Trump says Flynn's actions during presidential transition were lawful

WASHINGTON (Reuters) - U.S. President Donald Trump said on Saturday that actions by his disgraced former national security adviser Michael Flynn during the presidential transition were lawful and said that there was no collusion between his 2016 White House campaign and Russia.
Flynn was the first member of Trump's administration to plead guilty to a crime uncovered by special counsel Robert Mueller's wide-ranging investigation into Russian attempts to influence the 2016 U.S. presidential election and possible collusion by Trump aides.
"I had to fire General Flynn because he lied to the Vice President and the FBI. He has pled guilty to those lies," Trump said on Twitter while he was in New York for a fundraising trip. "It is a shame because his actions during the transition were lawful. There was nothing to hide!"
Flynn, a former Defense Intelligence Agency director, held his position as Trump's national security adviser only for 24 days. He was forced to resign after he was found to have misled Vice President Mike Pence about his discussions with Russia's then-ambassador to the United States Sergei Kislyak.
"What has been shown is no collusion, no collusion," Trump told reporters as

he departed the White House for the New York trip. "There's been absolutely no collusion, so we're very happy."
As part of his plea on Friday, Flynn agreed to cooperate with the investigation.
The retired U.S. Army lieutenant general admitted in a Washington court that he lied to FBI investigators about his discussions last December with Kislyak.
In what appeared to be moves undermining the policies of outgoing President Barack Obama, the pair discussed U.S. sanctions on Russia, and Flynn asked Kislyak to help delay a United Nations vote seen as damaging to Israel, according to prosecutors.
Flynn was also told by a "very senior member" of Trump's transition team to contact Russia and other foreign governments to try to influence them ahead of the vote, the prosecutors said.
Sources told Reuters the "very senior" transition official was Jared Kushner, Trump's son-in-law and senior advisor. Kushner's lawyer did not respond to multiple requests for comment about President Trump's exposure to a probe into Russian meddling in last year's campaign.
But investors quickly took back some of those losses, buoyed by a promise by Senate leader Mitch McConnell that he had enough votes to pass the Republicans signature tax bill, which includes major

FILE PHOTO: White House National Security Advisor Michael Flynn arrives prior to a joint news conference between Canadian Prime Minister Justin Trudeau and U.S. President Donald Trump at the White House in Washington, DC, U.S. on February 13, 2017. REUTERS/Carlos Barria/File Photo

incentives for corporate America. By 13:11 p.m. ET (1811 GMT), the Dow Jones Industrial Average and the S&P 500 were both down around 0.5 percent on the day.
"We have to point to something

that is new and that would be the Flynn announcement," Art Hogan, chief market strategist with Wunderlich Securities in New York.
"The problem is we don't know

exactly what he's going to say. That's the unknown and the market doesn't like to try to price unknowns. We have an information vacuum."

An electric ceremony for future electrical technicians trained by HCC

HOUSTON - A combination of pride and nervousness could be felt on the evening of October 24 at the Guthrie Center, a workforce learning facility that is part of the Spring Branch Independent School District (SBISD). At the event, 54 high school students signed a commitment letter establishing their participation in an electrician apprenticeship program made possible by Trio Electric, SBISD and Houston Community College (HCC).
HCC Chancellor, Cesar Maldonado emphasized that a growing city like Houston is the perfect employment environment for future electricians.
"With our region's need for new homes and new commercial development, employers are in desperate need of new workers able to safely hit the ground running," Maldonado said.
In the audience, parents like Felipa Aguilar could hardly contain their excitement. Felipa brought her family to the United States from San Luis Potosi, Mexico when her children were

in diapers. On this day Felipa's dream came true, as she watched her 16-year old son Erik take part in the ceremony.
"One always wants the best for their children. But there is a big difference between dreaming about it and seeing their achievements happen. The fact that Erik is taking part in this initiative makes

me very proud." Dr. Scott Muri, SBISD's superintendent, recalled how the program started with a casual conversation.
"I remembered the owner of an electrical company in the Spring Branch area who shared with me that he needed electricians but he could not find any," Muri said. That business owner was

Beau Pollock, Chief Executive Officer of the TRIO Electric, who conveyed an encouraging message to the students and their families.
"There are great work opportunities for you and they start with this program. You should be so proud of yourself for

signing this document because you will have an opportunity to study, work and get paid," said Pollock.
Always a champion for collaboration in education, Eva Loreda, chair of the HCC Board of Trustees, described how teamwork helps students succeed.
"This apprenticeship program is an excellent example of how academic and industry partners working in collaboration with our students can generate life changing outcomes," said Loreda.
The four-year apprenticeship program will be taught by credentialed SBISD instructors and by TRIO Electric personnel. Upon completion, the students will receive a Level 1 Electrical Technician certification from HCC.
The ceremony culminated with each student receiving a safety vest and hardhat, symbols that a promise made today, will become a profession for tomorrow.
Houston Community College (HCC) is composed of 15 Centers of Excellence and numerous satellite centers that serve the diverse communities in the Greater Houston area by preparing individuals to live and work in an increasingly international and technological society. HCC is one of the country's largest singly-accredited, open-admission, community colleges offering associate degrees, certificates, workforce training, and lifelong learning opportunities. TAIPEI -- Taiwan is considering switching fully from gasoline to electric vehicles, its economic minister said Wednesday, with motorbikes set to make the leap by 2030 and automobiles to follow.

Minister of Economic Affairs Shen Jong-chin told reporters at the Legislative Yuan, Taiwan's parliament, that the government had begun considering the change. France and the U.K. have already vowed to ban sales of gasoline and diesel cars from 2040, and mainland China intends to follow suit. Shen added that Taipei would discuss relevant business opportunities and building supply chains, emphasizing that the move will not just be an environmental measure, but an opportunity to cultivate an industry.

Electric motorbikes are gaining popularity in Taiwan, with the help of Gogoro, a startup whose CEO Horace Luke was formerly chief innovation officer at major smartphone maker HTC. The vehicles have emerged as a promising industry for the island as China's growing prowess in information technology casts uncertainty over Taiwan's prospects in that mainstay field.

Gogoro launched its electric scooters in 2015. Its battery swap stations on city streets have been well received, and the vehicles are spreading rapidly.

Taiwan had about 21,000 new electric motorbikes registered in 2016, roughly double the previous year's count, and is targeting 40,000 registrations this year and 200,000 in 2021. The government aims to

Green Two-Wheelers Seen As Business Opportunity As Well As Environmental Boost Taiwan Weighs Going Fully Electric -- Starting With Motorbikes

Compiled And Edited By John T. Robbins, Southern Daily Editor

support worldwide expansion and develop the vehicles into an export industry to follow IT.

Despite a relatively small population of 23 million, Taiwan has 13 million registered motorbikes, said to be one of the highest proliferation rates in the world. The economic ministry expects that shifting fully to electric bikes will create an environment enabling a similar switch for automobiles. Taiwan's annual auto sales come to about 430,000 units. (Courtesy <https://asia.nikkei.com/Business/Companies>)

Related Taiwanese Electric Scooter Maker Gogoro Raises \$300 Million

Taiwan's Gogoro said it raised \$300 mil-

lion from investors including Singapore's Temasek and Japan's Sumitomo Corporation, helping it further expand the market of its electric scooters with battery swapping technology in Europe.

Gogoro's electric scooters are seen parked near a charging station in Taipei. Gogoro, an electric motorbike startup, operates stations where riders can swap out depleted batteries for fresh ones. (Photo Reuters)

Gogoro, which sold more than 34,000 electric scooters since its launch in 2015, also added investors - AI Gore's Generation Investment Management and France's

Engie SA. The fund-raising would help the company expand its business in Europe, including its recently launched scooter-sharing service that has a network of 1,600 scooters across Berlin and Paris, the company said.

Growing restrictions and charges for diesel and gasoline vehicles are spurring the rise of electric vehicles, although analysts say big investments in charging points and power networks will be needed to serve a mass market. (Reuters)

Related Gogoro Sales Helped 'Stunning' Growth Of Electric Motorbikes In 2016

(Taipei) Gogoro's Smartscooter, an electric scooter that has a sleek design and is connected to the Internet of Things, has been the main reason for the rapid growth of electric motorbikes in Taiwan last year, an analyst has said.

According to the statistics released by the Environmental Protection Administration, a total of 20,628 electric motorbikes were sold in Taiwan in 2016. Among them, 62 percent were Taiwanese brand Gogoro Smartscooters, while 22 percent were China Motor's motorbikes.

Although electric motorbikes accounted for only 5 percent of the total scooters sold in 2016, the growth of nearly 260 percent from the 11,087 units sold in 2015 was still "stunning," according to Eric Chang (張仙平), an analyst with Topology Research Institute of Trend Force Corp.

He said that electric motorbikes used to be light motorbikes, but Gogoro's Smartscooter has broken the stereotype to become the first heavy motorbike in Taiwan.

Gogoro's motorbikes also can travel as fast as traditional gasoline-powered scooters. Users can also swap batteries at battery stations, without having to recharge the vehicles on their own.

But Chang admitted that to promote new energy vehicles, the crucial factors will be price and government subsidies to lure consumers.

A report by the Automotive Research and Testing Center said that countries such as the Netherlands and Norway have offered tax incentives to electric motorbike users. Chang noted that some European countries even offer special lanes for electric motorbikes. (Courtesy focustaiwan.tw)

Wildlife affected by the potential border wall in the Lower Rio Grande Valley National Wildlife Refuge. The area where the wall is proposed to be built is a refuge for 19 federally threatened and endangered species and 57 state protected species...

The prospect of a border wall between Mexico and the U.S. is now real. President Trump has requested \$1.6 billion for fiscal year 2018 to build three segments totaling 74 miles.

There's a long debate over whether physical barriers on the border actually curb the illicit flow of people and drugs. The Border Patrol, which is backing Trump's plan, says they're a "vital tool" in their operation.

But what is undeniable is that the 654 miles of walls and fences already on the US-Mexico border have made a mess out of the environment there. They've cut off, isolated, and reduced populations of some of the rarest and most amazing animals in North America...

Now, DHS is eyeing unfenced areas in two Texas wildlife refuges that conservationists consider some of the most ecologically valuable areas on the border — home to armadillos and bobcats. If a wall were to slice through these ecosystems, it could cause irreversible damage to plants and animals already under serious threat.

"We've been dealing with all these negative environmental impacts of fences on the border for more than a decade," says Dan Millis of the Sierra Club Borderlands project. "And Trump's proposal would make it worse."

The border region is ecologically rich because a lot of it has been federally protected. The political boundary between the US and

Wall Could Cut Off A Texas Wildlife Refuge And The Habitat Of Big, Beautiful Cats Trump's Border Wall Could Be An Ecological Disaster

Compiled And Edited By John T. Robbins, Southern Daily Editor

Mexico stretches 2,000 miles from the Gulf of Mexico to the Pacific Ocean. Along the way, there are three mountain chains, the two largest deserts in North America, vast cattle ranches, a handful of cities and their sprawling suburbs, and the Southern section of the mighty Rio Grande river.

Much of the region has never been heavily populated, and over the years, several large swaths of land have been designated as protected areas. Today there are 25 million acres of protected US public lands within 100 miles of the line.

On the Mexican side, meanwhile, sit protected areas like El Pinacate y Gran Desierto de Altar, which abuts the US Cabeza Prieta National Wildlife Refuge and parts of the Organ Pipe National Monument and Barry M. Goldwater Range in Arizona.

These protected areas have been established, in part, to protect wildlife and plants that span both countries. In the case of the El Pinacate and Cabeza Prieta, desert species like the Sonoran pronghorn (an antelope relative) have been able to migrate back and forth. But in recent years, that's gotten harder with the construction of long sections of vehicle barriers and fences, as you can see from the map.

"People think of deserts as barren lands and flat sand dunes with nothing there," Sergio Avila, a conservation scientist at the Arizona-Sonora Desert Museum, says. "But deserts are very diverse and rich in life."

Saguaro cacti, or "giant cacti," and ocotillo cactus (in bloom) in the Organ Pipe Cactus National Monument park in the Sonoran Desert. (Photo Uterra / UIG via Getty Images)

The protected areas on the border harbor an incredible array of wildlife and plants

When you trace the border from west to east (as this Story Map project by Krista Schlyer did), you find shrinking pockets of remarkable biological abundance. At the far west is the Tijuana Estuary, a key salt marsh habitat for some 400 species of migrating birds.

At the far east, birds and butterflies stop through the Lower Rio Grande Valley, which is also a permanent home for colorful mammals, reptiles, and amphibians.

"There are tropical animal species in some of these canyons that are not found anywhere else," says Jesse Lasky, a biologist at Penn State who has studied the impact of border fences on border species. "They inhabit these little slices of tropical ecosystem that creep up into the US near the Gulf coast."

Border fences have been terrible for wildlife and plants

Since 1994, the US government has been erecting barriers to keep people and drugs from Mexico and beyond out. By 2010, about one-third of the border had been fenced with materials ranging from barbed wire to steel, bollard to wire mesh, and chain link.

All of this construction has sliced and diced a lot of protected land along the border. And ever since the passage of the Real ID Act of 2005, DHS has had the power to waive

most environmental reviews in the name of national security.

So, unlike most federal infrastructure projects, these fences have received little or no input from the public, land managers, conservation groups, or other agencies. Experts had no chance to assess beforehand what impact the fence might have on wildlife, plants, and rivers.

But what evidence we do have is alarming. For instance, Lasky and his co-authors found that the biggest risk comes when fences bisect the range of a small population of a species with a specialized habitat, leaving the majority of the population on one side and the others adrift.

Cutting off animal populations in this fashion leads to reduced gene flow and inbreeding — leading to a greater risk of extinction. Conservation groups are particularly worried about the Mexican gray wolf, in 2016, there were just 113 in the US and about three dozen south of the border.

Mexican gray wolves are the most endangered wolf in the world. In 2016, there were just 113 in the US and about three dozen south of the border. Don Bartletti / Los Angeles Times via Getty Images

Fences also can restrict animals' access to water sources — particularly problematic in the drought-prone Southwest. And they can make it harder for animals to adapt to climate change. "A lot of species do best in Northern Mexico, but with changes in precipitation patterns, they would need to disperse across the border," says Lasky.

responding to climate change." The wall structures hurt animals and insects in other ways too. Some sections have lights that attract and zap pollinators, like the monarch butterfly, that migrate across the border.

Trump's proposed wall could have a big impact on still-pristine areas

About two-thirds, or 1,350 miles, of the border remains unfenced. Trump said on July 13 that he intends to build a total 700 to 900 miles of new wall, which will be exceedingly difficult to do.

But it's plausible that Congress will give US Customs and Border Patrol, the division of DHS in charge of border security, at least some of the \$1.6 billion that Trump requested to build three segments totaling 74 miles for fiscal year 2018.

San Diego is a sprawling urban center, but just south of it is the Tijuana Estuary, where the Tijuana River meets the Pacific Ocean. It's one of the most biodiverse areas in the entire state of California, according to Millis of the Sierra Club, and has already been impacted by fences.

Activists in Texas who've been tracking fence construction over the years say they think part of the new levee walls CPB would build if Congress allocates the money for them will bisect the Lower Rio Grande Valley National Wildlife Refuge — a collection of dozens of tracts of habitat stretching from Brownsville by the Gulf of Mexico to Rio Grande City, about 100 miles west.

This area is a refuge for 19 federally threatened and endangered species and 57 state protected species, including the ocelot and other species in the illustration below. And a wall could have a serious, in some cases deadly, impact on these species: (Courtesy https://www.vox.com)

Double whammy of closings will complicate downtown freeway traffic

By Dug Begley

A planned long-term closing of the ramp from northbound Interstate 45 to northbound Interstate 69 downtown has turned into "the perfect storm" because of an emergency closing this weekend that poses a detour problem.

The ramp will close at 9 p.m. Friday, according to the Texas Department of Transportation. The ramp is scheduled to reopen June 1, in a new configuration for drivers, part of an overhaul of the interchange.

To prepare for the long-term closing, crews also will close two lanes of I-45 northbound, starting at Cullen. Those lanes will reopen by 5 a.m. Monday. The lanes will then close again overnight on Monday and Tuesday.

READ ALSO: County judge laments lack of commuter rail along Katy Freeway

"We're making good progress on the long-term project," said Deidrea George, spokeswoman for TxDOT in Houston.

The timing of that closing, however, will coincide with an emergency closing at I-45 and Interstate 10.

Workers will close northbound I-45 from I-10 to Quitman and westbound I-10 from I-45 to Hous-

ton Avenue, starting at 9 p.m. Friday. The lanes will reopen by 5 a.m. Monday, then close again nightly until Thursday morning. Together with a weekend closing of the ramp from Texas 288 to northbound I-45, the various job sites will make it difficult for drivers to avoid delays unless they detour around the areas altogether.

"It is like the perfect storm, they all came together this week," George said.

All of the work will be getting underway by the time many residents are ready to leave Houston's downtown holiday tree lighting ceremony, scheduled from 6 to 8 p.m. Friday.

The emergency closing is to repair damage from a truck that struck the I-45 bridge spanning I-10 in early November. Temporary work kept the lanes open in the interim, George said, but officials could not wait any longer on a permanent repair.

Officials said drivers should consider alternative routes and plan trips with online maps for the most current information.

George said the best way to detour the long-term closing of the I-45-to-I-69 ramp will be to continue north on I-45 and use eastbound

I-10 to return to I-69, commonly known as U.S. 59 in the Houston area.

If there is a silver lining to all the work, it is that the I-45 and I-69 interchange remains on pace, albeit after a roughly two-year delay related to the original contractor walking off the project.

Workers with Williams Brothers Construction have spent months rebuilding the interchange, as part of the project to use Spur 5 - the connector from I-45 northbound to Houston's central business district - as the link to I-69. In addition to downtown-bound traffic, the spur will be how northbound drivers on I-45 transition to I-69.

The project is estimated to cost \$30.45 million and finish in mid-2019, once the new ramp to southbound I-69 and Texas 288 is built.

"We are trying to get some of these things done when we are out of hurricane season," George said, noting drivers should see more work in the coming months.

Officials have said the redesign will improve safety and ease congestion along I-45 at the in-

Work on the I-45 and I-69 interchange is part of a project to use Spur 5, above. The spur will be how northbound drivers on I-45 transition to I-69. It is also the connector to the central business district.

terchange by eliminating a weave where drivers must quickly get in the proper lanes.

U.S. 59/610 West Loop Interchange Description: Reconstruct interchange Estimated completion date: Spring 2021 Cost: \$287 million

金馬影帝塗們 貢獻教科書式表演 《老獸》曝“內蒙老炮兒”版海報

由王小帥監制，周子陽執導，塗們、王超北、王子子等人領銜主演的電影《老獸》將於12月11日全國上映。據悉，本片已從第54屆臺灣電影金馬獎凱旋歸來，提名4項大獎並最終斬獲金馬影帝、最佳原著劇本以及費比西國際影評人獎，頂著金馬數圈光環的《老獸》，又刷新了觀眾的觀影期待。

今日，《老獸》發布了“內蒙老炮兒”版海報。這版海報中，塗們影帝的表演已經顯露無遺，他飾演的老楊流著鼻血，緊握拳頭攙扶著墮眼神堅定地望向遠處，這個“內蒙老炮兒”似乎剛經歷了壹場惡鬥，他與現實、周遭的人之間究竟發生了什麼

不禁引人遐想。

《老獸》故事發生在“鬼城”鄂爾多斯，2005年起的十年間，這座以“羊、煤、土（稀土）、氣（天然氣）”為經濟支柱的城市已經開始不景氣，再加上房地產泡沫的洗禮，年過半百的老楊經歷了“過山車”式的人生，從窮光蛋到暴發戶，再從暴發戶破產回到窮光蛋。

破產後的老楊依舊以富人生活方式去浪，吃喝賭抽整日遊蕩，跟路人幹架、對癱瘓在床的妻子不聞不顧、包養小三還昭告天下、與子女關係從冷戰發展到告上法庭...塗們把這個內心世界矛盾的“內蒙老炮兒”角色融入血液直擊金馬獎評審團心靈，打

敗黃渤、金城武等人加冕金馬影帝，同時也讓觀眾對他刻畫入骨的演技嘆服：“塗們壹開口，就知道是個老江湖”。

在內蒙古出生、成長的周子陽導演從2013年開始創作劇本，發生在老家的壹樁綁架案啟發了他，影片中的作者表達就是導演這些年的切身感受，之後的周子陽改了16版劇本才最終定稿。王小帥導演主動為《老獸》擔當監制，《老獸》因此成為王小帥成立冬春影業後出任監制的第壹部作品，影片中所呈現的現實弱化了是非對錯，客觀展現人的複雜和真實性。電影《老獸》將於12月11日上映。

動作片《紋身：西部縱橫》開放探班 趙文卓披頭散發搶鏡 演繹亦正亦邪紋身師

日前，由陸壹銅執導，趙文卓領銜主演的動作片《紋身：西部縱橫》正在浙江象山影視城熱拍，11月29日該劇組開放媒體探班，演員趙文卓、大衛·貝爾、李岷城、桑平、壹龍接受記者採訪，並在拍戲之余分享了許多幕後的創作感觸和工作趣事。據趙文卓介紹，此次他飾演的角色突破了壹貫的英雄形象，飾演壹位亦

正亦邪、剛柔並濟的紋身師，以幽默詼諧的形式，點滴生活的展示，呈現正在浙江象山影視城熱拍，11月29日該劇組開放媒體探班，演員趙文卓、大衛·貝爾、李岷城、桑平、壹龍接受記者採訪，並在拍戲之余分享了許多幕後的創作感觸和工作趣事。據趙文卓介紹，此次他飾演的角色突破了壹貫的英雄形象，飾演壹位亦

的唯美，又有現代格鬥的沖擊力和爆發力。

法國的武打新星大衛·貝爾現場介紹：他在戲中飾演壹位馬戲團的老板，在戲中曾與趙文卓進行正面交手。大衛·貝爾是壹位以跑酷見長並學習過中國武術的武打新星，影片中他將“跑酷”與“中國武術”進行完美結合。大衛·貝爾通過網絡和書籍的方式研習了很多關於民國時期人們的生活習慣，細到走路的樣式他都會仔細去研究，只為將“跑酷”這項新興運動與中國傳統武術“完美融合”。據了解，這位以跑酷見長並習練中國武術的法國演員曾在《暴力街區》、《生死新紀元》中有過出色表演，每次出場都以其獨特的跑酷技藝和功夫展示而驚艷全場。據悉，電影《紋身：西部縱橫》所講述的故事發生在1935年的中國西南鹽業重鎮，以壹系列神秘“紋身”圖案為線索，串聯起壹段西部傳奇往事。片中不僅有拳拳到肉的打戲，也有催人淚下的父女情、兄弟情。電影《紋身：西部縱橫》預計將在2018年登陸全球院線。

主演陳奕迅李榮浩甩掉偶像包袱 拼命扮醜 《臥底巨星》曝新海報改檔11.12

由谷德昭執導，陳奕迅、李榮浩、李壹桐主演的喜劇動作電影《臥底巨星》今日宣布改檔2018年1月12日全國上映，同時發布了壹張“爆款”海報。最新曝光的海報中“巨星”陳奕迅亮出“功夫”面露霸氣，“臥底”李榮浩則拿著手槍神態輕鬆，而在本片中狂甩女神包袱的李壹桐、內地喜劇才子崔誌佳、以及實力動作演員陳國坤和周星馳御用綠葉“鄭總”鄭冀峰都從煙霧中被姿態各異的“炸”出，這張“爆款”海報姿態鮮明的亮出了影片的喜劇主調和動作元素。

據悉，陳奕迅在電影《臥底巨星》中除了本身搶戲的泡面頭，還挑戰了各式搞怪的造型，全身順色的彩虹色系唐裝裝騷氣十足，長發飄飄的“女神”裝更是吸睛。而片中飾演“臥底”鐵柱的李榮浩，此次不僅為李壹桐獻出了熒幕初吻，還自毀形象，早先曝光的電影預告片中扮醜的齜牙造型視覺“殺傷力”極大，搭配“我想變成黃曉明”的呼喊，笑果十足。

除了造型，電影裏各種口音方言也是喜劇效果滿滿。內地喜劇才子崔誌佳不僅東北話說得溜，還把陳奕迅帶得十分接地氣，電影預告片中陳奕迅壹句“哎啲我去”逗笑了壹眾網友。而在片中飾演“豹家班”動作指導的劉浩龍壹口港普、“黑幫老大”鄭冀峰的南昌普通話，各種口音混搭在壹起更是極具反差萌。

為了演好這個“功夫巨星”元豹，陳奕迅還特地提前進組接受“魔鬼訓練”，拍攝過程中不僅近身肉搏、高空激鬥、爆破、跳樓輪番上陣，每天大小傷不斷，拍完電影更是“驚人”的發現通過每天高強度的訓練和動作拍攝暴瘦了20斤。雖然打戲不多，李榮浩壹樣是親身上陣，挑戰了壹場難度係數超高的樓道追逐戲，肋骨被頂傷依舊堅持完成拍攝才去醫院。

《臥底巨星》將於2018年1月12日全國上映。

張壹山綁架Hold住姐？後者主動求劫色？喜劇《冒牌監護人之尋寶鬧翻天》曝片段

由陳璋琦執導，張壹山、張藍心、謝依霖以及洪劍濤等主演的動作喜劇電影《冒牌監護人之尋寶鬧翻天》今日正式全國上映，並曝光壹段“劫色可以”正片片段。

片中謝依霖飾演的櫻子被綁在椅子上無法動彈，當發現自己被綁架後她馬上

告訴“綁匪”劫財可以劫色不可行，然而就在“綁匪”漸漸靠近她時，她又大呼劫色可以，可是妳不可以毀我容！

《冒牌監護人之尋寶鬧翻天》講述了本來毫不相關的三路人馬因為“千億萌娃”嘻嘻的出現而交織在壹起，進而發生了壹系列匪夷

所思的有趣故事。但隨著影片情節的不斷深入，在輕鬆愉快的背後觀眾也感受了這部影片滿滿的溫情，當在利益與正義面前、在小我與大我之間，不知如何抉擇時，會被孩子的天真無邪、人性隱藏的真善美所感染，從而找到壹條正確的路，領悟人生真正的意義。

英氣逼人！劉亦菲版花木蘭造型曝光？迪士尼曝真人版《花木蘭》主角宣傳照

今日，迪士尼中國官方宣布真人版《花木蘭》主創陣容：劉亦菲出演主角花木蘭，妮基·卡羅擔任導演，傑森·裏德、傑克·維納擔任制作人，江誌強擔任執行制作人。劉亦菲版花木蘭宣傳照曝光，不知這是否就是電影中花木蘭的形象。

作為女性導演，妮基·卡羅曾導演過《鯨騎士》、《北方風雲》、《麥克法蘭》、《動物園長的夫人》等作品。而作為國內最知名的制作人壹，江誌強參與制作的作品包括《臥虎藏龍》、《英雄》、《色·戒》、《北京遇上西雅圖》、《捉妖記》等。

真人版《花木蘭》早前曾定檔2018年11月2日，由於選角等原因籌備時間變長，預計將在2019年與觀眾見面。此前的動畫電影《花木蘭》曾經在全球收穫3.04億美元票房，並獲得金球獎和奧斯卡提名。

薛家燕(紫裙)與最佳拍檔黎小田載歌載舞。

《歡樂滿東華》2017 同晚舉行，雖然星光一般，但藝人們依然努力演出。

歡樂滿東華今年陣容稍遜

家燕姐為慈善拚到盡 唱歌演劇拆到盡

香港文匯報訊(記者 吳文釗、梁靜儀)香港一年一度大型籌款節目《歡樂滿東華2017》，2日晚於將軍澳電視城舉行，由汪明荃(阿姐)、陳百祥、鄧梓峰、黎芷珊、陳貝兒、麥美恩、崔建邦及陸浩明擔任司儀，王賢誌(Vinci)則擔任嘉賓司儀。雖然參與的藝人陣容略嫌不足，但最用心還是薛家燕，因她表演唱歌之餘又演短劇和玩遊戲，不時都見她的身影。節目共籌得1億零38萬元(港元，下同)。

除了一眾TVB藝人外，2日晚演出的歌手有麥潔文、彭嘉麗、韋綺珊、關楚耀、鄭俊弘、JW及張麗瑾等。打頭陣演出有張秀文、馮盈盈、麥美恩、張寶兒及張寶欣聯同東華主席暨籌委會主席李鑾麟博士太平紳士及東華學生作序幕表演。薛家燕與黎小田及家燕媽媽藝術中心的學生，隨後獻唱《家燕與小田》及《問我》。司儀之一的王賢誌與單立文及胡蓓蔚(豹嫂)大玩“慈心勁抽大濕身”，由汪明荃與總理代表玩剪刀石頭布，結果Vinci和豹嫂都變成“落湯雞”；豹嫂代表的藝員隊更勝出。家燕姐又與蔣志光演出短劇《東華一家人》。

陳凱琳未知何時結婚生孩子

陳凱琳(Grace)負責玩問答環節，要考急才，好玩之餘又為慈善，覺得很有意義。問到會否叫男友鄭嘉穎捐錢？她說：“當然會啦，男友都

很熱心慈善，尤其最想幫小朋友，他今年都會多點參與慈善。(你快些生個小朋友給他?)這些將來都會，兩個人都有共識及喜歡小朋友，但都是計劃中。現在和嘉穎關係很好，不時都傾將來，但幾時結婚生仔就未知。

鄭俊弘(Fred)被問到女友何雁詩早前在陳嘉寶的婚宴上喝醉發酒癲，又稱自己單身，Fred稱相信女友沒發酒癲：“女友酒量好普通，平時都是喝幾杯，相信她不會發酒癲，亦不會像報道所講。自己當日在大馬，沒和女友一齊。”問二人是否仍在拍拖？他稱二人仍在拍拖，報道只是炒作，女友也沒不開心，因不是真事，看完笑笑就算。亦不相信女友要魔術師甄澤權安慰。

車婉婉表演換尿片籌款，自問換尿片都熟手，兒子沒時停，幫他換尿片時就像要太極及玩詠春，拉屎還可，如拉便便就大件事！她又透露8

個月大的兒子已長大，出了8隻牙，快速成長，但前兩日被傳染打噴嚏及流鼻涕，所以有時就瘋狂餵人奶，不想兒子太小就接觸西藥，希望他靠自身抵抗力復原。

明荃之友繼續摺錢紙牌

至於在2日中午，阿姐、陳百祥、Vinci、黎芷珊、應屆港姐冠軍雷莊兒及亞軍何依婷等則到電視城出席拜神儀式。阿姐透露今年明荃之友會捐出以港幣一百元及十元摺成，合共價值13,800元的錢做的“慈帆送寶茶愛心”作慈善拍賣，競投底價為68,000元，她說：“希望有善心人出價，愈高愈好，我心目中當然是高些較好。不過每年都挺受歡迎。”

首次參與東華籌款節目的雷莊兒表示好開心，並於節目內跟何依婷表演跳爵士舞及中國舞，經已記熟舞步。談到該節目會播到深夜，雷莊兒笑言前一晚排完舞便立即回家睡覺，

經已睡了八小時，不過翌日上午11時就約了朋友打排球。她謂都會叫男友打電話捐錢，但對方身處加拿大，希望可以調校好時間。對於聖誕臨近，她表示可能返加拿大陪男友或對方來香港，不過因為工作關係，要視乎到時的安排。

王賢誌最後一年做主持

擔任東華副主席兼節目主持的Vinci，表示做了東華副主席後已連續第三年做節目主持，明年當上主席後便無法做了，因要招呼很多嘉賓，所以會盡量享受節目。問到會否趁機取經？“腦中已Plan緊一些東西，好早已開定有什麼人參與，但我要求明年東華延遲到12月第二個星期才做節目，現在見到相熟朋友都已告知。”說到今年的演出陣容似乎稍遜色時，Vinci指今年的節目以玩遊戲及裝扮為主，現構思明年可邀請多些歌手演出。

陳凱琳稱有和鄭嘉穎三位應屆港姐當晚也有份談過未來大計。

鄭俊弘(右一)否認和何雁詩情海翻波。

單立文(右)要老婆胡蓓蔚變“落湯雞”。

願為演出揮金置裝 容祖兒認私下衣著簡單

容祖兒不會為生兒育女貿然結婚。

香港文匯報訊(記者 李慶全)容祖兒2日出席時裝品牌活動，她笑言自己人愈大愈節儉，在舞台上可以好整齊，私下卻好隨意。主要是自己不捨得浪費，幾年前穿過的衣服還會拿來再穿，相當環保。

笑問是否將賺到的錢拿去買“磚頭”(房產)？祖兒笑說：“會儲起來不用或給媽咪，因不知自己的賺錢能力何時會突然完結，還是積穀防飢好一點！”她笑指現仍會欣賞靚的衣服，但從前常給媽咪投訴她買了很多沒用的東西。“以前我都挺瘋狂，試過用30萬元(港元，下同)買條裙在演唱會穿，但跟大家分享都值得。將來我不在時，都會講給子孫知我還留着這條裙！”又指看中了一件高訂服，但價值100萬，她實在不捨得買。

要是花100萬買婚紗又會否捨得？祖兒笑謂：“我只會花錢在舞台表演上，結婚都是自己的回憶，如我有機會

結婚，美麗的不止在於婚紗，而是整個環境，朋友入場來分享我的快樂。反而舞台就要各方面都一絲不苟！”但會否自己設計婚紗？祖兒表示現時坊間的婚紗多漂亮都有，而且她未有結婚計劃。

生孩子不一定要結婚

提到男友劉浩龍在訪問時說過為生孩子才結婚，記者笑指男友不是為了她才結婚，會否不開心？祖兒說：“我沒有不開心，當然要找到一個好喜歡的人才會去孕育愛情結晶品。在我而言，生孩子不一定要結婚，我可以不結婚呀！”

另談到鍾欣潼(阿嬌)拍拖帶台灣男友回家，祖兒笑指傳媒比她更清楚，記者即叫她上阿嬌家裡打聽。祖兒笑說：“給人安安心樂樂、舒舒服服、甜甜蜜蜜，現在是最轟烈纏綿的時候！”會否教阿嬌拍拖秘技？她說：“沒有人有資格，都是溫馨提示！”

拍哭戲翌日即眼腫 龔嘉欣不急覓男友

龔嘉欣獲粉絲提早慶生，她收到有其肖像的蛋糕。

香港文匯報訊(記者 吳文釗)龔嘉欣2日一身紅衣打扮出席商場美食活動兼預祝生日，數十粉絲現場送上生日蛋糕，祝賀她5日的28歲生日。

2日見嘉欣眼腫腫，原來她前一晚拍完一幕醉酒哭戲，早上起來就眼腫，更要用雙眼皮膠紙。問到拍拖會否是嘉欣的生日願望？她表示不急於拍拖，感情事要慢慢來，反而說為新劇破了自己紀錄，原來是每天只有兩小時睡眠時間，要找一個男生可以接受這點都很難。

陳敏之兒子快一歲 開馬戲團生日派對

抱着兒子的陳敏之(中)與王君馨齊扮學生妹。

香港文匯報訊(記者 梁靜儀)陳敏之、王君馨(Grace)、沈震軒、阮兆祥(祥仔)、江美儀等2日到馬鞍山出席無綫新劇《性在有情》之“度出有情”B活動，敏之更偕同兒子雷子樂出席。

敏之、君馨和江美儀穿上校服扮學生妹，穿上貼身校服的敏之上圍逼爆，被指是“超齡學生妹”，她解釋現時仍有餵母乳，身材當然有看頭。兒子已11個月大，她兒子皮膚好些及沒病痛，打算餵到一歲才戒人奶。敏之又表示兒子冬至生日，加上又近聖誕，故會留港準備為兒子開一歲生日派對，將邀請很多朋友的女子女友出席。由於兒子喜歡動物，故場地會佈置成馬戲團那樣。

健康資訊：巧用《創新牌-靈芝孢子三萜油》

清除體內“生癌環境” 每日只需1粒！

在同樣的生活條件下，有人得癌症，有人不得癌症；這除了因為個人身體素質不同以外，個人的基因免疫水平也不盡相同。目前，越來越多科學家意識到：激發身體自身抗癌免疫，對減少患癌機率十分重要。我們的食物當中有很多好東西可以激發人體自然抗癌力，誘導可戰勝腫瘤形成的抗癌基因，“靈芝三萜類萃取物”就是其中之一。

在靈芝孢子內壁上有一個重要成分叫“靈芝三萜類Triterpene”。這是目前世界科學界公認的免疫療法的重要元素之一。美國科學家但繆爾教授2007年公開報導其“靈芝三萜類”用於治療腫瘤效果的報告。報導指出“用中華瑰寶靈芝提取的‘靈芝三萜類Triterpene物質’不僅對肝臟、肺、乳腺和前列腺等癌細胞具有很好抑制作用，而且還具有“幫助抑制腫瘤周圍組織炎症”。但繆爾教授建議把靈芝三萜類成分應用在“抑制和預防腫瘤的免疫重建工作中。”

其實早在20年前，北京大學醫學部基礎學院藥理學系羅俊和林志彬教授在《靈芝三萜類化合物藥理作用研究進展》一文中就指出：“(靈芝(Ganoderma)為菌綱目靈芝菌科，其主

要成分之一是‘三萜類化合物’。該類化合物有較高的脂溶性，分子量一般為400-600，化學結構複雜。由於化學結構的多樣性，使三萜類化合物有較廣泛的藥理活性，如靈芝酸β，靈芝酸A，靈芝酸B等可明顯抑制HVI-1蛋白酶活性；靈芝酸S可明顯抑制血小板的聚集；靈芝酸O和靈芝多醣可以抑制真核細胞DNA多聚酶活性等。”

目前，高度濃縮的“靈芝三萜類物質”已經被世界各國科學家公認為“人體免疫重建中一個難得的天然強化劑”。法國科學院AMU 博士在2004年指出“靈芝三萜類消除癌細胞周圍組織炎症效果好”。我國科學家林志彬教授在2006年也公開報導其研究結果，認為“靈芝真正抗癌的有效成分是靈芝孢子內壁上的靈芝三萜類化合物”。

“靈芝三萜類化合物”是靈芝和靈芝孢子內壁上存在的一種油脂類性質物質，用生物萃取技術提煉之後，這種脂類物質是一種肉眼可觀測的油類成分，俗稱“靈芝孢子油”。至今為止，中國科學家已驗明靈芝所包含的近130多種三萜類物質(也稱“靈芝酸”)，並確認其中12種三萜類具有明顯的抗癌、防癌作用

；而三萜類中的“五環三萜、四環三萜”對人體癌細胞是最具殺傷力和抑制力。

中國科學院獨家專利技術“超臨界二氧化碳流體萃取技術”從螺旋式破壁靈芝孢子中萃取得到的油狀脂三萜類《創新牌靈芝三萜類孢子油》(特供美國)是目前世界上唯一濃度達到21%的“靈芝三萜類”物質，每日1-2粒，就可起到明顯的免疫增強效果，減少體內生癌環境！其藥理作用已經被法國、英國、日本、新加坡和美國等國科學家公開證實：“可以通過激發自身抗癌力，讓有慾望生存的變異細胞無環境生長”。基於這種原理，我們不難理解為什麼《創新牌靈芝三萜類孢子油》(特供美國)是法國科學院唯一引進產品作為“國際靈芝抗腫瘤藥理成分研究的對象”。癌症康復專線：832-588-7516。德州獨家零售-東方盧林中醫713-774-5558，歐美諮詢/訂購1-877-704-7117。網上訂購http://www.chinese-semiacleherb.com享受VIP優惠。
