Trump, Iran's Rouhani exchange threats, insults on U.N.'s world stage

UNITED NATIONS (Reuters) - U.S. President Donald Trump and Iranian President Hassan Rouhani exchanged taunts at the United Nations General Assembly on Tuesday with Trump vowing more sanctions against Tehran and Rouhani suggesting his American counterpart suffers from a "weakness of intellect."

Trump used his annual address to the United Nations on Tuesday to attack Iran's "corrupt dictatorship," praise last year's bogeyman North Korea and lay down a defiant message that he will reject globalism and protect American interests.

But much of his 35-minute address was aimed squarely at Iran, which the United States accuses of harboring nuclear ambitions and fomenting instability in the Middle East through its support for militant groups in Syria, Lebanon and Yemen.

"Iran's leaders sow chaos, death and destruction," Trump told the gathering in the green-marbled hall. "They do not respect their neighbors or borders or the sovereign rights of nations."

Rouhani, addressing the assembled world leaders later, sharply criticized Trump's decision to withdraw from the 2015 Iran nuclear deal, said he had "no need for a photo opportunity" with Trump and suggested the U.S. president's pull back from global institutions was a character defect.

"Confronting multilateralism is not a sign of strength. Rather it is a symptom of the weakness of intellect - it betrays an inability in understanding a complex and inter-

connected world," he said.

Trump's address was met largely by silence from world leaders still not comfortable with go-it-alone views that have strained U.S. relationships with traditional allies worldwide. His speech, while delivered in a low-key fashion, was nonetheless a thunderous recitation of his "America First" policies. He has disrupted the world order by withdrawing the United States from the Iran nuclear deal and the Paris climate accord, and threatened to punish NATO nations for not paying more for the ir common defense.

"We will never surrender America's sovereignty to an unelected, unaccountable, global bureaucracy," Trump said, in language popular with his political base. "America is governed by Americans. We reject the ideology of globalism, and we embrace the doctrine of patriotism."

Besides calling out Iran, Trump also criticized China for its trade practices but made no mention of Russia's interference in Syria's war or its suspected meddling in U.S. elections.

Google to acknowledge privacy mistakes as U.S. seeks input

WASHINGTON (Reuters) - Leading internet search engine Google will acknowledge that it has made "mistakes" on privacy issues in testimony an executive of the Alphabet Inc (GOOGL.O) unit will deliver to a U.S. Senate committee on Wednesday, according to a document reviewed by Reuters.

"We acknowledge that we have made mistakes in the past, from which we have learned, and improved our robust privacy program," Google chief privacy officer Keith Enright will say in written testimony before the Senate Commerce Committee. Google will testify alongside AT&T Inc (T.N), Amazon.com Inc (AMZN.O), Apple Inc (AAPL.O) and other companies amid growing concerns about data privacy.

Google's written testimony did not identify specific prior mistakes but the company has come under fire for privacy issues.

In 2012, Google agreed to pay a then record \$22.5 million civil penalty to settle Federal Trade Commission charges that it misrepresented to Apple Safari Internet browser users that it would not place tracking "cookies" or serve them targeted ads.

A year earlier, Google agreed to an FTC privacy settlement and regular privacy audits for 20 years after the government charged it used deceptive tactics and violating consumer privacy promises when it launched its social network, Google Buzz.

In August, Alphabet was sued and accused of illegally

tracking movements of millions of iPhone and Android phone users even when they use a privacy setting to prevent it.

A Google sign is seen during the WAIC (World Artificial Intelligence Conference) in Shanghai

The U.S. Commerce Department said it was seeking comments on how to set nationwide data privacy rules in the wake of tough new requirements adopted by the European Union and California.

Also, the Justice Department said it held a "listening session" with state attorneys general on how the government can safeguard consumers online. Senate Commerce committee chairman John Thune wrote that Congress must work on enshrining consumer data privacy protections into law. Congress has questions about how internet companies sell advertising and use data from email accounts or other services. Thune wrote in The Hill newspaper that "mounting controversies" have fed doubt that tech companies can "regulate themselves and enforce real privacy safeguards for the collection and use of our digital data."

Massive breaches of data privacy have compromised personal information of millions of U.S. internet and social media users, including notable breaches at large retailers and credit reporting agency Equifax Inc (EFX.N). Enright's testimony says "with advertising, as with all our products, users trust us to keep their personal information confidential and under their control. We do not sell personal information. Period." Andrew DeVore, an Amazon vice president, will tell the committee that new European privacy rules "required us to divert significant resources to administrative and record-keeping tasks and away from inventing new features for customers."

Chuck E. Cheese's to open first rebranded store in Houston

Chuck E. Cheese's on Thursday plans to open its first redesigned store in Houston, part of a national rebranding effort that aims to improve the customer experience for parents and kids.

The Irving chain's classic restaurants and birthday venues -- remember bright colors, flashing lights and the smell of greasy pizza -- are being replaced with modern interiors featuring muted colors, updated furniture and house-made pizza, sandwiches and wraps.

The first 2.0 store in Houston, located at 146 FM 1960, will have a light-up dance floor and hourly live shows instead of the animatronic show. In the arcade game area, "Play Passes" cards will replace tokens. Tickets redeemable for prizes will still be around.

"This new location is a landmark of the brand's evolution and it will provide a modern, clean and fun experience for the entire family for years to come," the company said in a statement.

"It's been an amazing ride": Texas country singer Charlie Robison retires due to surgery problems

By Craig Hlavaty

Texas Red Dirt country scene mainstay Charlie Robison announced on Monday via social media that he has called it a career after complications from a surgery earlier this year damaged his vocal cords. Robison, just 54 years old, has been a constant touring act on the Lone Star circuit and beyond for decades. His debut solo album titled "Bandera" was released in 1996. His latest album, "High Life," came out in 2013. One of his most enduring hits, covered by many in his scene, was 1998's "My Hometown" which name-checks his native Houston and is an autobiography up to that point in his career.

Earlier this year in April his official Instagram page revealed that Robison had serious throat surgery. He had been playing shows regularly up until at least March. On his official Facebook page where he communicates

with over 86,000 fans, Robison released a statement. His trademark rugged personality seems to still be in place. "Hey amigos, Charlie here. I'm sure you've all been wondering where I've been. Well, at the beginning of this year I underwent a surgical procedure that because of complications left me with the permanent inability to sing. Therefore, with a very heavy heart I am officially retiring from the stage and studio."

Robison added, "Gonna keep it short but just wanted y'all to hear it from me. It's been an amazing ride and I cannot tell you all what the last 25 years has meant to me. I was looking forward to another 25 but as they say "(expletive) happens". I thank you all for everything you've given me and I hope I was able to give you a fraction of the happiness you gave me. It was a hell of a ride but as they say all good things must end. Keep on supporting this thing we call Texas/Red Dirt and hopefully we'll all get to have a cocktail or two and talk about the good ol' days. Until then, Buenos Noches. It's been fun. Love each and every one of y'all. C."

Charlie Robison performs at the Redneck Country Club in Stafford in October 2016. Robison announced this week that he has retired from performing due to throat surgery.

Texas Bullet Train One Step Closer To Reality With \$300M Loan

Compiled And Edited By John T. Robbins, Southern Daily Editor

Proposed Texas Bullet Train Route

AUSTIN (KXAN) — A Texas company wanting to build the state's first high-speed passenger rail line got a major boost recently. Texas Central got a loan of up to \$300 million from Japan Overseas Infrastructure Investment Corporation for Transportation & Urban Development and Japan Bank for International Cooperation. Travis Kelly, vice president of Texas Central, said this is critical to "completing the regulatory processes, doing engineering and design work and securing permits." "Driving is unpredictable," Kelly said. "It should take 4.5 hours to go from Dallas to Houston, but it often doesn't."

The bullet train Texas Central is proposing is supposed to take you from Dallas to Houston in 90 minutes.

"You can use it to surf the web, take a nap, get ready for your meeting, have a meal," Kelly said. "Whatever you need to do with your time, you can do that on the train."

Kelly explained they're working with Central Japan Railway Company, which operates high-speed rail lines in Japan. "They introduced the concept of high-speed passenger trains to the world [in the 1960s]," Kelly said. "They've since been optimizing and improving on that technology over those many decades. We're going to be deploying their technology."

Kelly said, right now, their goal is to secure more funding and start construction next year. They expect construction to take about 5 years.

"I think it's an aggressive schedule," said Chandra Bhat at UT Austin's Center for Transportation Research. "If everything else works out from the technology perspective, from the construction perspective, it may be feasible. But I think there are other elements that eventually come up that have to be addressed and that might put

this off."

Another project in the works in Texas is Virgin Hyperloop One.

They announced their plans to connect North Texas and Laredo through Hyperloop back in July. Their long-term proposal includes a stop in Austin. Professor Christian Claudel at UT Austin said, "Hyperloop is a radical change from the bullet train concept."

Hyperloop is a low-pressure tunnel where pods can travel at up to 700 miles per hour, but Claudel said it is more expensive and harder to develop.

"I think that commercial exploitation with passengers is at least a decade away. One of the most difficult parts is safety and certifications," Claudel said.

Virgin Hyperloop One representatives said, however, their system is cheaper to build, maintain and operate.

They sent a statement to KXAN after this story aired:

"Virgin Hyperloop One's goal is to have operational systems in service by the mid-2020s, but much of our ability to meet that goal will depend on the speed in which the regulatory process moves forward. So far, we've received a very positive response from government to our technology."

The \$300 million loan Texas Central got is just a fraction of what they need to complete the project. They expect the Dallas-Houston route will cost about \$15 billion to complete. Hyperloop One doesn't have any total cost estimates yet.

Northwest Mall could gain new life as terminal for Houston-Dallas bullet train

Hundreds turned out in Cypress to ex-

press displeasure with project.

Once a Houston destination for shopping, movies and visits with Santa, the site of Northwest Mall is poised for revival as a bullet train terminal, with local officials and train backers seeing dollar signs from the sales tax growth potential.

Texas Central Partners and Houston-area elected officials on Monday announced that the company, which is seeking federal approval for a 240-mile high-speed train line, has chosen the mall's 45-acre tract near Loop 610 and U.S. 290 as its preferred site for the southern terminal.

Mayor Sylvester Turner called the announcement further proof of a dramatic change in how — and where — people will travel in the Houston region.

"We are moving to a new phase in this city," Turner said at a Monday ceremony announcing the site selection and releasing renderings of the proposed station.

The station would alter mobility for miles around it, as Houston — with some yet-to-be-determined help from Texas Central — aims to connect the location to downtown, both Houston-area airports and other major job and entertainment centers.

The announcement was timed to coincide with a public hearing Monday night in Cypress on the high-speed rail line, where critics lined up to lament the plan, which calls for trains on elevated tracks.

"We have been shouting this from the rooftops ... it does not cash flow," said Waller County Judge Trey Duhon, who said he fears the company will seek a government bailout if allowed to build. "It may not run through your property, but it will run through all of our pocketbooks." The project, expected to cost between \$15 billion and \$18 billion to build, must receive federal approval to proceed, even though it is privately funded.

Though vigorously opposed by rural areas where the train is expected to speed by at more than 200 mph, Texas Central has broad support in the metro areas. Both the Houston and Dallas regions are expected to swell to 10 million residents by 2035. That growth will require new ways to move, officials said, for both regions to reach their economic potential.

"Right now, we compete against Dallas. But with that 90-minute trip, we will compete with Dallas," Harris County Precinct 4 Commissioner Jack Cagle said.

Texas Central has an option to buy the Northwest Mall land, said Jack Matthews, who is handling property acquisition for the company. Transit improvements

Redeveloping the site into a major train hub that would attract an estimated 18,000 travelers daily is expected to result in new restaurants, shops and hotels in the vicinity. Plans call for trains to leave every 30 minutes throughout most of the day from Houston, making the trip to Dallas in around 90 minutes. A stop also is planned in the Roans Prairie area of eastern Grimes County, between College Station and Huntsville.

The station also means road and transit improvements. The company in a statement said it expects road improvements along Post Oak Road at Hempstead Road, Post Oak Road at Old Katy Road and West 18th Street at Hempstead Road.

City and company officials in August agreed to share information and develop a plan for road and transit improvements.

Future proposed routes of the Texas Bullet Train.

Prior to the agreement, downtown officials and some city leaders were discouraged when an early analysis by Texas Central showed it would be cost-prohibitive to bring bullet trains inside Loop 610.

Though not certain, Metropolitan Transit Authority chairwoman Carrin Patman said the hope is to develop light rail between the high-speed train terminal and downtown.

"What we'd like to see is something where maybe there is an opportunity for partnership, something that benefits both sides, which we're looking for, for this and other parts of the (Metro) service area," Patman said.

All of those plans for encouraging growth hinge on the trains ever getting on the tracks.

'Devil is in the details'

The train plan is vehemently opposed by rural landowners and officials who say it only benefits the metro regions, while ruining their quality of life and tranquility. Skeptics have cast doubt on the proposal, ranging from its business sense to claims made by Texas Central about noise, visual effects and ridership claims.

"At first I was very excited. But the devil is in the details and it is not great," said Nel Coffey, a Jersey Village resident who travels frequently to Dallas to visit family. Coffey also questioned the value of pursuing rail, when other travel technologies show more promise.

"We should not be looking at a 50-year-old train that is going to destroy people's lives," she said.

The Federal Railroad Administration hosted the Cypress hearing and another Monday in Madisonville so the public can comment on the preliminary environmental report for the train project, backed by a cadre of state investors using trains developed in Japan.

Six meetings were held last week in northern and central Texas. Company officials kicked off those meetings by announcing the site for the Dallas terminal, on a tract already owned by the company south of downtown.

Texas Central said it hopes to have federal clearance for the line by the end of the year. If approved, construction could start in 2019. The environmental review estimated construction would take about five years. (Courtesy <https://www.chron.com/news>)

The US believes factory-produced opioids - powerful painkillers increasingly abused by US citizens - are being made in China and sold from there too.

One of the main ones is fentanyl - 50 to 100 times stronger than morphine - which is only approved in the US for severe pain arising in cases like treatment for cancer. President Trump has called out China publicly.

China, while not denying there's a problem, has hit back at claims that most illegal fentanyl is from China.

A senior Chinese official, Yu Haibin of the National Narcotics Control Commission, said there was "no proof" of this, and described President Trump's comments and "unacceptable" and "irresponsible".

Mr Yu had earlier spoken about growing drug demand in the US as the real problem, and suggested there should be better intelligence sharing with China.

There's no doubt a lot of these chemicals are produced in China - although in exactly what quantities is impossible to tell. And despite the rhetoric, China has been taking some steps to address the problem.

Dangerous chemicals

These synthetic drugs are cheap to make, are sold on the internet and sent by post, either directly to the US or to trafficking networks based in Mexico.

On arrival at their destination they can be mixed in very small amounts with other drugs, especially heroin, to increase their potency.

"Fentanyl is potentially lethal, even at very low levels. Ingestion of doses as small as 0.25mg can be fatal," states the US Drug Enforcement Agency (DEA).

It's also relatively easy to alter its chemical structure to produce similar substances - known as fentanyl analogues - to bypass legal controls.

Amid tension between China and the US over trade, there's also friction over another issue - the illegal trade in synthetic drugs

The Fentanyl Crisis: Is China A Major Source Of Illegal Drugs?

Compiled And Edited By John T. Robbins, Southern Daily Editor

China has one of the largest chemical industries in the world.

"The countless possibilities to create new compounds by small changes in chemical structures pose a growing challenge to international control of the opioid trade," states the UN Office for Drugs and Crime.

Growing concerns - not just in US

The US authorities are increasingly worried about opioid abuse, and have now put all fentanyl-related products into the most dangerous class of drugs.

In testimony before Congress, Assistant Secretary of State Kirsten Madison described the situation as the most "severe drug crisis" the US has ever faced.

She said that in 2017, more than 40% of the 72,000 drug overdose deaths in the US involved synthetic opioids like fentanyl.

Health statistics from Canada show that last year, 72% of deaths related to opioid abuse were believed to involve fentanyl or related substances - up from 55% in 2016. Europe's drug monitoring agency the EMCDDA, which covers the EU plus Turkey and Norway, said in a report this year that "the number of synthetic opioids has grown rapidly in Europe since the first substance was reported in 2009".

The China connection

US officials are unequivocal that China is the main source for fentanyl and similar drugs.

In October 2017, the US authorities announced the first ever indictments against two Chinese individuals for conspiracy "to distribute large quantities" of fentanyl as well as other opioids.

Katherine Pfaff, spokesperson for the US Drug Enforcement Agency, told the BBC that interceptions from the US postal system, information from people on the ground, and tracking cyber footprints, leads them to believe a "significant amount" comes from China.

The European drug monitoring agency report states: "It appears that most shipments of new fentanyls coming into Europe originate from companies based in China."

However, it added that there have also been some examples of illegal production by laboratories in Europe.

And, although the Chinese authorities don't officially accept that most fentanyl is produced in China, they have taken some action.

Martin Raitelhuber, an expert on synthetic drugs with the UN Office on Drugs and Crime, says China now has restricted more than 150 chemicals that can be used

to create synthetic drugs.

"They have been quite active in introducing national controls," he adds.

The DEA's Pfaff told Reality Check that China is "recognising the problem" and that there's an "on-going, strong working relationship" with the Chinese.

Regulation and corruption But do the Chinese have a problem regulating their large and rapidly growing pharmaceutical industry?

Drugs policy expert at the Rand Corporation in the US, Bryce Pardo, describes their regulatory capacity as "limited".

"Gaps in regulatory design, the division of responsibility between provincial and central governments, and lack of oversight and government and corporate accountability, increase opportunities for corruption," he says.

"I think it is fair to say that a lack of regulatory capacity, perhaps regardless of the letter of the law, certainly limits their ability to control the industry," says John Collins, head of the International Drug Policy Institute at the London School of Economics (LSE).

The other problem is that as more controls are introduced, new chemical substances are produced to get around them.

"The lessons from other countries suggest that effective regulation and enforcement does not ensure the absence of an illicit market," adds Collins.

"In the presence of a demand, supply finds a way."

He believes a more comprehensive approach to managing the overdose crisis in the US is needed, not simply relying on control of supply from abroad.

And that is also part of China's argument - that the US needs to address its growing demand for such drugs, rather than just blaming Beijing. (Courtesy https://www.bbc.com/news/world)

陳偉霆獻唱 主題曲MV&全陣容海報曝光 《橙紅年代》打響正義之戰

由劉新執導，陳偉霆、馬思純、劉奕君、陳瑤、葉祖新、何明翰領銜主演的都市英雄傳奇電視劇《橙紅年代》開播。今日，片方推出陳偉霆獻唱的主題曲《光》MV和“光榮出擊”版全陣容海報。

《橙紅年代》以緝毒案件為背景，講述了以劉子光（陳偉霆 飾）為代表的壹群追求理想生活的普通市民，和以胡蓉（馬思純 飾）為代表的壹支時刻保護百姓生命財產安全的公安民警隊伍，用熱血和正義與罪惡勢力作鬥爭的故事。

顛覆以往的是，陳偉霆此番出演的劉子光擁有雙面人生：八年前的他深入龍潭虎穴的M國打拚闖蕩，因為毒梟大哥聶萬峰（劉奕君 飾）的出現而徹底改變命運軌跡，在正邪的邊緣徘徊；八年後的他回到曾經的家鄉江北市，卻意外地失去了八年記憶，身份成謎。

飾演劉子光“宿命冤家”胡蓉的馬思純呈現出壹位集英氣與溫柔於壹身的麻辣警花。面對滿身疑點的劉子光，胡蓉堅決負責追查到底，面對陰險狡獪的犯罪分子，胡蓉以身犯險沖在第一線，在發現劉子光的善良本質後，胡蓉漸漸敞開心扉。熱血正義的青年，英姿颯爽的女警，都身處危機四伏的環境，擁有複雜的人生經歷，光是男女主角的人設便足夠吸睛，兩人之間的“較量”和情感糾葛成為本劇最令人期待的看點之壹。

據悉，為了詮釋角色，陳偉霆在開機前便開始體能訓練，為了劉子光這壹角色增肌、蓄胡、曬黑。陳偉霆曾經透露：“當我睡覺前想到壹個很劉子光的行為，我就會記錄下來，第二天跟導演商量能不能加到戲裏面。無時無刻不在想這個角色，只希望呈現壹個立體的劉子光給大家。”

馬思純也向身為警察的父親請教了許多方面的細節，包括搜身時的姿勢、進審訊室的時候穿便衣還是警服等，她坦言：“如果有壹點不對，妳創作出來的這個角色就是不專業的，所以必須講究。”

《無雙》動作戲 周潤發唯壹“替身”就是自己

將於9月30日上映的電影《無雙》在9月24日首映，博納影業集團總裁兼電影出品人於冬，導演莊文強，主演周潤發、郭富城、張靜初、馮文娟等亮相。

《無雙》講述了壹段周潤發飾演的犯罪天才“畫家”與郭富城飾演的造假天才李問雙劍合璧，聯手造出超級美金的犯罪故事。十五年前，電影《無間道》橫空出世，被譽為香港電影的“救市之作”。編劇莊文強之後陸續又創作了《傷城》、執導了《竊聽風雲》系列。

《無雙》中，莊文強將周潤發和郭富城打造成“鈔級大騙”，兩人聯手造出五百噸超級美金。為了能完美呈現假鈔的工藝，莊文強花了十年時間去研究，翻閱了很多真實案例，“現在已經算是半個假鈔

專家了”。莊文強透露，為了“印假鈔”就已經花了20萬，“電影裏所有的假鈔都是我們自己印出來的。”雖然影片在假鈔制作工藝上有非常精細的刻畫，但莊導也直言“不怕有人按照電影的方式造假鈔”，畢竟鈔票的防偽技術壹直在更新換代，電影只是藝術作品。

在《無雙》中，發哥飾演的“畫家”是壹個心狠手辣的角色。周潤發表示，這個角色很有發揮空間：“其實做演員就看妳運氣好不好，我覺得我是個運氣很好的人。我很感謝莊導寫出這樣壹個很懸的角色，他把周潤發最好的形象都放在這部電影裏了。”周潤發在片中有大量動作戲，莊文強稱，全片發哥唯壹的壹個“替身”就是他自己，所有的畫面包括動作戲都是他上陣完成的，“這

麼多年都沒變，他還是跟以前壹樣年輕又能打，我都不知道他是怎麼做到的。”

郭富城與周潤發曾在電影《西遊記之大鬧天宮》及《寒戰II》中合作，但對手戲不多，如今兩人在《無雙》中終於有了鬥戲的機會。周潤發對郭富城大加贊賞。對於人們說他片中愛郭富城勝於愛鈔票，周潤發笑說：“我愛他就是愛自己，他也壹樣，我們倆的關係就是自戀的關係。”郭富城贊周潤發鏡頭外是開心果，拍戲時則很專註，在銀幕上很帥，十分有魅力。

去年，博納的《追龍》成為國慶檔壹大黑馬，今年又有這部《無雙》國慶檔上映，壹向自信滿滿的博納影業總裁於冬昨日頗為自信地表示，《無雙》壹定是今年國慶檔票房冠軍。預測是否準確，國慶檔見。

《滴答屋》：又萌又可愛的奇幻片

由執導驚悚恐怖片出名的導演來打造童話兒童奇幻冒險電影，如此反差究竟會擦出怎樣的火花呢？史蒂文·斯皮爾伯格的安培林娛樂打造的奇幻冒險喜劇《滴答屋》（又譯《牆上有壹個鐘的房子》）似乎給出了壹個令人滿意答案。片中所描繪的壹場豐富飽滿的奇幻旅程，非常適合全家人壹同觀賞。

奇幻新片《滴答屋》改編自約翰·貝拉斯1973年創作的同名哥特風恐怖小說，講述上世紀中期，男孩路易斯（歐文·瓦卡羅飾演）因為壹場車禍失去雙親。那之後路易斯搬去與監護人強納森（傑克·布萊克飾演）壹起居住在壹棟總是發出神秘時鐘滴答聲的老房子裏，並認識了神秘的鄰居齊默爾曼太太（凱特·布蘭切特飾演）。

本身就太會交朋友的路易斯換到新學校更是辛苦。為了拉攏朋友，路易斯不小心喚醒亡靈，開啟了奇幻世界大門，同時也喚醒了神秘老房子內的神秘力量。

《滴答屋》導演是以驚悚片著稱的伊萊·羅斯，他最膾炙人口的作品包括電影處女作《屍骨無存》、以及《人皮客棧》，同時他還是壹名演員，曾經在昆汀·塔倫蒂諾的《無恥混蛋》出演角色。

這回伊萊·羅斯選擇執導壹部兒童片，雖然讓人有些意外，但片中還是看到他最為擅長的驚悚元素。當那些招牌的驚悚把戲遇到壹部老少皆宜的兒童電影，並沒有顯得不倫不類，反倒是傳遞出壹種又萌又可愛的詭譎。

就像在預告片中就曾經出現過

的那惡南瓜朝人噴橘色汁液的戲碼，讓人不禁想起《捉鬼敢死隊》裏面那只朝人嘔吐綠色黏液的綠色惡鬼Slimer。雖然這算不上是驚悚片的新招，不過在《滴答屋》裏出現還是會讓人倍感驚喜。

在片中，驚悚鬼魅的惡鬼，都以非常逗趣可愛的方式鋪陳現身，從小孩子們咯咯的笑聲，而非驚聲尖叫就能看出它的過人之處。

凱特·布蘭切特的演出依舊帶給觀眾滿足感，她在《滴答屋》中飾演壹位有格調又不高傲的巫婆齊默爾曼太太，與強納森鬥起嘴來盡展毒舌機智，笑料十足。齊默爾曼太太對路易斯更有壹種母愛式的保護，打起怪來壹點都不輸大魔王“海拉”的犀利。大銀幕上的齊默爾曼太太臉上總掛著壹種自信內斂的笑容，表情更是恰到好處的誇張，有別過

往的演出，更是看的讓人雀躍。

論及表演的恰到好處，自然也少不了傑克·布萊克。他飾演的叔叔雖然依舊非常的“傑克·布萊克”，但還是有別於《搖滾校園》中那樣沖破屋頂、幾近瘋狂的誇張，而是內心溫柔善良、頗有大男孩氣質的強納森。他雖然不太會照顧小孩，但確實真心關愛小男主。而小男主的歐文·瓦卡羅最亮眼的演出則落在電影第三段對抗邪惡力量的橋段。

故事背景設定在1955年的《滴答屋》，美術設計值得A+的高分。藝術指導Jon Hutman曾操刀電影《新木乃伊》、《時間旅行者的妻子》等片。他將《滴答屋》中神秘的總是發出滴答聲響的奇幻老屋完美呈現在了觀眾面前，那裏面除了數不盡的時鐘，還堆滿各種古物收藏，傳遞出滿滿的

時代感，而非雜亂無章的老舊。

影片稍顯美中不足的是，電影對小男主角路易斯喪失雙親的情緒鋪陳稍嫌不足。電影中多次看到路易斯拿著父母留給他的魔幻八號球把玩，睡前也拿著照片思念父母，可見他與父母的關係是非常緊密的，但片中卻對突然喪失摯愛雙親的悲傷沒有太多著墨。或許再多花壹點時間鋪陳，更能襯托出之後路易斯與叔叔和齊默爾曼太太的重組的另類新家庭的特別之處。

整體而言，《滴答屋》是壹部視聽豐富飽滿的奇幻旅程，主創與主演們也有不少令人耳目壹新的創作與演出，這部可愛的恐怖片娛樂性十足，非常適合闔家觀賞。《滴答屋》即將於9月21日北美上映，中國香港定檔10月10日。

還原歷史！英國國寶級導演新片再現廣場暴亂 演員表演精湛 威尼斯電影節首映廣受好評

導演邁克·李(Mike Leigh)在史詩級歷史電影《彼得盧》(Peterloo)中聚焦被人們所忽視的血腥大屠殺。這部電影已在多倫多電影節上映。

邁克·李竭力再現了這壹歷史事件。這場大屠殺發生在1819年，當時的英國政府派遣軍隊鎮壓曼徹斯特彼得盧廣場的群眾示威。

在情節快速發展的兩個半小時的時間裏，觀眾在觀看這部影片時有時會覺得仿佛是在上壹堂展現於熒幕上的歷史課。故事發生在滑鐵盧戰爭後的4年，英國和盟軍打敗了拿破侖，然而很多曾經參加過這壹戰爭的磨坊工人們對貧困的生活日益感到不安。

政府派遣軍隊用武器暴力鎮壓和平抗議的6萬名群眾，造成了11人死亡，超過400名群眾受傷。這段歷史後來被稱為“彼得盧戰役”。

邁克·李向記者表示他對於這壹歷史事件在自己國家被可恥地忽視的感受——在學校裏老師不講授這壹歷史——而這部影片則真實地再現了這壹事件。

這部電影的開篇聚焦在壹位年輕的士兵約瑟夫(大衛·摩爾斯特)身上。他在滑鐵盧戰爭中激烈奮戰，而周圍的殘殺讓他感到迷茫和害怕。

約瑟夫在戰爭中存活了下來，並開始了漫長的回鄉之路。然而，在他最終到達曼徹斯特時，發現自己並不是像英

雄壹樣凱旋而歸——他的父母，奈莉(瑪辛·佩克飾)和約書亞(彼得·奎格利)都是磨坊工人，然而在托利黨執政的政府開始增加徵稅後，甚至對壹塊麵包都要徵稅，約瑟夫壹家的生活陷入了窘境。

約瑟夫想盡辦法去找工作。像他的父母壹樣，約瑟夫參加了工人集會，會上工人們要求在議會中增加工人階級的席位，要求更高的收入以及更好的生活條件。

與此同時，邁克·李向我們展現了住在豪華別墅、擁有特權的統治階級決心熄滅壹切激進運動的火苗，他們擔心這些運動將導致英國工人階級效法海峽對岸的法國，同20多年前的法國大革命壹樣，顛覆王權統治。

羅伯特·維爾弗斯(Robert Wilforth)在片中飾演首相——利物浦勳爵，而卡爾·約翰遜(Karl Johnson)則在電影中飾演內政大臣錫德茅斯勳爵。錫德茅斯勳爵擔心除非政府鎮壓工人權利運動，否

則革命將會蔓延至倫敦和曼徹斯特的大街小巷。

此外，邁克·李還以豪華奇異場景向我們展示了統治階級的暴行。“犯人們”被帶到地方行政官面前——其中包括文森特·富蘭克林(Vincent Franklin)飾演的令人印象深刻的殘暴行政官雷夫·埃特雷爾森。這些“犯人”被判處了嚴苛的刑罰，其中壹人因偷竊了雇主的壹件外套就被宣判施以死刑。

邁克·李壹次又壹次將焦點聚集在

工人集會上，展現了工人們追求正義的懇切呼籲。同時，他也表現了政府方面的間諜滲透到工人群體中，並向政府報告的場景。

羅裏·金尼爾(Rory Kinnear)在影片中扮演來自倫敦的地主亨利·亨特。亨特參加了工人活動，並且將在計劃施行的群眾集會中擔任主要演講人。他警告工人們，政府會以各種理由使用暴力解散聖彼得廣場的集會，還說工人們在集會中不得攜帶武器。

影片的最終高潮來臨時，觀眾們早已知道結局——事件將在流血和屠殺中結束。邁克·李聚焦於我們已經熟知的人物上——奈莉、約書亞和約瑟夫——他們在人群中沒有意識到政府的士兵已經在附近的街巷匯合。

邁克·李意在強調和平抗議的群眾所遭遇的不公正行為——這壹點值得人們尊敬，並貫穿了電影的始終。但這部電影仍然需要更簡短、更緊湊點故事。

儘管如此，演員們的精彩表演仍然值得稱贊。雖然《滑鐵盧》有時會讓人覺得不像是看電影而是在上壹堂歷史課，這部電影仍然有很多值得肯定的地方。

這部影片已在多倫多電影節之前於威尼斯國際電影節競賽單元舉行了首映，並且獲得了許多好評。電影網站Variety稱這部作品逐漸將精心構思的故事推向“憤怒反抗右翼機器的結局”。

Woodland Park Drive 發生槍擊案 事件仍在調查中

【董一飛編譯】周二凌晨1點，在 Woodland Park Drive 的 Westchase 公寓大樓附近發生一起槍擊案。警方接到報警電話後立即出警，但是為時已晚，只在案發現場發現受害者。在檢查第一名受害者的途中，發現了第二名受害者。

有關當局說，這一切都始於周二凌晨1點左右在 Woodland Park Drive 的 Westchase 公寓大樓 Marquee 車道上的槍擊事件。當官員到達時，停車場裡沒有人，但他們確實在地上找到了幾個彈殼。

警方隨後接到西休斯頓醫療中心的電話，稱一名槍擊受害者被私家車帶到那裡。官員前往那裡看看受害者可以告訴他們什麼，就這個時候，在路邊發現了第二名受害者。

警方稱，第二名受害者在人行道上，當時還有生命特徵，警方把他帶上警車，送往醫院接受治療。目前事件還在調查之中。

【董一飛編譯】從周一開始海灣的熱帶水分和濕氣正在湧入，氣象學家稱四處分佈的暴雨正在向內陸推進，並且影響休斯頓地區。

經過一段時間的晴天天氣，從周二開始，降雨會重新來到休斯頓。一個微弱的冷鋒降雨周二滑入德州東南部，降雨和雷暴都會出現，特別是下午和傍晚時分。在傾盆大雨時期，下雨可能會導致嚴重的街道積水氾濫。

從周二開始，休斯頓最高溫度89度，達拉斯最高溫度88度，聖安東尼奧最高溫度90度。

在休斯頓區域，周三的降雨機率會大到80%，周四到周日，乃至到下周一的降雨機率都會超過30%，溫度會保持在88華氏度以下。

休斯頓地區最低氣溫在70-73攝氏度不等。現在已經過了秋分時節，溫度會隨著季節的推移逐漸變冷。

降雨會讓天氣變得涼爽，來自太平洋的高水壓將使得天空上層的雲層變厚，最終導致降雨。

秋分時節來臨 周三降雨機率增高

改革開放40年，實現從落後農業省向先進工業省轉變

廣東將打造世界級先進製造業集群

千年前，海上絲路滿載手工絲綢的貨船在廣東啟航。19世紀，中國首家近代民族資本工廠繼昌隆繅絲廠在南海開工。改革開放初期，中國首家“三來一補”企業太平手袋廠在東莞落戶。今天，廣東為數不多的紡織服裝企業生產線上，已滿是整齊劃一的專產機械臂，一件件功能新奇、智能服飾通過展會引領潮流。

改革開放40年，敢為人先的廣東製造業從紡織傳承、從紡織起步，抓住國際產業梯度轉移契機，在產業鏈國際分工中不斷上行，形成完備工業體系。據省經信委統計，廣東2017年工業增加值3.59萬億元，是1978年的240倍。

2018年，廣東提出推動經濟高質量發展，加快建設現代化經濟體系，世界級先進製造業集群將在這裏萌芽。

◎ 1978—1990年：騰飛起步

“遠看是洋貨，近看是廣貨”

改革開放初期，與吃飯、穿衣相關的民生產業蘊藏巨大商機，也是製造業快速發展最好的起點。廣東搶先發展以紡織、食品和小家電為代表的輕工業。

在起步階段，廣東工業增加值增速非常快，年均增長達到15.1%，並順利在上世紀90年代形成“輕型、外向”的產業體系。

在東莞太平手袋廠落戶後，以港資為重要動力的“三來一補”外向型經濟拉開序幕。順德大進制衣廠、珠海香洲毛紡廠等企業不甘祇做改革開放的試驗品，一度成為廣東紡織工業發展的旗幟。“遠看是洋貨，近看是廣貨”，廣東製造讓國人以低廉的價格穿上了新潮時髦的西服、牛仔服、健美褲和編織衫……

1984年，廣東三水縣酒廠廠長李經緯創新性地用易拉罐包裝飲料，推出了一款叫“健力寶”的運動飲料。此後的10多年裏，它都是民族飲料第一品牌。隨後，嘉士利、喜之郎、金龍魚、樂百氏、珠江啤酒、金威啤酒等一批食品企業不斷崛起，成就了“珠水粵糧”的美談。

隨著生活水平的提高，“粵家電”也形成一股勢不可擋的廣貨潮流，沿着京廣線走進全國各

個家庭。上世紀80年代的“明珠牌”“冠雄牌”塑料電風扇與如今的美的、格力一樣，伴隨一代人度過了炎熱夏日。後來的萬家樂熱水器、格蘭仕微波爐、科龍空調、創維彩電等廣貨隨着廣東製造業的迅速發展相繼湧現，都在不斷滿足着改革開放後人們日益增長的物質生活需求。

◎ 1991—1997年：高速發展

“祇要有貨源，就不愁沒銷路”

1992年，廣東開始向追趕“亞洲四小龍”而努力。縱然地域相近、經濟結構相似，與後者在1960年前後即開始經濟起飛相比，廣東起步時間晚了整整20年。廣東利用後發優勢，把發展重點放在電子信息、電氣機械製造業。

“祇要有貨源，就不愁沒銷路。”早期在電子元器件市場摸爬滾打的陳海升如是說。1995年，他在華強北的賽格市場租下一方櫃臺，生意和想象中一樣好，“大家都是排着隊來買貨的”。兩年後，陳海升便註冊了自己的公司——深圳市美隆電子有限公司。如今美隆電子已是一家自主創新的貼片電阻和貼片電容企業，產品遠銷海外。

同時，全國第一家專門銷售電子元器件的交易市場——賽格電子配套市場生意日益火爆。在其帶領下，電子專業市場這一當時新興商業態在附近地區遍地開花，華強北“晉升”為國人熟知的“中國電子第一街”。

華強北“一夜成名”背後，是廣東電子信息製造業的迅速發展。隨着全球信息技術革命和產業結構調整，珠三角承接發達地區產業轉移，參與全球電子信息產業國際分工。深圳、惠州和東莞等市的電子通信設備製造業發展尤為突出，打通了一條“廣東電子資訊產業走廊”。

集群式大規模轉移相互配套的相關產業群，後來成為珠三角後發地區，包括粵東、粵西、粵北追趕式發展的重要經驗。而在新世紀到來之前，廣東已成為全球最大的電子信息製造業基地。

同一時期，廣東電子信息產業自主品牌也開始萌芽。1989年，深圳中興半導體有限公司國產化數字程控交換機ZX500，該公司也於1993年重組為深圳中興新通訊設備有限公司。1990年，為

香港公司代理銷售用戶交換機(PBX)的華為開始自主研發PBX技術，并于兩年後研發並推出農村數字交換解決方案。1995年，打造了“小霸王學習機”的段永平離開中山小霸王，在東莞長安成立廣東步步高電子工業有限公司，為後來我國手機領域的領軍企業OPPO、vivo誕生奠定了基礎。

1992年，廣東GDP為2447.54億元，折合為444億美元，與“亞洲四小龍”相比，廣東經濟總量低於新加坡的520億美元，不到中國香港1056億美元的二分之一，更祇有韓國、中國臺灣的八分之一和五分之一。6年後的1998年，廣東GDP達到1030億美元，超過新加坡的850億美元，實現對“亞洲四小龍”的首次超越。

◎ 1998—2007年：調整優化

“適度重型化”發展大港口大工業

受1998年亞洲金融危機的影響，支撐廣東製造業發展多年的服裝紡織、食品飲料、建築材料等輕工業已“力不從心”。21世紀伊始，廣東開始實施“適度重型化”，以石油化工、能源、汽車、裝備等為代表的重工業快速發展。

2000年11月，英國BP公司進駐珠海，并于2003年1月投產，設計年產能35萬噸。2015年3月，三期裝置投產，設計年產能力一舉增加到125萬噸。珠海BP成為了目前全球最大的PTA生產基地之一。在BP示範下，50多家上下游企業落戶珠海；同時，中石油、中海油、中國化工進出口總公司等與珠海建立起戰略合作關係。

隨後，惠州大亞灣引進中海殼牌石油加工項目，這個投資43億美元的大項目于2006年2月10日投產。“大港口、大工業”的圈區式、臨港型布局成了廣東重工業化發展的重要特點。

這一時期，汽車工業發展也是廣東製造業的一大亮點。新舊世紀交接之時，日系汽車三大巨頭本田、日產、豐田相繼落戶廣州，拉動汽車產業集群“扎堆”華南。這一現象既為廣東經濟結構調整帶來新動力，也使中國汽車工業格局再次改寫。同時，充電電池生產商深圳比亞迪公司于2003年首入汽車產業，不僅開始民族自主品牌燃油汽車的生產，還致力於研發與推廣新能源汽車，得到了長足的發展。

石化、能源、汽車等產業集群在發展中上接基礎產業，下連配套產業，廣東裝備製造工業也開始崛起，形成在集裝箱、數控系統、輸配電及控制設備、特種船舶、通信設備等領域的創新優勢，出現了以中集集團、廣州無線電集團為代表的一批龍頭企業。2007年，全省裝備製造業完成工業總產值20714.57億元，增長24.5%，裝備製造業對全省工業產值增長貢獻率為37.0%，拉動全省工業產值增長9.2個百分點。

◎ 2008年至今：轉型升級

已形成七大超千億產業群

2008年，一場國際金融危機加速倒逼廣東以加工貿易為主的外向型經濟產業轉型。廣東實施“雙轉移”戰略，推動“騰籠換鳥”。“廣東造”汽車、飛機、船舶、軌道機車、核電設備、風電裝備陸續亮相，初步形成裝備製造“海陸空”全面發展的新格局。轉型升級，成為近10年廣東製造業發展的關鍵詞。

黨的十八大以來，廣東產業高端化凸顯，以裝備製造、汽車、石油化學業為主的先進製造業和以醫藥、電子及通信設備業為主的高技術製造業迅猛發展，2017年增加值占規模以上工業比重分別達53.2%、28.8%。

同時，工業全員勞動生產率從1978年的9906元/人提高到2017年的24.2萬元/人。規模以上工業企業利潤總額2017年達8986億元，是2000年的17.2倍，年均增長18.2%。單位GDP能耗2013—2017年累計下降19.5%，能耗水平居全國第二低位。

如今，廣東電子信息產業產值超3萬億元、電氣機械產業產值超1萬億元，並形成新一代移動通信、平板顯示、高端軟件、半導體照明、生物醫藥、智能制造裝備、新材料等超千億元新興產業集群。省經信委相關負責人表示，廣東將建成產業強省、經濟強省。

——新一代信息技術、高端裝備製造等戰略性新興產業將瞄準高端高新，加快發展。

——一批產值超千億元的製造業骨幹企業將應運而生，廣東將打造世界級先進製造業集群。

——廣東還要推動製造業綠色發展、加快製造業與互聯網融合發展、優化營商環境。

2018年，廣東推動經濟高質量發展，加快建設現代化經濟體系，廣東製造業將成為我省奮力實現“四個走在全國前列”的重要支撐。（南方日報記者 蘇力）
