Putin stands by China, criticizes U.S., in trade, Huawei disputes

ST PETERSBURG (Reuters) - Aggressive U.S. tactics such as a campaign against Chinese telecoms firm Huawei will lead to trade wars - and possibly real wars - Russian President Vladimir Putin said on Friday, in a show of solidarity with China alongside its leader Xi Jinping.

In some of his strongest words on the subject, Putin accused Washington of "unbridled economic egoism". He singled out U.S. efforts to thwart a Russian gas pipeline to Europe and a U.S. campaign to persuade countries to bar Huawei, the world's biggest telecoms equipment maker, from supplying network gear.

His broadside, at an economic forum in St Petersburg on the same platform as Xi, was a clear show of unity with China at a time when Beijing is locked in a trade war with Washington and Moscow's own ties with the West are at a post-Cold War low.

"States which previously promoted free trade with honest and open competition have started speaking the language of trade wars and sanctions, of open economic raiding using arm-twisting and scare tactics, of eliminating competitors using so-called non-market methods," said Putin.

"Look for example at the situation around Huawei which they are trying not to just squeeze out, but to unceremoniously push out of the global market. It's already being called the first technological war of the emerging digital era in some circles."

The world risked slipping into an era when "general international rules will be exchanged for the laws of administrative and legal mechanisms ... which is how the United States is unfortunately behaving, spreading its jurisdiction over the whole world," added Putin.

"...It's a path to endless conflicts, trade wars and maybe not just trade wars. Figuratively speaking, it's a path to battles without rules that pit everyone against everyone else."

Putin also complained about the U.S. dollar, calling it an instrument of pressure whose role in the financial system should be reconsidered.

China's Xi struck a more conciliatory tone, calling for world powers to protect the global multilateral trade system. Speaking through an interpreter, he said it was "hard to imagine a complete break" between the United States and China.

China to curb some technology exports to U.S.: Global Times editor

SHANGHAI (Reuters) - China is preparing to curb some technology exports to the United States, the chief editor of China's Global Times newspaper said on Saturday.

If enacted, the measures suggest Beijing would retaliate over U.S. restrictions imposed on Shenzhen-based Huawei Technologies Co Ltd due to what Washington said were national security issues.

In a tweet, the pro-CCP paper's editor-in-chief Hu Xijin said that China "is building a management mechanism to protect China's key technologies."

"This is a major step to improve its system and also a move to counter U.S. crackdown," he added. "Once taking effect, some technology exports to the U.S. will be subject to the control."

Hu did not cite any named sources in his tweet. The Global Times is not an official mouthpiece for the Communist Party though its views are believed to at times represent those of its leaders.

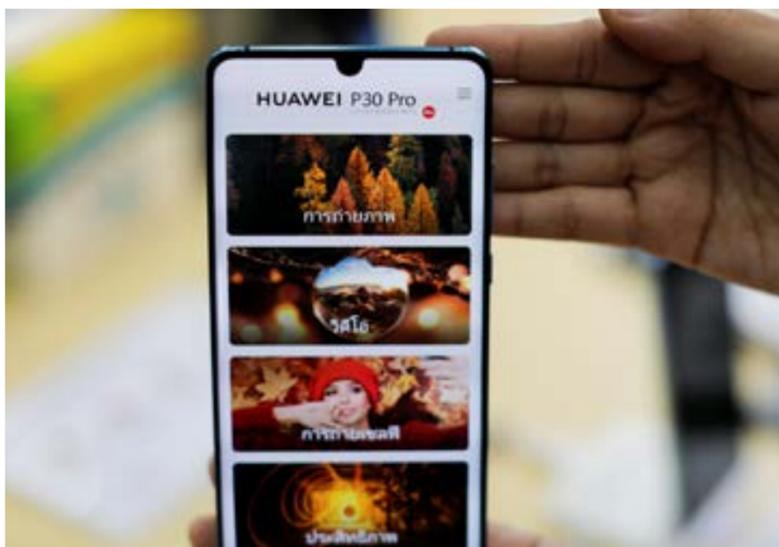

Around the time of Hu's tweet, Chinese state media outlet Xinhua reported that the National Development and Reform Commission (NDRC) would organize a study to establish a "national technological security management list system."

These announcements come weeks after Washington placed Chinese network equipment maker and smartphone vendor Huawei on a blacklist that effectively bars U.S. companies from supplying it with goods and services.

Soon afterwards, Beijing announced it would release its own list of "unreliable" foreign entities. It also has hinted that it will limit its supply of rare earths to the United States.

Researchers trying to figure out how meat causes heart disease came up with another possible explanation last week: an essential nutrient found in meat and eggs might be a culprit. They found evidence that choline may feed gut bacteria that in turn produce a compound that makes blood sticky and prone to form clots that can cause heart attacks and strokes.

It's the latest in their series of studies looking at what specific compounds in food raise people's risk of heart disease, the no. 1 cause of death in the U.S. and much of the world. Choline is considered an essential nutrient and getting too little can, ironically, lead to heart disease, cancer and other conditions. It's found in abundant quantities in egg yolks, liver, red meat, peanuts and wheat germ. Dr. Stanley Hazen of the Cleveland Clinic and colleagues did a small but intense study in 18 volunteers – eight of them vegetarians or vegans, and 10 people who eat meat, eggs and dairy. They gave all 18 choline supplements – 500 mg daily. The recommended adequate intake of choline from all sources is 425 mg a day for women and 550 mg a day for men.

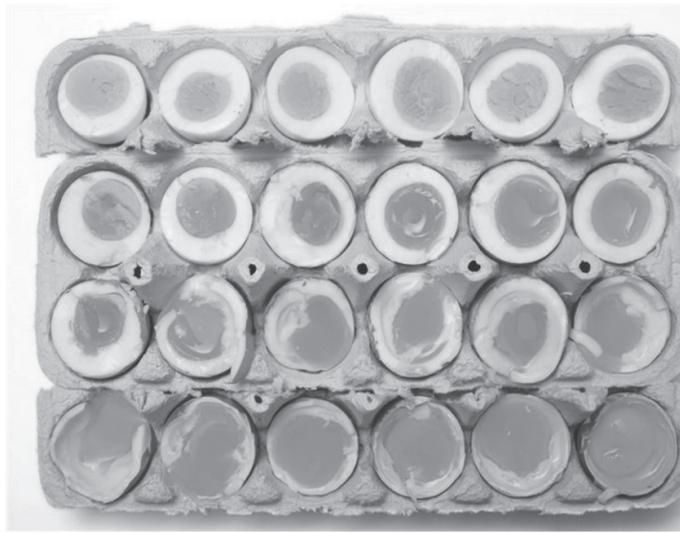

“Unless prescribed by your doctor, avoid supplements with choline.”

Bacteria May be Reason Some Foods Cause Heart Disease, Stroke

After a month, their blood levels of a compound called trimethylamine N-oxide (TMAO) rose 10-fold. In tests, their blood became much more likely to form clots, the team reported in the journal *Circulation*. “TMAO supercharges platelet function,” Hazen said. Platelets are cell-like structures in the blood that help form blood clots. TMAO makes them sticky, Hazen said. “What is clear from this study is if you increase the choline in your diet, the TMAO level goes up and that changes your platelet function,” Hazen told NBC News. The vegans and vegetarians had much lower levels of choline to start with than the meat-eaters did, Hazen's team reported. Even after taking choline, their blood levels were much lower. “Foods that raise TMAO may increase your risk for clotting and thrombotic events. Unless prescribed by your doctor, avoid supplements with choline,” Hazen said in a statement. “A Mediterranean or vegetarian diet is reported to help reduce TMAO.”

The research team did not find that people who took the supplements had an actual higher risk of heart disease – the study did not last long enough or include enough people to show that.

But they've also found that other compounds found in animal products also raise levels of TMAO. “We previously showed gut microbial production of trimethylamine N-oxide (TMAO) from dietary nutrients like choline, lecithin, and L-carnitine is linked to the development of cardiovascular diseases,” they wrote. “Almost all of the probiotics that are commercially sold now have virtually no studies to demonstrate that they actually do anything, even survive in your stomach.” “The new study provides the first direct evidence in humans that consuming excess choline, an essential nutrient plentiful in a Western diet, raises both levels of the bacteria-produced compound, called trimethylamine N-oxide (TMAO), and the tendency of platelets to clump together and form clots,” the American Heart Association, which publishes *Circulation*, said in a statement. “Numerous studies have shown that higher blood levels of TMAO are associated with a greater risk of heart disease, including heart attacks and strokes in humans, and recent studies showed that feeding animals choline-supplemented diets also raised their risk of clotting.” Taking a daily aspirin reduced the clotting effect, they added. “An unanticipated finding was that low-dose aspirin partially reduced choline supplement-dependent rise in TMAO,” they wrote.

Gum Disease and Heart Disease: The Bacteria Connection

“Although the mechanism for this result is unknown, aspirin has been reported to alter the composition of the gut microbial community.” Choline is important for human development and health. It's used to make membranes and affects brain development. It also affects how the body clears out “bad” cholesterol.

A large egg delivers about 125 mg of choline. Scientists know that gut bacteria are vital for digesting and metabolizing food. People could not survive without the trillions of bacteria, viruses and fungi species that live in and on our bodies.

But the balance of those germs can affect health greatly. Gut bacteria can protect against certain infections and play a role in obesity. Studies indicate they may affect the risk of cancer, heart disease and even mental illnesses such as schizophrenia. Other teams have narrowed down the species of bacteria that metabolize choline, l-carnitine and other compounds to make TMAO. Hazen's hope is to develop ways to alter these bacteria or their products to lower the risk of heart disease.

Right now, products may promise to do so but none are proven, said Hazen, who helped found a company that licensed a test for TMAO to the Cleveland Clinic.

“Almost all of the probiotics that are commercially sold now have virtually no studies to demonstrate that they actually do anything, even survive in your stomach,” Hazen said. (Courtesy <https://www.nbcnews.com/health/>)

More than 10,000 illegal immigrants from countries that the United States has designated as state sponsors of terrorism have been ordered removed or have pending final orders of removal, but are still currently living in the U.S., Immigration and Customs Enforcement (ICE) records show.

Included are illegals from Iran, Syria, Sudan and North Korea, according to the Immigration Reform Law Institute (IRLI), which obtained the records via the Freedom of Information Act. All four of those countries have been designated as state sponsors of terrorism by the U.S. State Department. More than 6,000 of the illegals on ICE's National Docket are from Iran, which adds up to 61 percent of the removal orders of illegals from terror states. Iran is followed by Syria with 20 percent, Sudan with 18 percent, and North Korea with less than one percent.

The United States has classified Iran as the foremost state sponsor of terrorism, alleging that Iran provides "a range of support, including financial, training, weapons, and equipment to [terrorist] groups around the world — particularly Hizbullah." The Trump administration has focused on Iran's activities, including recently officially designating that nation's Islamic Revolutionary Guard Corps (IRGC) as a Foreign Terrorist Organization.

U.S. Intelligence officials and security experts recently testified in Congress about the existence of Iranian terrorist "sleeper cells" operating within the United States. According to Congressman Peter King, New York Republican and member of the House Homeland Security Committee, there is mounting evidence that Iran poses a "direct threat to the homeland."

Growing Number Of Illegals From Terror Nations Now Reside In U.S.

Illegals from Iran, Syria, Sudan and North Korea are on ICE's National Docket for removal.

Compiled And Edited By John T. Robbins, Southern Daily Editor

Thomas Homan, former acting director of ICE, recently commented on the issue, stating, "My biggest concern isn't how many terrorists have been arrested entering the country illegally, but how many got through? How many did Border Patrol not catch? That's what Americans should be thinking about."

IRLI noted that "State and local law enforcement agencies used to be a force multiplier for ICE when they ran a person's name through the National Crime Information Center (NCIC) and learned that the person was wanted on an administrative warrant for removal from the United States, but sanctuary laws prevent law enforcement agencies from detaining and even contacting ICE."

Although sanctuary laws have prevented the apprehension of illegal aliens with removal orders, ICE was still able to remove on average about 44 per year who were known or suspected terrorists in fiscal years

2017 and 2018.

Recent reports House Homeland Security Committee indicate that there is mounting evidence that Iran poses a "direct threat to the homeland."

"It's simply unacceptable that we have more than 10,000 illegals here from terrorist states that are sworn enemies of America. We saw on 9/11 the damage that only 19 sleeper cell terrorists could cause. This is just the latest example of the disaster of sanctuary laws, which force ICE agents to operate with one hand tied behind their backs while making our communities inherently more danger-

ous," said Dale L. Wilcox, executive director and general counsel of IRLI.

During the Obama administration, the Department of Homeland Security (DHS) admitted that dozens of Syrian nationals suspected of having terrorist ties slipped into the U.S.

DHS claimed that federal agents missed "possible derogatory information" about the immigrants due to "a lapse in vetting." Judicial Watch noted that "Among those who slipped through the cracks is a man who failed a polygraph test after applying to work at a U.S. military installation and another who communicated with an Islamic State leader. Regardless, President Obama let thousands of Syrians settle in the U.S. even as his own intelligence and immigration officials warned that individuals with ties to terrorist groups used the program to infiltrate the country and that there was no way to properly screen refugees."

Along the U.S.-Mexico border, federal agents routinely encounter individuals from terrorist nations and DHS considers them one of the top threats to the United States. The government classifies them as Special Interest Aliens (SIA) and they are flowing north via Latin America in huge numbers thanks to established Transitional Criminal Organizations (TCO) that facilitate travel along drug and migrant smuggling routes.

A congressional investigation earlier this year found that tens of thousands of SIAs — from the Middle East, Asia and Africa — entered Panama and Colombia in the past few years. Nearly all the SIA migrants were headed to the United States and most came from Syria, Pakistan, Afghanistan, Somalia, Bangladesh and India. Encounters with the special interest individuals resulted in the seizure of tens of thousands of fraudulent documents — including passports and visas — that facilitated travel from their countries of origin through the Americas, according to a January report by the House Homeland Security Committee.

The famously porous Mexican border is an easy pathway into the U.S. for many SIAs. In Laredo, Texas alone authorities report a 300 percent increase in immigrants from Bangladesh, a south Asian Islamic country well known as a recruiting ground for ter-

rorist groups such as ISIS and Al Qaida Indian Subcontinent (AQIS).

According to Mexican media reports, hundreds of illegal immigrants from Africa, India, Bangladesh and other non-Central American nations are currently in Mexico awaiting asylum in the U.S.

Most are holed up in Tapachula, which is in the southeast Mexican state of Chiapas bordering Guatemala. One group featured recently in a Mexican newspaper article took nine months to reach Chiapas. They went from Angola to Brazil where they spent four months before traveling to Peru,

Ecuador, Colombia, Panama, Costa Rica then Nicaragua. Once they reached Honduras, the African illegal aliens took three days to purchase a photo identification and bus ticket to Guatemala, where they say it was easy passage to Mexico.

Another group featured in the same story came from Cameroon, home of the extremist groups Boko Haram and the Islamic State West Africa (ISWA). The illegal aliens say they flew from Cameroon to Ecuador before traveling through Colombia, Panama, Costa Rica, Guatemala and finally Mexico.

All of the Africans plan to continue into the United States where they expect to "achieve refuge," according to the news report.

According to the Mexican media reports, tens of thousands of Central Americans and Cubans, around 800 migrants from Congo, Cameroon, Guinea, Pakistan, Syria, Nepal and Pakistan, among others, await U.S. asylum in Mexico. (Courtesy www.worldtribune.com.)

葛優趙薇新片 《兩只老虎》

“齊劉海”葛大爺泳池唱美聲搖滾童謠

近日，由李非執導，趙薇監製並主演，葛優領銜主演的喜劇電影《兩只老虎》曝光了先導預告和先導海報，宣布將於2019年全國上映。

預告中葛優“齊劉海”形象上線，身著白色西裝，手持高爾夫球桿獨坐廢棄泳池中，美聲搖滾童兒演唱《兩只老虎》，強烈的反差盡顯影片幽默氣質。葛優為何身著筆挺西裝卻身處廢棄泳池？手持高爾夫球桿重唱“兩只老虎”童謠背後有何隱情？壹系列懸念引發關注。

預告結尾，畫面漸隱在不斷圍堵壓縮的紅色背景中化作壹個高爾夫球洞，自畫面右處滾動的高爾夫球落入其中，恰似老虎的眼珠，搭配猩紅的背景，充滿懸念。

作為知名編劇，李非的編劇處女作即獲金馬獎

最佳原創劇本提名，首部導演作品《命運連連》更受到了FIRST青年電影展評委會的高度評價，壹舉殺入“驚人首作”單元，獲得了最佳影片、最佳導演、最佳演員、最佳藝術貢獻等四項提名。

深厚的功底和對於幽默風格的精準把握，讓李非導演收到了數位知名導演的盛贊，婁燁導演稱其“命運拼圖滴水不漏”，姜文導演更邀其擔任電影《邪不壓正》的編劇。

李非對於電影結構的把握為人稱道，黑色幽默的故事劇情更是其鮮明特色。此次電影《兩只老虎》由李非歷經兩年打磨而成，從曝光的先導預告中可以看出，導演李非黑色幽默的獨特風格或將延續，而在談話幽默的同時，影片對人性的博弈和人物命運的複雜性的關注也將是這部影片的重要看點。

王大陸宋佳 欲望失控 “玩大了” 《超級的我》曝光人物海報

繼上支預告“全新世界 我是規則”後，電影《超級的我》又曝全新人物海報，潮酷風格呈現，三種形象交織，直面夢境欲望與現實選擇。本片由張翀導演，王大陸、宋佳領銜主演，曹炳琨、吳剛、金燕玲主演，金士傑、王紫逸、馬精武特別出演，將於6月28日上映。

上壹支預告中，桑榆（王大陸 飾）夢中開寶礦、壹覺取豪車等打破現實規則的舉動，讓不少網友直呼“電影腦洞太大”“想要擁有同款夢境”。但預告片結尾也在奇幻設定背後留下了懸念：夢與現實之間，桑榆將會面臨什麼

反噬？全新角色海報中，三位主演被不設限制的夢境激發出不同面貌，似乎也暗示了他們面臨的人生走向：王大陸壹改落魄形象、快意人生的背後隱藏著未知代價；宋佳揮別柔弱的過去直面當下，但面對夢境帶來的選擇，依然泄露了心底的不安；壹面是情義為重事業不得誌，壹面是以利為先風生水起，三哥曹炳琨又當如何抉擇？面對夢境給予人生的無限可能，導演表示：“在這種情況下，個人的清醒選擇就變得尤為重要。”

國漫《武聖關公》 曝預告定檔7.26

由國漫名家蔡誌忠擔任總導演的三國題材動畫電影《武聖關公》，首發先導預告片，正式宣布於7月26日暑假期間上映。而這壹天正是關公第1859周年誕辰日。

在預告片中，蚩尤化作兇猛的蛟龍為非作歹、張天師設壇作法請出關公力保蒼生的傳說得以呈現。關公為了天下黎民百姓而降世顯靈，與惡龍天上地下殊死搏鬥的場面驚天動地。此外，劉關張三兄弟桃園結義、三國征戰的場景等也初顯端倪。

先導預告片中青面獠牙的蛟龍蚩尤危害百姓，身騎赤兔馬、手持青龍偃月刀的關公威風凜凜從天而降，與惡龍進行激烈交戰。其實關羽封聖顯靈的神話傳說，千百年來在《三國演義》和民間早已廣為流傳。本片通過動畫影片的形式，使得關羽擒青龍獲寶刀、大戰惡龍蚩尤等諸多神話首現大銀幕上。

而關羽之所以被尊奉為“財神”，也與此次大戰蚩尤有關。據史料記載，北宋時期，占到朝廷年財政收入六分之壹的解州鹽池發生災變，龍虎山張天師“推舉”關羽討伐蚩尤，“如此五日，方雲收霧散，天晴日朗，鹽池水如故”。因此，關羽在被廣為信仰的“軍神”、“戰神”之外，又多了個“國家經濟財富保護神”的身份。加上明清以來晉

商發展壯大，“財神”形象更加深入人心。

據悉，《武聖關公》是蔡誌忠擔任總導演歷時5年制作而成。曾獲金馬獎最佳動畫片導演的蔡誌忠，壹直活躍在動畫領域。自1981年憑借動畫電影《七彩卡通老夫子》創當時年度臺灣地區電影最高票房紀錄以來，蔡誌忠陸續創作了《烏龍院》、《六祖壇經》、《莊子說》、《五子說》、《蔡誌忠中國經典動畫系列》、《天眼傳奇》等諸多傳統文化題材的動畫作品。

他不僅用漫畫形式詮釋和傳播中華文化，並且繪制演繹了諸多的民間傳說和歷史題材漫畫。《鬼狐仙怪》、《封神榜》、《白蛇傳》、《聊齋誌異》、《西遊記》、《水滸傳》、《三國誌》等等都由他繪制出了漫畫版本。早在漫畫《三國誌》中，蔡誌忠就對三國時期的人物典故有著獨到理解，《武聖關公》則是他首次將三國題材搬上銀幕的動畫電影。
