## FBI probing cyber attack on congressional campaign in California

WASHINGTON (Reuters) - The U.S. Federal Bureau of Investigation is investigating a cyber attack on the congressional campaign of a Democratic candidate in California, according to three people close to the campaign.

The hackers successfully infiltrated the election campaign computer of David Min, a Democratic candidate for the House of Representatives who was later defeated in the June primary for California's 45th Congressional district.

The incident, which has not been previously reported, follows an article in Rolling Stone earlier this week that the FBI has also been investigating a cyber attack against Hans Keirstead, a California Democrat. He was defeated in a primary in the 48th Congressional district, neighboring Min's.

Paige Hutchinson, Min's former campaign manager, declined to comment. An FBI spokeswoman said the bureau cannot confirm or deny an investigation.

While both Min and Keirstead later lost to other primary challengers from their own party, the two closely-watched races are considered critical, competitive battlegrounds as the Democrats seek to win back Congress from Republicans in November.

It is unclear who was behind the attack against Min's campaign, why it was carried out, and what the hackers did with any information they obtained. But details of the hack, described to Reuters by people with direct knowledge of the case, highlight the concerns of national security experts who fear that campaigns are woefully unprotected as the November mid-term elections approach.

It also illustrates how small political campaigns do not have the resources to protect themselves from cyber attacks. Few can hire computer security personnel.

"Political campaigns only exist for such a short amount of time," said Blake Darche, a cyber security researcher and former National Security Agency analyst. "It takes years to build an effective security program at most corporations. Most political campaigns are only a single phishing email

FILE PHOTO: Hackers try to access and alter data from an electronic poll books in a Voting Machine Hacking Village during the Def Con hacker convention in Las Vegas

away from being breached." While national political parties offer training and software tools to help candidates, they typically do not provide them with financial support to hire computer security experts, even after a campaign believes it has been hit. Corporations often pay security experts more than \$100,000 to investigate an attack, security

experts say. **UNUSUAL ACTIVITY** In late March, Min's staff received a troubling notice from the facility manager where the campaign rented space in Irvine, California, said the people close to the campaign. The facility's internet provider had identified unusual patterns of activity that could indicate a cyber attack

on campaign computers. The four-person campaign team had no in-house expertise to deal with the attack. Instead they enlisted the help of software developers with no ties to the campaign other than that they sat nearby in the same shared workspace that Min rented.

## Iran to unveil new fighter jet, develop missiles: minister

DUBAI (Reuters) - Iran will unveil a new fighter jet next week and continue developing missile capabilities as a top priority, the defense minister said on Saturday, defying new U.S. sanctions aimed at curbing Tehran's missile program and regional influence.

Iran's navy also announced on Saturday that it has mounted a locally built advanced defensive weapons system on one of its warships for the first time, as tensions mount with the U.S. military in the Gulf. U.S. President Donald Trump withdrew the United States in May from a 2015 accord between Iran and world powers that curbed Tehran's nuclear activity in exchange for sanctions relief.

Trump said the deal was deeply flawed as it had not curbed Iran's ballistic missile program or reined in its support for proxies in conflicts in Syria, Iraq and Yemen.

Iran has dismissed any direct talks with Washington to resolve the issues raised by Trump.

"Our top priority has been development of our mis-

sile program. We are in a good position in this field, but we need to develop it," Brigadier General Amir Hatami was quoted as saying by Fars news agency on Saturday. "We will present a plane on National Defense Industry Day, and people will see it fly, and the equipment designed for it," Hatami added. Iran celebrates National Defense Industry Day on Aug. 22.

Iran unveiled in 2013 what it said was a new, domestically built fighter jet, called Qaher 313, but some experts expressed doubts about the viability of the aircraft at the time.

Iran's functional air force has been limited to perhaps as few as a few dozen strike aircraft, either Russian or ageing U.S. models acquired before the 1979 Iranian revolution.

Iranian Navy Commander Rear Admiral Hossein Khanzadi said on Saturday that "coastal and sea testing of the short range defense Kamand system were concluded successfully, and said this system was mounted ... on a warship and will be mounted on a second ship soon,"

## Houston actor Dennis Quaid selling \$6.5M California mansion after third divorce

By Daniela Sternitzky-Di

Actor Dennis Quaid is selling his Spanish-style home in Pacific Palisades, CA, just months after finalizing his third divorce.

Quaid, 64, picked up the six-bedroom, nine-bath home in July 2013 for \$5.1 million. At the time, he was in the midst of an on-again/off-again relationship with his third wife, Kimberly Buffington Quaid. They finalized their divorce earlier this year.

Actor Dennis Quaid is selling his Spanish-style home in Pacific Palisades, CA, just months after finalizing his third divorce.

The 6,100-square-foot home they leave behind is classic old Hollywood. Built in 1929 on West Sunset Boulevard, it is five minutes from the beach and surrounded by paparazzi-defying bamboo and privacy hedges. Mature palm trees give the home a subtropical, Spanish Riviera feel.

Its entrance opens to an oversized foyer with stone archways and a decorative indoor fountain filled with plants.

Just off the entrance is the double-height living room, with exposed wooden beams, arched windows, and a floor-to-ceiling stone fireplace. The living room comfortably fits three couches, side tables, a coffee table, sitting area, and piano. Up a few steps from the living room is the formal dining room, which has a colorful, leaded-glass window and large dining table.

The kitchen has floor-to-ceiling subway tile, a stone island with wine refrigerator, Wolf range, and Viking double-refrigerator with glass doors.

The master bedroom has a sitting area and all-white walk-in closet. Elsewhere, there's a small home gym with large mirrors, swimming pool, and spa.

Quaid has, with few exceptions, appeared in at least one movie per year from 1975 to the present day. Last year, he starred in the British sci-fi TV thriller "Fortitude," and the widely panned, but profitable dog reincarnation movie, "A Dog's Purpose."

***Called New Clark City, The Urban Project Is Envisioned To Be Smart, Sustainable And Resilient To Disasters***

**The Philippines Is Planning To Build A "City Of The Future"**

Compiled And Edited By John T. Robbins, Southern Daily Editor

The Philippines, home to Manila's standstill traffic jams, is aiming to become known for the "city of the future."

Called New Clark City, the urban project is planned to be a high-tech green city promising science-fiction-worthy technology, from robots to drones to self-driving vehicles. It's located 120 kilometers outside the Philippine capital, and its investors hope it will be the first of its kind in the country: smart, sustainable and resilient to disasters.

Of course, many countries are aiming to build their own version of the city of the future, and the Philippines still has a long way to go in its economic development, so the project's financial future is not a certainty.

According to its lead developers, the project is mainly funded through public-private partnerships — a move necessary for the cash-strapped country.

The development could one day take some pressure off congested capital Manila, according to Singapore-based urban planning firm Surbana Jurong, one of the partners in the project.

The smart city aims to tap on up-and-coming technologies that would tackle issues arising from the increasing population density in the Southeast Asian country. "Driverless cars probably would be intro-

duced into there, and therefore requirements for car parking will be lessened," Surbana Jurong CEO Heang Fine Wong told CNBC's "Street Signs."

The new urban space would become a "twin city" to Manila, he said. "You'll gradually see Manila becoming a different type of city, maybe more financial to support the New Clark City, and in New Clark City you'll see new technology companies coming through," he explained.

Attracting customers who would be willing to relocate to New Clark City from the country's capital will likely be a challenge. The Philippine government recently announced it is committed to moving some offices to New Clark City, but the main goal plan is for foreign investors to set up operations there, according to Wong.

New infrastructure projects, meanwhile, could bridge the distance between Manila and New Clark City, Wong said. A brand new railway line is being built by the Japan Overseas Infrastructure Investment Corporation for Transport & Urban

Development. The train would reduce the travel time between the two cities to one hour from the current two to three hours.

The first phase of the project is slated to finish by 2022, but Wong said that the goal is to keep developing as technologies advance.

But technical hurdles would still need to be resolved said Wong. "All these things need to be planned. You need that network of communication. And also a cyber security network needs to be put in place," he said. (<https://www.cnbc.com>)

# 甄子丹揭秘拍校園片《大師兄》的初衷

## "市場希望我拍《殺破狼》，我卻想做教育片"

8月15日，由甄子丹發起、出品、監制兼主演的電影《大師兄》在京舉行首映禮，會上談及為何會做壹部校園片的初衷，甄子丹表示：“我壹直想拍壹部教育片，但是市場希望我拍《導火線》、《殺破狼》、《葉問》，而我想利用電影這個平臺去做更多有意義的事，所以花了很多時間說服投資者。最終我們在戲裏加入了動作、喜劇等多種商業元素，不是硬要大家聽壹些大道理。”

在電影《大師兄》中，甄子丹首次挑戰

全能教師，遇到了世界上最可怕生物——“熊孩子”，而他飾演的陳俠老師不僅要苦口婆心抓學習，還要大打出手保安全，堪稱史上“最難班主任”。面對“最差班級”從未想過放棄，而是選擇深入了解每個學生的問題，“對癥下藥”引導他們走向正道。

其實在宣傳《追龍》時甄子丹就重申過他的拍片理念，那就是用電影給社會帶來壹些正面影響。《追龍》裏的“跛豪”讓他興奮，但也壓力倍增：“每天回家我

都要對著鏡子卸下面具，第二天早上再變成跛豪，非常痛苦，而且演壞人我都不知道要怎麼跟小孩子解釋，所以這應該是我最後壹次演反派。”

監制王晶表示：“老師把學生教好這種題材以往也有不少，可是壹個有那麼好身手、有那麼多過去的老師去教好壹幫學生，卻是從來沒有的。這就是我們電影的過人之處，也是最能給人以啟發的地方。”

發布會現場也首度公開了影片的推廣曲

mv——由香蕉男團TANGRAM出演並演唱的《向前沖》，傳遞出引領年輕人克服困難勇敢向前的正能量。

提及拍攝《大師兄》最大的感受，甄子丹坦言，和這首《向前沖》壹樣，過程中克服了重重困難，前後花了壹年多的時間才完成，“所以我們也想通過這首歌、這部電影來告訴所有的年輕人，遇到事情不要怕，勇敢地邁出去，勇敢地走每壹步，什麼困難都是可以解決的。”

# 馬伊琍素顏扮醜 還要挑戰開大貨車?

## 《未擇之路》海報預告雙發 西部戈壁灘探險

由唐高鵬執導，王學兵、馬伊琍、朱耕佑主演的電影《未擇之路》今日曝光了“旅程版”預告，幾位主要人物紛紛現身，壹段滿是艱險的旅途初現端倪。而壹同曝光的概念海報中，面向不同方向、孤獨佇立的三個人，則讓觀眾對他們的關係以及故事的最終走向更加好奇。該片將於9月14日全國上映。

《未擇之路》講述了壹個發生在西部戈壁深處的兇險卻不失溫暖的故事。在最新曝光的預告片中，二勇（王學兵飾）、尕娃（朱耕佑飾）、小眉（馬伊琍飾）等主要人物悉數登場，“未擇之路”上的種種險情也終於揭開了神秘面紗。

預告以二勇嚴肅地將尕娃藏進車廂中拉開序幕，隨後，尕娃又搭著二勇的脖子大喊“壞德”，兩人搭上小眉的車後，尕娃又向小眉求助，但其中又穿插著三人壹同拍攝類似全家福的鏡頭，讓人不禁疑惑這複雜的人物關係；預告後半段則畫風壹轉，各類沖突輪番上演，似乎預示著這趟旅程的兇險，而最後尕娃的壹句“如果我爸不給錢，妳會殺我嗎”又留下了極大的懸念，讓人期待值大增。

壹同曝光的海報也同樣引人深思。深藍色的主色調為影片打下了嚴肅、沈重的主基調；上方幾乎占據了壹半畫面的蒼茫天空，既給人無盡的悲涼之感，也代表了前路坎坷；而畫面正中，各自看向不同方向的三人雖毫無交流，但均神色平靜、略帶愁容，好似背負著秘密，令整個故事走向更加撲朔迷離。

該片在拍攝時幾乎穿越了整個河

西走廊，全程長達1100多公裏，從沙漠到戈壁灘、從有植被的荒原再到城市，劇組全部實景拍攝。而在預告片中，蜿蜒的公路、連綿的沙丘、通透的藍天以及路邊的簡易瓜棚等景色，再加上二勇、小眉等人純正的西北腔，也確如導演所說，將中國西部的風情全景呈現。

《未擇之路》將於9月14日在影院上映。
