVID-19 caution lingers

FILE PHOTO: Traders wear masks as they work on the floor of the New York Stock Exchange as the outbreak of the coronavirus disease (COVID-19) continues in the Manhattan borough of New York, U.S., May 28, 2020. REUTERS/ Lucas Jackson

NEW YORK (Reuters) - A measure of stocks across the globe rose for a fourth straight day on Thursday after June U.S. payrolls grew by a record 4.8 million, but investors also flocked to the safe-haven dollar and U.S. Treasuries on concerns about surging COVID-19 cases in many U.S. states.

FILE PHOTO: Traders wear masks as they work on the floor of the New York Stock Exchange as the outbreak of the coronavirus disease (COVID-19) continues in the Manhattan borough of New York, U.S., May 28, 2020. REUTERS/Lucas Jackson

Several states, along with some other parts of the world, are reversing or pausing reopenings to tackle a recent surge in infections, leaving analysts worried about another sell-off in financial markets if the damage mounts.

June's job survey, which saw the unemployment rate fall to near 11% and average wages drop 1.2%, was taken just as the spike in COVID-19 cases started to accelerate. Over 31 million Americans were still collecting unemployment checks weekly.

"The strong rebound would normally be an unambiguously positive sign that a recovery is under way, (but) it is being accompanied by a sharp rise in new infections, which was what caused the collapse in the first place," said Mike Bell, global market strategist at JP Morgan Asset Management in London.

"It is therefore too soon to say for certain that this recovery in employment sounds the all-clear for investors."

The Dow Jones Industrial Average rose 92.39 points, or 0.36%, to 25,827.36, the S&P 500 gained 14.15 points, or 0.45%, to 3,130.01 and the Nasdaq Composite added 53.00 points, or 0.52%, to 10,207.63.

The pan-European STOXX 600 index rose 1.97% and MSCI's gauge of stocks across the globe gained 0.92%. Emerging market stocks rose 2.24%.

Japan's Nikkei futures rose 0.52% and overnight, MSCI's broadest index of Asia-Pacific shares outside Japan closed 2.29% higher.

For a graphic on Financial markets battle rise of COVID-19:

U.S. financial markets will be closed on Friday in observance of Saturday's Independence Day holiday.

On Thursday, oil futures prices were lifted by the U.S. employment numbers but gains were limited as the spike in U.S. coronavirus infections fanned concerns that economic activity would weaken in coming weeks. [O/R]

U.S. crude rose 1.26% to $40.32 per barrel and Brent was at $42.79, up 1.81% on the day.

Treasury yields initially rose after the strong jobs numbers, but backtracked and traded lower for most of the session.

Benchmark 10-year notes last rose 4/32 in price to yield 0.6693%, from 0.682% late on Wednesday.

The 30-year bond last rose 4/32 in price to yield 1.4292%, from 1.434%.

"The knee-jerk move in the wake of the jobs report made sense," said Ben Jeffery, a strategist at BMO Capital Markets in New York. "But clearly people were reluctant to sort of push that sell-off just given the headline risk over the weekend and the fact that things on the virus front still seem to be worsening."

The dollar edged higher after initially softening on the payroll numbers. The dollar index rose 0.065%, with the euro down 0.11% to $1.1238.
"Dollar performance will hinge on the U.S. response to COVID," said Juan Perez, senior currency trader at Tempus Inc in Washington. "On that end, the U.S. is losing because the situation is far more difficult than in other parts of the world."

The Japanese yen weakened 0.02% versus the greenback to 107.52 per dollar, while sterling was last trading at $1.2464, down 0.05% on the day.

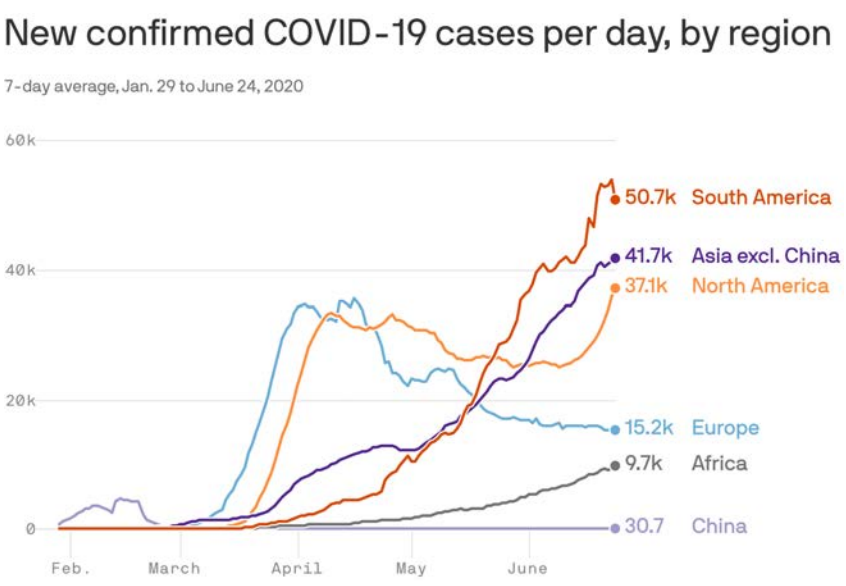
Global Coronavirus Death Toll Now Exceeds 500,000



Data: The Center for Systems Science and Engineering at Johns Hopkins; Chart: Naema Ahmed/Axios

Compiled And Edited By John T. Robbins, Southern Daily Editor

Sunday saw the world hit two grim global coronavirus milestones — 10 million confirmed cases and 500,000 deaths, according to data from Johns Hopkins.

Why it matters: The world may now be past peak lockdown — with economies reopening from Spain to South Africa — but it has not seen the worst of the virus. More than one in five cases recorded during the entirety of the pandemic came in the last two weeks alone.

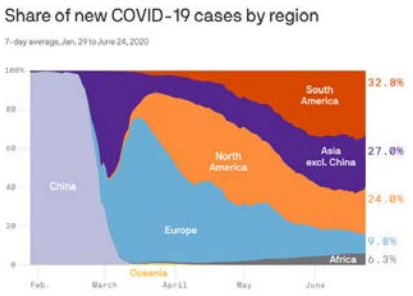
The big picture: As the virus has reached every country on Earth, the eye of the storm has shifted from China to Europe to the developing world. Latin America is now the global epicenter, with South Asia not far behind and sub-Saharan Africa bracing for impact.

The U.S. and Brazil continue to record by far the most new cases. Together with Mexico, they also accounted for half of all deaths recorded over the past week.

• India will likely surpass those countries in the coming weeks, according to Bhramar Mukherjee, a professor at the University of Michigan who has been modeling India's outbreak. She doesn't expect the outbreak to peak there until late July or August.

• Hospitals in New Delhi and Mumbai have been overrun, and rural areas are now detecting significant outbreaks, even as India has lifted its lockdown.

• While case counts are rising fast across South Asia, a dearth of testing obscures their true scale.



Data: The Center for Systems Science and Engineering at Johns Hopkins; Chart: Naema Ahmed/Axios

Even fewer tests are being conducted in parts of sub-Saharan Africa (an American is 150x as likely to have been tested as someone from Nigeria, for example). But what data we do have indicates Africa is "on the brink of a large outbreak," according to Tom Frieden, former director of the Centers for Disease Control and Prevention.

• Africa was battered by the global economic slowdown before the virus itself. Now, vaccinations and treatments for other conditions have slowed as resources shift toward COVID-19.

• Between deaths from other diseases and increases in hunger, says Gayle Smith, CEO of the ONE Campaign and a former USAID administrator, "it's very possible that there will be a higher mortality rate from the knock-on effects than from the virus itself."

Where it stands: When the pandemic first struck pockets of wealthy countries — from northern Italy to New York City — it accelerated exponentially but fell nearly as rapidly in the weeks after lockdowns were imposed.

• That trajectory has not held across the U.S., and it certainly has not held in poorer countries for which lockdowns had to be weighed against hunger and extreme poverty.

• Even accounting for increased testing, it's clear that a pandemic that was once concentrated primarily in Europe, and then in the U.S., is now buffeting every corner of the globe.

• Many countries that had additional time to prepare have used it well. Contact tracing ramped up more quickly in some African cities than American ones, for example, and the new Africa Medical Supply Platform will allow equipment to be distributed across the continent as hotspots emerge.

The bottom line: The harsh reality remains that poorer countries are fighting the same virus that stretched health care systems and crippled economies in the rich world with weaker infrastructure and far fewer resources.

Related

Below is a breakdown of the levels and what residents should do during each level:

Level 1 (Red): Stay home
This means there's a severe and uncontrolled level of COVID-19 in Harris County

• There are outbreaks that are actively getting worse and that testing and contact tracing capacity is strained or exceeded.

• **What to do:** Minimize contact with others wherever possible and avoid leaving home except for the most essential needs like going to the grocery store for food and medicine

Level 2 (orange): Minimize all contact
This means there's a significant and uncontrolled level of COVID-19 in Harris County

• The virus is still actively spreading but contact tracing capacity is likely sufficient to meet demand

• **What to do:** Minimize contact with others, avoiding any medium or large gatherings and only visiting permissible businesses that follow public health guidance

Level 3 (yellow): Stay vigilant - There is a moderate, but controlled level of COVID-19 in Harris County

• There's a demonstrated reduction in the spread of the virus and the local healthcare system is within capacity

• **What to do:** Residents should remain vigilant, but resume contact with others and resume leaving home

Level 4 (green): Resume normal activity- There's a minimal and controlled level of COVID-19 in Harris County

• New chains of transmission are limited and quickly broken or a vaccine and/or treatment has been developed and widely deployed.

• What to do: At this level, residents may resume normal contact with others unless sick.

Guidelines through all the levels - Continue to socially distance from others

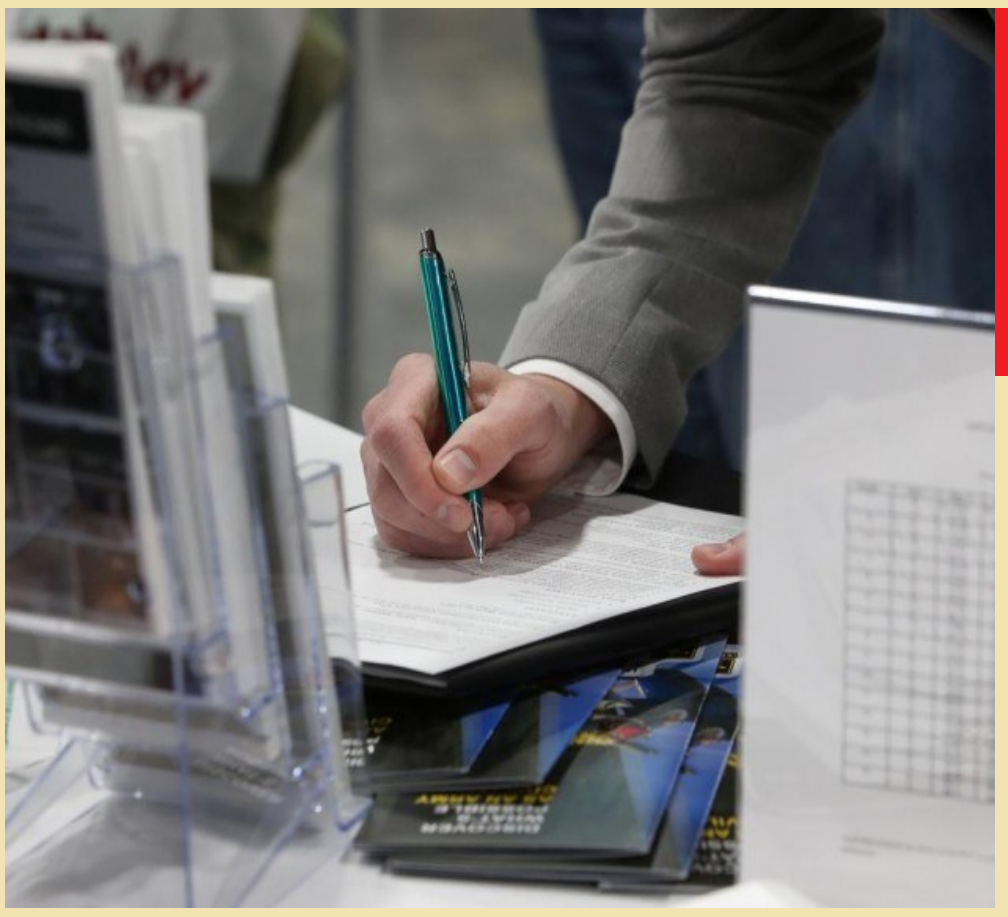
• Wash your hands frequently

• Use face coverings until there is a vaccine or a treatment for the virus.

• If you've been exposed to COVID-19, quarantine for 14 days **(Courtesy https://www.click2houston.com/)**

WEA LEE'S GLOBAL NOTES

07/02/2020 CORONAVIRUS DIARY



How To Balance The Economy During The Pandemic

The racial issues are creating unrest in the cities. Cases like in Seattle, Washington, have seriously interrupted the local people's lives.

We are also very glad to see that our economy is improving. But how can we balance the pandemic and the economy? This is a big problem for all of us.

The U.S. Bureau of Labor Statistics reported today that total non–farm employment rose by 4.8 million in June and the unemployment rate declined to 11.1 percent with ten million eighty thousand people still out of a job. But it is a good sign for the economy.

In Texas we now have the highest number of confirmed COVID–19 cases at 8,076 and fifty– seven people have passed away. In the Harris County area we have almost run out of hospital beds. This is a very serious development in the southern states.

Texas was a very early state to open for business because we let the beaches, bars and restaurants open. People did not care about wearing a mask or keeping social distance and the virus came back to spread out again. As Dr. Fauci warned us, if we don't control this pandemic, we might have 100,000 confirmed cases per day in the coming months in America. Such an horrific situation may happen to us.

Whether or not President Trump could be re–elected partly depends on the economy. The latest poll shows he is behind challenger Biden by 15 points.

The CDC today also warned that the coronavirus is still out of control around the world, especially in America.

Today we are facing so many problems.

Air Pollution Kills 7 Million People A Year And Makes COVID-19 More Deadly

Anti-pollution protestors in Thailand in January.

Compiled And Edited By John T. Robbins, Southern Daily Editor

"The evidence we have is pretty clear that people who have been living in places that are more polluted over time, that they are more likely to die from coronavirus."

That's the stark assessment of Aaron Bernstein, the director of the Center for Climate, Health, and Global Environment at Harvard University.

Researchers in Cambridge came to a similar conclusion, with a study that found more cases of COVID-19, and resulting deaths, in areas of England with high levels of air pollution.

While the studies are ongoing, the initial findings come as no surprise to Maria Neira, an expert on air pollution at the World Health Organisation.

"We cannot prove any correlation between air pollution and the mortality caused by COVID-19, but it's clear that, if you smoke or if you are exposed to air pollution for a long time, your lungs will be more vulnerable and you will be more vulnerable to any type of respiratory diseases," Neira told this week's World Vs Virus podcast.

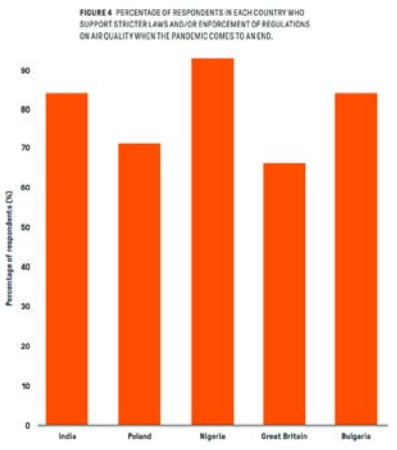
"So more studies will be needed. What we know for sure is that air pollution is already killing 7 million people prematurely people around the world. Therefore, no matter what, we have to tackle the causes of air pollution.

The policy recommendations from all of those studies will be: tackle the causes of air pollution, reduce air pollution, increase the quality of the air you breathe ... this is what I call a 'no-regrets' investment. because we need to do it."

There are two consequences of the pandemic that might mean those investments - in cleaner transport and energy, for example - are more likely to happen.

One is the 'Great Reset': as governments have to invest to rebuild their economies, they have a chance to make better choices.

"I will push enormously for all of those stimulus packages to go in the right direction, to make sure that the healthy and green transition is in place," Neira said.



Percentage of people who support tougher action against air pollution.

The other consequence of COVID-19 is that lockdown has meant many people in big, polluted cities - New Delhi for example - have enjoyed clean air for the first time in their lives, and would strongly prefer not to go back to how things were. And that should mean stronger public support for measures to reduce pollution.

Anti-pollution group the Clean Air Fund commissioned an opinion poll that quizzed more than 1,000 people in each of five countries: India, Nigeria, Britain, Poland and Bulgaria, on their views on air pollution. In all of them, a huge majority said they were concerned and wanted more action to clean up the air.

"This is a clear mandate for ... politicians to make sure that, at the very least, economic stimulus does not increase air pollution," Clean Air Fund Executive Director Jane Burston told World Vs Virus.

"But at the same time, (it's) a huge opportunity to do quite the opposite and decrease pollution and to create much more resilience, both for individuals, countries and the health system." (Courtesy https://www.weforum.org/)

More Saharan Dust Will Blow Into The U.S. This Week

The dust is expected to improve as it moves across Florida this week, but likely to worsen as it reaches the Texas and Louisiana coasts.

The dust will also remain in place for much of the Caribbean and Mexico.

"The concentration of last week's dust was historic. This week's dust is much more typical of what we see in any given year," CNN meteorologist Judson Jones says.

Saharan dust travels to the US every year. It is lifted into the atmosphere by wind and thunderstorms in Africa, as it starts a 5,000 miles journey to the Caribbean and US. This year is the worst in decades.

(CNN) Another round of Saharan dust is forecast to move into the Gulf of Mexico later this week. The haze will blanket the Caribbean and Southern states once again, bringing poor air quality as well as the potential for remarkable sunrises and sunsets.

This next round of dust isn't expected to be as dense as the previous one, but it will still be bad enough to bother some with allergies and asthma. According to the Georgia Department of Public Health, the dust can cause eye, nose and throat irritation.

"By the time the dust cloud reaches the US, most of the larger grains have fallen out due to gravity. What is left is the smallest particles known as PM2.5. They are the most dangerous to breathe into your lungs," CNN meteorologist Chad Myers says.

However, there are some positive aspects to the Saharan dust. One is limiting the development of tropical systems in the Atlantic due to the dry air surrounding the dust.

Also, it can create some of the most striking sunrises and sunsets. According to CNN meteorologist Haley Brink, "the dust particles high up in the atmosphere can scatter sunlight and create some of the most vivid sunsets."

The dust should improve by the end of the week. (Courtesy https://www.cnn.com/)

婚姻觀

Daily News

婚姻真正的意义 并不是寻找一份永远的依赖

我们总以为，婚姻是给予我们一份依赖，但到头来，却带给我们无尽的伤害。所以，婚姻真正的意义，并不是寻找一份永远的依赖，而是在婚姻中，让我们逐渐学会独立。

独立，是感情或婚姻中老生常谈的问题，但是现实中，真没多少人能够做到真正的独立。

不知道是因为自己不都独立，才如此依赖一份感情；还是因为太过依赖一份感情，才使得自己如此不独立。

很多人其实都是以独立的状态走入一份感情的，但是后来慢慢就丧失了自己的独立，因为他们觉得对方可以成为自己最坚实的依赖。

事实上，就算婚姻幸福，就算对方真心诚意对自己，保持自我独立，对自己也是具有重要意义的。

独立的第一条，当然就是经济独立。

经济独立的根本，并不是防止哪天因为感情不和，而导致自己无法还自己自由之身；更重要的意义是，你经济独立，就能够满足自己基本的生活需求，简而言之，自己喜欢的，自己买得起，不用看对方脸色，不用讨好对方。

所以，千万不要主动丧失自己的经济独立，不然，有一天如果不幸遭遇了感情的背叛，对方可能会对你说：你吃我的、穿我的、用我的，你还有什么好不满意的……你看，多来气！

经济独立，避免自己受气，这是亘古不变的真理。

如果没有经济的独立，那么自己就永远受制于人，因为生活是现实的，物质和生存，仍然是第一需求，如果连衣食住行自己都搞不定，那么，一定就会依附于那个为自己提供物质条件的人，这也是真理。所以，就只能忍，不管对方怎么对自己，都得照单全收。

为什么遭遇了背叛的家庭主妇，几乎不可能离婚，甚至往往憋屈、被动接受很多常人所无法接受的情况，原因就在于此。所以，解决背叛，首先得让自己经济独立，不然，其它都是徒劳。

独立的第二条，就是人格独立，或者说感情独立。

不难发现，在感情或婚姻中，有很多人其实经济条件很好，但面对感情和婚姻中的问题，仍然是一筹莫展，束手无策。

导致这一类情况的背后，就是人格或精神不独立。

人格精神不独立的人，大概在感情或婚姻关系中，都有如些一些特征：

1、他们习惯迎合对方，牺牲自己，碰到两个人矛盾分歧的时候，都是自己主动退让；一旦与对方发生冲突，就觉得心神不宁，影响自己正常的生活，所以总是选择妥协，来维系关系的和睦。

2、他们在意对方，远远超过于在意自己。他们以对方的喜怒哀乐为自己的喜怒哀乐，他们的情绪总是跟着对方走，也就是情绪为对方所控。

3、他们的自我认知，基本建立在对方身上，也就是说，对方觉得自己好，自己就觉得自己挺好；而对方觉得自己不好，自己就觉得自己确实不好，对方一旦指出自己的问题，自己就会有罪责感，然后按照对方的意思，去调整和改变自己，为此不惜难为自己。

4、他们依赖于这段关系这个人，就算这个人伤害了自己，不在乎自己，他们仍然还是一样对待对方，对方对自己越不好，自己反而越是对对方加倍好——过来人称之为"自己犯贱"。当对方对自己不好的时候，对方还没怎么着，自己反倒先替对方开脱，并且时常用一些"菩萨心肠"来看待自己的遭遇，认为自己所经历的一切，都是命，都是自己的修行，而往往不会认为，这些都是对方给自己带来的痛苦和烦恼。

诸如以上，其实都是人格不独立的表现，而人格不独立的话，就会执念于这份感情这个人，不管对方怎么对自己，自己永远都放不下，把对方视为自己的救命稻草。

如何解决人格独立的问题呢？

一方面要从原生家庭剖析。大概，情感关系中人格不独立的人，基本都是原生家庭的遗留痕迹。可能是因为原生家庭的模式，导致的结果。那么，就要改造自己，打破原生家庭对自己的塑造，这个过程，我们称之为二次成长自己——每一个原生家庭，其实都有不完美，固化的模式，让我们对于原生家庭给予我们的，不加质疑地全部接受。这样，好的不好的，我们都遗留了下来。

而二次成长，就是与原生家庭的割离，完成自我进化。所以，为什么人生的一段时间内，会对父母有意见，也是这样原因，因为你看清了你身上那些致命的弱点，都是父母的基因，而江山易改本性难移，你面对有缺陷的自己无能为力，这时候就会"迁怒"于父母，但是，经由自己的二次成长，最终会与父母达成和解。

另一方面，就是要学会客观看待自己。我们常说，要学会好好爱自己，其中重要的部分，就是对自己的认知，然后看到自己的优势，也看到自己的不足，看到自己好的一面，但也客观看待自己不好的一面，接受不完美的自己，不管是好的坏的，都接受。这样才会爱自己，而内在如果是否认自己的，甚至自我贬低自己，这些都是人格不独立的表现，对应的，就会变得自卑、消极，看不起自己，面对困难挫折，没有力量，也无从解决。

调整的方式，就是要学会自己为自己做主，那么首要的，就是要坚定自己的念头，自己觉得对的，就要坚持；自己觉得错的，就坚决不妥协——说起来比较简单，但真正要实现这个状态，其实很难，有很多功课，也需要付诸实际努力，绝对不是冥想几天，自己就能够变得独立的。

独立也是一种实力，或者说，需要具体的条件，为什么成功人士相对显得独立，因为他们的成功会给他们一种心理上强烈的暗示，让他们非常自信，所以，独立从来不是空洞的，而是落地的，实际的。

《無主之子》收視穩坐同時段冠軍 李又汝激動落淚再曝驚人預告

民視金鐘好戲《無主之子》昨晚（28日）在民視首播，引起廣大迴響，收視率出爐開紅盤，平均收視1.35，爲同時段冠軍，坐穩週日十點檔冠軍寶座。

本週日迎向第二集，劇中黃鐙輝在越南的元配郭雅茹跑來台灣找他，被李又汝發現，三角關係正式曝光；而逃逸的阿海竟然無端被開槍.....，預告片曝光讓不少觀眾期待。

總製作人黃志翔表示謝謝民視這麼強的平台，讓好戲可以被很多人關注，高收視率反映出台灣觀眾對移工處境有高度共感，很可貴，希望更多人一起觀賞、體會，以同理心和友愛精神對待身邊的每一位移工，也藉戲劇《無主之子》向台灣的70多萬移工致敬、致謝！

忠實呈現移工在台灣的《無主之子》，描述越南移工和台灣女子生下的孩子，因爲無法取得身分證淪爲更底層的黑工。劇中人物設定幾乎是真實個案改編，詮釋越南移工的演員，黃鐙輝、孫綻、余思達，學習越南話還要仿越南口音講中文，做足功課，寫實演活移工角色。

孫綻演活漁工「阿海」，被觀眾直誇讚演技一流。

其中演活越南籍漁工「黎文誠」的黃鐙輝，聽到收視冠軍的消息非常開心，他表示謝謝演過的所有角色，透過劇中角色的喜怒哀樂，讓他看的更細更遠更多面，特別是這次「無主之子的越南移工」，他們爲了養家飄洋過海來台灣，做一般人不想做的工作，吃苦耐勞卻得不到應得的報酬，還常常受到歧視。

黃鐙輝表示現在歧視幾乎成了日常，弱勢族群也會被歧視更何況是來自其他國家的弱勢。很謝謝觀眾的支持，希望透過戲劇讓大家看到這個議題。他說歧視比病毒更可怕，病毒可以被消滅，可是歧視不會。

挑大樑演出「王小蘭」的李又汝表示，看到收視率出爐真的非常感動，還對著手機尖叫落淚，李又汝昨天跟著民視播出再看一次，她說《無主之子》的酸甜苦辣都湧上心頭，心情是非常悸動的，因爲知道這部戲的籌備到完成都非常不容易。

李又汝說昨晚播出後，粉絲增加許多東南亞的朋友，還有人用英文留言「Good Job」鼓勵她，讓她非常開心；李又汝進一步說爸爸看到孫綻登場還說，「你們還找越南人來拍喔！」讓她哭笑不得。本週迎向第二集，李又汝說「王小蘭的爆發都在這了」，跟黃鐙輝還有大老婆郭雅茹正面對決，還有跟爸爸、媽媽的家庭革命，一定會讓觀眾感動。

台北電影節「首波頒獎人」公布

柯震東、林依晨等多組銀幕情侶現身

新冠疫情下第一個實體影展，同時也是台灣電影競賽主場的2020台北電影節頒獎典禮將於7月11日（六）晚間7點於台北市中山堂舉行，今（29）日公布首波頒獎人。包括台北電影節主席李屏賓、影展大使陳庭妮，以及林依晨、張鈞甯、吳慷仁、李亦捷、劉冠廷、柯震東、謝欣穎、林柏宏、林暐恆（阿Ken）、紀培慧、石頭、夏于喬和導演鄭有傑等都將上台頒獎，熠熠星光齊聚一堂。

今年的最佳劇情長片，將會由台北電影節主席李屏賓，與曾以《情非得已之生存之道》榮獲台北電影獎影后殊榮的張鈞甯一同頒發；已是國片及電視劇台柱小生的吳慷仁，搭配去年以《野雀之詩》封后的李亦捷一同揭曉今年的新科影帝。

此外，多組大銀幕情侶亦將現身典禮舞台，柯震東與林依晨主演的《打噴嚏》獲邀擔任今年台北電影節神祕場，兩人也將共同揭曉最佳女配角獎得主，謝欣穎和金馬獎最佳男配角林柏宏共同主演的《怪胎》未演先轟動，電影正式上映前，兩人將先行合體，共同揭曉最佳攝影獎得主。

台北電影獎自從去年改變規則，比照金馬獎擴大頒獎規模後，今年的頒獎典禮更會開放中山堂二樓部分座位，粉絲凡購買今年台北電影獎入圍電影場次票券2張，即可於7月6日（一）、7月7日（二）至台北市中山堂正門入口台北電影節影展服務台兌換1張典禮入場券，爲偶像加油；無法親臨現場的影迷，亦可於TVBS歡樂台觀賞電視直播，MOD用戶亦可在「台北電影節專區」免費收看。

郭雪芙扮「面癱女」爲戲素顏 揪汪東城譜出戀曲

八大電視即將推出由汪東城、郭雪芙主演的愛情浪漫輕喜劇《因爲我喜歡你》，30日適逢郭雪芙生日，女神圈內好友劉以豪、袁艾菲、王子邱勝翊、任容萱、言明澔、陳零九等紛紛送上祝福，郭雪芙許下32歲生日願望:「希望疫情趕快過去，可以自由的在外呼吸新鮮空氣，健康快樂！」

《因爲我喜歡你》網羅睽違3年之久沒在台灣拍戲的汪東城及國民女神郭雪芙搭檔演出，描述「面癱女」郭雪芙在人生低潮時，遇上「恐血男」汪東城發生的一段愛情故事。

這次郭雪芙在《因爲我喜歡你》，角色設定以打不倒的跆拳女將蘇麗文爲原型，以跆拳道選手爲背景出發，因腿傷面臨引退，由於劇中個性大辣辣不在乎穿著打扮，郭雪芙顛覆以往女神形象，首度以中性俐落的短髮造型出現，爲戲幾近素顏的她，因入戲深，拍戲後期漸漸養成私下不化妝的習慣。

「以前沒化妝出門都會有一點在意，感覺非化妝不可，但自從拍了《因爲我喜歡你》，現在都覺得出門不用化妝也沒有關係。這應該是最貼近自然的我！」同時爲符合人物設定，郭雪芙還刻意增胖，營造結實體態，造型改走中性運動風，讓相處共事多年的經紀人大呼不習慣！

嚴正嵐爲戲創作台語片尾曲 李冠毅第一集輕鬆躺著演

台語迷你劇集《老姑婆的古董老菜單》於昨（28日）華視舉辦首播直播活動，演員龍劭華、吳秀珠、嚴正嵐、李冠毅、製作人葉天倫、導演張晉榮皆到場參與，與粉絲們一同線上互動。 在劇中飾演嚴正嵐房客的李冠毅，第一集一開始就被騙錢還摔車住院，讓網友直呼「好倒楣」。李冠毅則表示：「當天剛好很累，所以躺著演反而很輕鬆」。

製作人葉天倫則表示演員都有包紅包，請大家不要擔心，李冠毅在年輕演員中難得有台語底子，除了獲得製作人及導演認證外，也被許多鄉民讚爆，「好浪漫的男孩」「男主角長得很帥，台語也講得好」，李冠毅對此也大方接受，更對粉絲喊話：「一定要準時收看喔！」

此外，劇中有個橋段是曾子益帶嚴正嵐見爸媽時，嚴正嵐點了一個番薯五分熟，不少網友則在PTT討論，什麼是「番薯五分熟？」「五分熟的番薯能吃嗎？」，現場曾子益也爲大家解答：「因爲何文漢的家裡非常注重養生，這個熟度的番薯最剛剛好，也很好切。」注重養生程度堪稱吹毛求疵的地步，也被網友調侃「超誇張的養生」，不過曾子益自己則是說：「要不是因爲劇情需要，不然我也超想吃那個肉！」

放下顧忌用手感受藝術品

鼓勵大眾認識觸感藝術

仔細一想，我們到底多久沒有用指尖去感受一件事物呢？維持了數個月的疫情期間，我們不經意地藏起了身體某些觀感，僅僅用眼睛、聲音去體驗周圍環境，甚至因為害怕受感染而刻意躲開觸感的運用。可是，對於視障人士來說失去了觸感，幾乎無法生活，因為他們僅靠觸感來接觸日常生活的物品、辨別事物。因此，本屆的香港觸感藝術展為視障人士更添特殊的意義，它不但展出透過觸感來感受的藝術作品。也喚起了我們關注視障人士的日常需要。

■主辦單位鼓勵觀賞者用觸感去感受作品。

第七屆觸感藝術節以《點掂》為主題，由即日起至7月25日於香港賽馬會創意藝術中心觸感藝術空間舉行展覽。主辦單位社區文化發展中心同時亦舉辦了一系列後續的工作坊來加深大眾對觸感藝術的認識，盼觀賞者通過觸感欣賞由視障以及健視人士創作的藝術作品，反思日常生活中我們忽略對身體觀感的運用，而其運用也正正是視障人士不能缺少的一部分。有別於前幾屆的展覽，本屆觸感藝術節因應疫情，特別加設了“口述觸感”部分，觀賞者除了可以親身來到展廳當中欣賞藝術作品，亦可以選擇安坐家中透過互聯網漫遊觸感藝術空間，由在場人士透過“口述觸感”以聲音帶領遊歷展覽。

口述觸感形容展品

打開展覽廳的大門，是漆黑一片的空間，觀賞者暫且放下了視覺觀感，需要伸出雙手觸摸以了解當中的事物，包括展品以及周圍的環境，讓人設身處地體驗視障人士的世界。與此同時在場負責口述觸感的工作人員也會以口述的形式，協助觀賞者拆解每一件作品的獨特之處。

主辦者鼓勵前來的觀賞者仔細觸摸作品，通過觸感去認識其大小、形狀以及感受物料，以體會作品的力量以及創作者希望傳遞的信息。其中一件作品《穿窿書》（Book of Holes），主要為紡織品及混合媒介，作品由王玉玲（Emil）所創作，主要做纖維藝術的她首次參與藝術節，她坦言自己也不肯定作品是否能夠切實表達視障人士的世界，只知道需要循“觸感”出發創作，“因為這是他們（視障人士）生活的必須，也是他們觀感中最敏感的一部分。”

《穿窿書》以凸字系統作為藍本，作品凸出其方格特性，目的是讓視障人士閱讀的時候能夠依行有序地觸碰。Emil在創作時將眾多凹陷的小孔排在一張佈滿摺疊痕、起伏不定的牛油紙雕塑上，觀賞者能夠在作品中感受無言、感性和自由的境界。

“我平時用眼睛看藝術品都是比較理性的，因為作品大多從視覺傳遞信息。我就選擇用抽象和感性的體驗，用視障人士常用的凸字系統為基礎去創作，希望為他們帶來最親近的表達。”大部分時間都在創作纖維藝術的Emil，平時大多用布來做物料，並多以顏色來表達信息，這次選擇用牛油紙來帶出不明顯的浮凸，她希望可以給予視障人士一種好的感覺。“雖然只是製作直線的孔，但是當中也用上不同的方法，我很有興趣知道他們的感覺是怎麼樣。”Emil不知道這個嘗試是否能夠得到視障人士的共鳴，但很希望作品能夠讓大眾對於視障人士有更深刻的了解。

作品記錄失明歷程

是次活動策展人盧勁馳表示，期望透過觸感藝術來擴大視障朋友的思考空間，希望能引起社會大眾對於視障人士的關注。他提到觸感藝術會隨我們身處的時代、環境和文化狀況而改變，又指並非將藝術品帶給視障人士就可以做到共融。而此刻的盧勁馳則覺得即使我們需要隔着口罩溝通，但藉着在展覽廳裡觸摸作品、運用身體的觸感，人與人之間仍然可以坦誠相見、互相了解。

作品《休漁戲水》由藝術家張啟富將一個個汽水罐用魚絲串聯起來，以回應金屬製的汽水罐勾起了對於昔日汽水廠的回憶。他將整件作品創作成魚一般的形狀，意味着做人應該放長線釣大魚。

另外，對於記憶，他認為需要穿針引線，將零碎的片段聚集、串聯。

而同樣失去視力的藝術家小星，用作品《拍攝我的視象——從視覺退化開始》記錄了自己失明的歷程。看似像一幅畫的作品，用紙張製作而成，但觀賞者可以通過觸感，將作品分成人生三個不同的歷程。作品中講述了藝術家小時候仍然有視力的童年、高中的時候視力慢慢退化直到年長完全失去視力的體驗，但更深的體會卻是心靈所看見的，比過去更加多、更加深。

面對無常的生命，藝術家葉鳳桃則以作品《等待》給觀賞者帶來盼望。她以一朵用環保紙雕塑的牡丹花，來展示“等”生命降臨以及成長中的學習；而“待”即面對克服困難，戰勝惡者的階段。即使此刻全世界的人都正在與疫情抗爭，藝術家盼以牡丹花的雍容華貴、絢麗多彩，可表達人類共同的理想與願望。

至少85人與密州酒吧相關聯的冠狀病毒檢測呈陽性
佛州德州和加州的州長關閉酒吧以減緩冠狀病毒的迅速傳播

佛羅里達關閉酒吧以對抗COVID-19傳播。

德州達關閉酒吧以對抗COVID-19傳播。

德州達關閉酒吧以對抗COVID-19傳播。

本報記者 秦鴻鈞報導

由於病例激增，加利福尼亞州的七個縣被命令關閉酒吧以對抗COVID-19傳播。

美國新增新冠病例連創新高疫情惡化由三大因素引起
防護措施不足追踪隔離患者不夠及重啟經濟進程太快

防護措施不足追踪隔離患者不夠，導致很多感染病例。

美國年輕人喜歡在酒吧里玩耍，導致很多感染病例。

美國人民喜歡在沙灘上聚會，特別是在重新開放之後。

各地重啓經濟進程太快，許多地區倉促復工，未能遵循防控和隔離措施，導致新冠病例激增。
