## China state media urges U.S. to drop win-at-all-costs trade stance

SHANGHAI (Reuters) - Instead of waging a trade war with China, the United States should drop its win-at-all-costs mentality and consider the interests of its own people as well as the global community, the official People's Daily said an editorial on Saturday.

The Chinese Communist Party's newspaper urged the United States to cancel all tariffs on Chinese goods, saying the only way to resolve trade issues was through "equal dialogue".

Hopes that the two sides can rekindle negotiations were raised in the run-up to a meeting next week between President Xi Jinping and U.S. President Donald Trump in Japan, where they will both attend a Group of 20 summit.

The Office of the U.S. Trade Representative is holding seven days of hearings from manufacturers and other businesses likely to be affected by a new round of tariffs on \$300 billion worth of Chinese imports proposed by U.S. President Donald Trump.

The People's Daily said all previous hearings had shown "overwhelming" opposition to tariff increases from all walks of life, but it had made no difference.

"It seems that some people in the United States are waving the tariff stick in order to strengthen their so-called 'industrial competitive advantage'," it said.

"They do not consider public opinion, do not consider national conditions, and do not take the international economic order into account. They just want the renown as 'winners' but cannot understand the fact that they basically cannot win."

The U.S. National Retail Federation (NRF) said on Friday that the proposed tariff extension on Chinese goods, including cellphones and computers, could cost U.S. consumers an additional \$12.2 billion each year.

## Iran says it will confront any U.S. threat, Trump eyes new sanctions

DUBAI (Reuters) - Iran said on Saturday it would respond firmly to any U.S. threat, the semi-official Tasnim news agency reported, amid escalating tension between Tehran and Washington over the shooting down of an unmanned U.S. drone by the Islamic Republic.

On Thursday, an Iranian missile destroyed a U.S. Global Hawk surveillance drone. Tehran repeated on Saturday that the drone was shot down over its territory. Washington said the incident happened in international airspace.

U.S. President Donald Trump said on Friday he called off a military strike to retaliate because it could have killed 150 people, and signaled he was open to talks with Tehran.

"Regardless of any decision they (U.S. officials) make ... we will not allow any of Iran's borders to be violated. Iran will firmly confront any aggression or threat by America," Foreign Ministry spokesman Abbas Mousavi told Tasnim.

on table  
Iran foreign minister tweets map with detailed coordinates of drone  
See more stories  
Speaking in Washington on Saturday before heading to the U.S. presidential retreat at Camp David, where he said he would deliberate on Iran, Trump said the U.S. government was imposing new sanctions on Tehran.

"We are putting additional sanctions on Iran," Trump told reporters. "In some cases we are going slowly, but in other cases we are moving rapidly." Military action was "always on the table," the president added, but he said he was open to reversing the escalation and could quickly reach a deal with Iran that he said would bolster the country's flagging economy.

"We will call it 'Let's make Iran great again,'" Trump said.

Worries about a confrontation between Iran and the United States have mounted despite Trump saying he has no appetite to go to war with Iran. Tehran has also said it is not seeking a war but has warned of a

"crushing" response if attacked.

"Any mistake by Iran's enemies, in particular America and its regional allies, would be like firing at a powder keg that will burn America, its interests and its allies to the ground," the senior spokesman of Iran's Armed Forces, Abolfazl Shekarchi, told Tasnim on Saturday.

A senior commander of the elite Revolutionary Guards struck a similarly defiant note, in comments quoted by the Islamic Republic News Agency (IRNA).

"This is our response to a violation of Iranian space and if the violation is repeated then our response will be repeated," said Brigadier General Amirali Hajizadeh, head of the Guards' aerospace division. "It's possible that this infringement of the Americans was carried out by a general or some operators."

The purported wreckage of the American drone is seen displayed by the Islamic Revolution Guards Corps (IRGC) in Tehran, Iran June 21, 2019. Tasnim News Agency/Handout via REUTERS

A Pentagon spokeswoman, Commander Rebecca Rebarich, said on Saturday: "We stand by where we said the aircraft was operating in international airspace."

# France asks: should Notre-Dame's spire be rebuilt as it was?

PARIS (Reuters) - France will open the redesign of Notre-Dame de Paris cathedral's historic spire to international architects after Monday night's catastrophic blaze that gutted the centuries-old roof and sent the towering spire crashing through the vaulted ceiling.

The government's announcement on Wednesday added to a question many are asking as France grieves for its damaged national symbol - whether the familiar outline at the heart of the capital should be restored exactly as it was or given a modern twist.

President Emmanuel Macron pledged in a prime-time address to the nation on Tuesday that Notre-Dame would be rebuilt within five years. Tycoons, international firms, local authorities and individuals have promised financial and expert help - with a total of nearly 900 million euros pledged by Wednesday. The cathedral was built over nearly 200 years starting in the middle of the 12th century, although it was only in the mid 1800s that architect Eugene Viollet-le-Duc added the lead-covered spire during restoration work.

"The international competition will allow us to ask the question of whether we should even recreate the spire as it was conceived by Viollet-le-Duc," Prime Minister Edouard Philippe said.

"Or whether, as is often the case during the evolution of heritage, we should endow Notre-Dame with a new spire that reflects the techniques and challenges of our era."

Monday's inferno devastated a world treasure, prompting an outpouring of collective sorrow and soul-searching in France over whether to recreate the destroyed oak-framed roofing and

spire or adapt the cathedral to the 21st century.

As Philippe spoke, firefighters were working to stabilise a fire-ravaged pinnacle that houses one of Notre-Dame's 13th-century stained-glass rose windows.

There was no immediate danger that the structure would topple but statues were also being removed to reduce the risk of movement, the fire service's spokesman said.

"Today, there is no risk of collapse. Our priority is to stabilise the pinnacles which are weakened, since they are no longer held up by the roof and its frame," Lieutenant-Colonel Gabriel Plus told Reuters.

People gather as they look at Notre-Dame Cathedral two days after a massive fire devastated large parts of the gothic structure in Paris, France, April 17, 2019. REUTERS/Benoit Tessier

#### REPLICATE OR RESHAPE?

It was not yet known what caused the blaze.

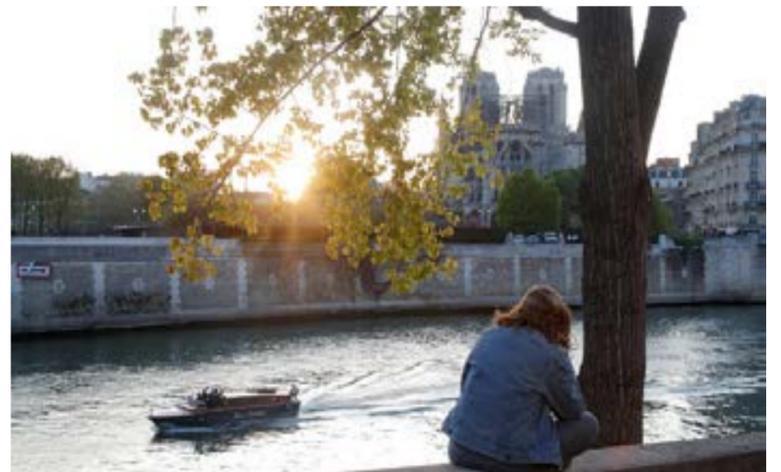

The city's public prosecutor, Remy Heitz, said on Tuesday there was no sign of arson and it was likely to have been the result of an accident. Some 50 people were working on what would be a long and complex investigation, he said.

Passers-by laid flowers on bridges crossing the Seine River as Parisians gave thanks to see the bell towers standing valiantly after the fire.

Notre-Dame is not the first French cathedral to suffer a devastating fire. Among past catastrophes, a 1972 fire engulfed the roof of Saint-Pierre-et-Saint-Paul de Nantes. Concrete was used in the subsequent reconstruction of gables and roof beams.

Jeff Bezos Unveils Lunar Lander To Take Astronauts To The Moon By 2024

Blue Origin's "Blue Moon" lunar lander.

Overview Blue Origin founder Jeff Bezos unveiled the company's "Blue Moon" lunar lander on Thursday, as well as a new BE-7 rocket engine.

"I love Vice President Pence's 2024 lunar landing goal," Bezos said, adding that Blue Origin can meet that timeline "because we started this three years ago."

Bezos invests more than \$1 billion in Blue Origin each year, through sales of his Amazon shares.

Compiled And Edited By John T. Robbins, Southern Daily Editor

WASHINGTON — Jeff Bezos, chairman of Amazon and founder of Blue Origin, unveiled his space company's lunar lander for the first time last Thursday.

"This vehicle is going to the moon," Bezos said during an invite-only presentation to media and space industry executives.

"We were given a gift — this nearby body called the moon," Bezos said. He added that the moon is a good place to begin manufacturing in space due to its lower gravity than the Earth.

ing to Bezos. Bezos also unveiled the company's BE-7 rocket engine at the event. The engine will be test fired for the first time this summer, Bezos said. It's largely made of "printed" parts, he added.

"We need the new engine and that's what this is," Bezos said.

Michael Sheetz @thesheetztweetz Bezos unveils the @blueorigin BE-7 engine, which he says will fire for the first time this summer 3:46 PM - May 9, 2019

Twitter Ads info and privacy "It's time to go back to the moon and this time stay," Bezos said.

Blue Origin, established nearly two decades ago, has remained relatively quiet about the rockets, engines and capsules it is developing. With its Latin tagline of "step by step, ferociously," Blue Origin has been working on multiple space systems at the same time.

Vice President Mike Pence earlier this year directed NASA to return U.S. astronauts to the surface of the moon within the next five years. NASA administrator Jim Bridenstine answered by saying the agency will meet the White House's directive, which represents an acceleration of NASA's existing lunar exploration timeline.

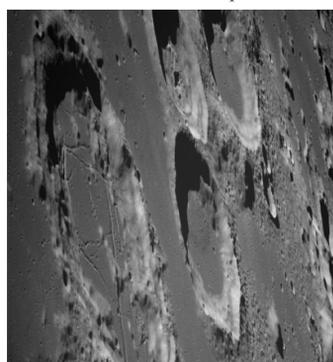

"I love Vice President Pence's 2024 lunar landing goal," Bezos said, adding that Blue Origin can meet that timeline "because we started this three years ago."

Blue Origin founder Jeff Bezos

Ahead of the event, Blue Origin tweeted a cryptic photo of famed explorer Ernest Shackleton's ship and a date, May 9, in the caption. A teaser for Thursday's event, the photo appeared to hint that Bezos' announcement would focus on sending cargo and even astronauts to the south pole of the moon.

Blue Origin's most visible program has been its New Shepard rocket system, which the company is developing to send tourists to the edge of space for 10 minutes. New Shepard has flown on 11 test flights, with its capsule, built to carry six passengers, reaching an altitude of more than 350,000.

Shackleton crater on the moon.

The company plans to send its first humans onboard a New Shepard rocket sometime in the next year. But it has yet to begin selling tickets. Blue Origin told CNBC last year that it will only offer tourists a ride to space "after our first human flights."

Additionally, New Shepard has served as a test bed for the company to develop its own reusability system. Like SpaceX's Falcon 9 rockets, the largest part of the New Shepard rocket — the first stage "booster" — comes back and lands on a concrete pad shortly after launch.

Bezos' ultimate ambition is to help humanity expand across the solar system, with a human population of more than a trillion living and working in space. Morgan Stanley highlighted Bezos' investments in space as a "force" in the industry who brings financial muscle unlike any other.

SPECIAL REPORT

Our Plastic Planet

Assembled plastic objects found on the UK coast, 1994-2019. (Photo/AP)

Compiled And Edited By John T. Robbins, Southern Daily Editor

We have sipped, packaged and played our way into a global plastics crisis.

Why it matters: Activist consumer groups are pushing for less use, and to some extent, less production, while industry aims for increased recycling.

The big picture: Plastics demand is projected to only increase — and the footprint of plastic pollution with it.

Plastics made from oil and natural gas are an integral part of our daily lives, from cell phones to shipping materials to lifesaving medical devices.

But we use many plastics only once — and promptly discard them.

And there's a growing "zero waste" movement on social media.

"A lot of people are eating seafood all the time, and fish are eating plastic all the time, so I think that's a problem," says a

marine toxicologist.

Microplastics — bits of plastic less than 5 millimeters in length — have been found lurking in the deep waters off California, on otherwise pristine mountain peaks in the Alps and in the gastrointestinal tracts of sea creatures large and small.

It's quite possible that, as a legacy of our consumer habits, each of us is consuming microplastics on a regular basis as well.

What's not yet known is whether it's taking a toll on our health.

What's happening: There are calls to ban single-use plastics and force companies to rely less on petrochemicals. That industry is taking notice, trying to stay ahead of consumer backlash by focusing on recycling.

Details: Roland Geyer, the lead author of a comprehensive 2017 study on plastic production and end use, estimates that about 9,200 million metric tons of virgin plastics have been produced since 1950.

Geyer's study projected that by 2050 about 12,000 million metric tons of plastic waste could be in landfills or the natural environment.

Globally, less than 20% of plastics were recycled in 2015. In the U.S., it's worse.

Just 9% of plastics were recycled that year, according to the most recent data from the Environmental Protection Agency.

In 2018, China banned most plastics headed for its recycling processors, shutting down the U.S.'s largest recycling export market and compounding our waste problem.

Since most plastics come from fossil fuels, our plastics dependency is also exacerbating climate change.

A recent report from an environmental group found that by 2030, plastics-related emissions could reach 1.34 gigatons per year — equivalent to the emissions released by more than 295 new 500-megawatt coal-fired power plants.

Unlike with other global environmental problems, consumers have more control over how this story plays out in the future.

Efforts to replace plastic straws and switch from single-use plastic water bottles to reusable containers can make a difference when it comes to marine pollution, says Kyle Van Houtan, chief scientist at the Monterey Bay Aquarium. (Courtesy axios.com)

Related

Solving the plastic problem

A sorting center in France. Photo:

Loic Venance/AFP/Getty Images Plastics are intertwined with our lives today — driving researchers to create plant-based versions and more efficient ways to recycle.

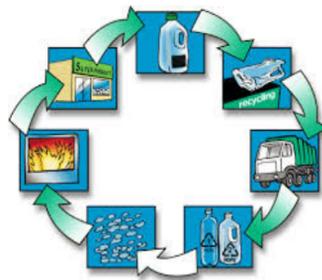

The big picture: From a science perspective, the biggest challenge is consumers and companies want materials that won't degrade quickly while being used but will degrade quickly once disposed, says Andrew Dove, a professor of chemistry at the University of Birmingham in the U.K. "The world wants it both ways."

"It's an incredible material," says Marc Hillmyer, who directs the Center for Sustainable Polymers at the University of Minnesota, and points to plastics use in transporting food and water, and protecting solar cells and windmill blades that anchor the renewable energy economy.

"We need them, but not for everything," he says.

How it works: Plastics are recycled or burned as a source of energy, but by one estimate, 79% of plastic waste has ended up in landfills or the environment.

Plastics can be mixed with pigments, other materials and other plastics, which complicate recycling and limit how the chemical components of plastic can be reused.

The push for "green plastics" made from sustainable materials gave us, for example, cups made from corn-based plastic (polylactic acid) and compostable chip bags that degrade under certain circumstances.

Researchers are trying to develop new materials that could replace common plastics — from that foam in flower arrangements to straws.

The challenge is finding a sweet spot between making a plastic easier to break down and the need for durability and other desired characteristics.

Replacing petroleum-based plastics is still important in the long term, says Dove, but as it accumulates in landfills, researchers are increasingly focusing on new ways to make and recycle today's materials.

Lawrence Berkeley National Laboratory researchers recently reported a new way to create a plastic commonly found in epoxies and polyurethane.

They were then able to break it down to its chemical building blocks, even when the plastics were colored or with other materials, and turn them back into plastic.

Yes, but: The process requires large amounts of water and hasn't been demonstrated to work on an industrial scale.

Proper plastic disposal is everyone's job. Scientists are also experimenting with degrading plastics using:

Chemical recycling: Different acids and bases can be used to break down plastics. Researchers hope to develop chemicals that can selectively degrade a single type of plastic in a stream of mixed plastic waste.

Enzymes: They have the advantage of being specific to a type of plastic but the disadvantage of working slowly compared to chemical recycling.

The bottom line: It's going to take a combination of new materials and improved recycling methods to minimize the impacts of our plastics dependency. "There's not going to be a panacea," says Hillmyer. (Courtesy axios.com)

# 寫愛情成爲電影新IP 作家界吳彥祖：愛情沒有專家

暢銷作家肆一藉著情感類書籍，療癒不少人心，還因為外型受封「作家吳彥祖」，電影《可不可以你也剛好喜歡我？》就來自他的同名書籍，將對愛情的感觸藉著文字寫下來，再躍上大螢幕，接下來還有3本書賣出影視版權，肆一對愛情的看法感染不少人，儼然成了愛情文學的新IP，但他卻說「愛情沒有專家」，從來不認爲寫愛情的人會將愛情談得很好。

電影《可不可以你也剛好喜歡我？》由億萬票房導演林孝謙擔任編劇，主演則匯集曹祐寧、陳好、林映唯、李杏、陳彥名等潛力新星，備受期待，肆一認爲，這部片的核心就在於「年輕時戀愛的感覺」，因為長大之後和學生時期的愛情煩惱是不一樣的，每個人也許都可以找到共鳴。

最常見愛情煩惱，肆一認爲，不外乎就是「爲什麼我對他那麼好，但是對方卻不喜歡我」，就如同即將上映的這部電影一

般，「很多人覺得，我對他好，他會感動他會接受，我覺得這個前提是，對方本來就對你有好感，但好這件事情在愛裡面是非常廉價的，這只是基本。」

肆一對於愛情有獨到見解，成爲暢銷愛情作家之一。◎由Mirror Media Inc 提供 肆一對於愛情有獨到見解，成爲暢銷愛情作家之一。

寫愛情文學，也常有讀者諮詢愛情問題，即使不能說是專家，但總會有既定印象，是這個作家應該會處理愛情。但肆一認爲，「愛情裡沒有專家，寫愛情不一定要是愛情的範本」，因爲每個階段會遇到不同的人事物，「不如說，這些寫戀愛的人，是把他在戀愛裡一路學習的過程寫下來。」

那自己的愛情呢？肆一鮮少透露自己隱私，但他認爲，和年輕時比起來，也許是進步了，可能比較不會鑽牛角尖，「最大的改變是不會自己困擾自己」。

## 電玩改編返校 男女主角是他們

## 兒首登大銀幕！ 賀一航愣：演李宗瑞？

台灣首部從電玩改編成大銀幕的電影《返校》，從2017年開始籌備到拍攝，超過兩年時間，其中經歷萬人海選，找出最符合主角方芮欣與魏仲廷的演員，最後終於由王淨與曾敬驊脫穎而出，至於相當關鍵的張明暉老師，則由傅孟柏飾演。

從《返校》預告中，可看出原本遊戲主場景「翠華中學」的真實樣貌，以及學生、老師著憲兵出現校園，完整還原禁錮的時代背景。還有令人印象深刻又極爲驚悚的禮堂上吊畫面，經典場面和氣氛都將在電影中一一透露。該片將於今年9月20日上映。

《返校》描述1962年寂寥而肅殺的時代，翠華中學高三生方芮欣，意外與輔導老師張明暉相戀，在問題叢生的家庭及學校中，他成爲她唯一的出路。追求自由的張明暉，另與師生殷翠涵、魏仲廷等人組織讀書會，研讀禁書，雖爲高壓校園帶來一線呼吸的空間，卻也冒著生死攸關的風險。一日，張明暉憑空消失，除方芮欣外，僅有高二生魏仲廷仍記得他的存在。兩人遂結伴尋找消失的老師，卻發現校園逐漸從他們熟悉的世界剝離，在鬼魅橫行的異域，他們被迫面對可怖的真相…。

翻拍李宗瑞淫照事件的電影《有罪》20日晚舉辦首映會，導演魯宗岳帶著主角陳少邦、曾治豪等演員現身。而這也是曾治豪的電影處男秀，他透露父親賀一航生前對演出內容相當好奇，還質問兒子：「你怎麼演李宗瑞？」曾治豪當時笑回賀一航「你看髮量也知道我不是演李宗瑞」，但他也感慨地說：「我爸他好奇，可惜他現在看不到，我相信他到了天國要看什麼片都可以，說不定明天上映時突然跳電，表示他不滿意。」

曾治豪也感性表示，無論是這次的電影首映會還是未來的其他演出，「都會留個位置給爸爸，將來我的演藝事業也都會，他永遠會在」。導演魯宗岳在《有罪》中將台灣4大社會案件，包括李宗瑞案、明星劈腿案、酒駕案、黑幫殺警案串成電影，探討犯罪。而曾治豪在片中飾演酒駕案的關鍵人物，他爲此還私下向友人借千萬超跑，在拍攝時演得戰戰兢兢，深怕一不小心撞壞車子，讓自己真的「有罪」上身。另外，曾治豪預告自己在片

中經常爆粗口、摺髒話，但他強調一切都是導演所要求的，「因爲導演想呈現本土文化，希望我能帶出多一點台灣文化，畢竟跟我演對手戲的都是香港和大陸演員居多，只能靠我盡量把台語的美好發揚光大」。而導演魯宗岳也提到，雖然電影主打翻拍李宗瑞案，但並不是在拍人物傳記，主要還是著墨於犯罪議題和對社會的影響，而片中床戲佔了百分之二十，最大尺度僅限於露兩點，導演笑說：「露兩點比較美啦！」

## 網封邱澤台版「康斯坦汀」 複製基努李維闖地獄

暑假上映國片《第九分局》前導海報首度曝光，其中，邱澤以電玩般的背景酷炫亮相，雙手拿著搭載特製子彈的手槍，有網友表示，海報中的邱澤激似電影《康斯坦汀：驅魔神探》中，基努李維獨闖地獄的樣貌。

邱澤肩上還揹了一把畫有八卦圖的黑傘，脖子上戴了平安符，腳下踩著一個神秘符號，在他面前的城市浮現八卦陣，但陰暗的天空，卻出現惡靈的雙眼蓄勢待發，隱隱透露出故事端倪，也讓影迷期待度飆高。

《第九分局》敘述天生有靈異體質的菜鳥警探陳家豪（邱澤

飾），充滿正義感、想打擊犯罪，卻因分不清人鬼頻頻鬧出烏龍。一場出動意外，連累搭檔學長殉職而被迫離開警局，在老鳥警探老張（澎恰恰飾）的協助下，陰錯陽差加入地下的神秘警察組織「第九分局」。

「第九分局」專門處理地上辦不了的懸案及各式靈異案件，阿豪開始和老張、有通靈能力的學姐小雪（溫貞菱飾）學習用桃木傘、香架、聖水槍等獨門法器抓惡鬼。某日，社會線記者如心（劉奕兒飾）請求協尋友人神秘死亡的真相時，他們意外捲入了一宗震驚社會的連環殺人命案…。

# 跟大鵬 沙寶亮顛覆以往形象 歐豪首演反派 每部作品 求變化

香港文匯報訊(記者倪夢環上海報道)電影《鋌而走險》入圍第二十二屆上海國際電影節金爵獎主競賽單元,不僅歐豪首演反派角色,大鵬、沙寶亮等主演均顛覆以往的形象,帶來不一樣的驚喜。歐豪表示,一旦進入角色自己就想做好,他希望在每一部作品中找到變化,讓自己更成熟。

此次,“犯罪題材領軍人物”曹保平與新人導演甘劍宇首次合作,影片中實打實的“近身肉搏戲”以及剖解出現實主義人物特點引發影迷激烈討論。在媒體見面會上,歐豪還透露拍戲過程中的成長與堅定,表示將盡全力去拍好角色,他更否認“奶油”定義,機智回應“可能我今天(21日)臉上有點油,但奶還沒有發現,希望以後多嘗試不同的角色”。

《鋌而走險》由曹保平監製、甘劍宇執導,大鵬、歐豪、沙寶亮等主演。故事圍繞着一宗“離奇”綁架案展開。修車行老闆劉小俊(大鵬飾)因倒賣一輛黑車意外捲入一起兒童綁架案,圍繞着被綁架的小女孩奇奇(烏蘭托雅朵飾),亡命兄弟夏西(歐豪飾)與夏濤(沙寶亮飾)、舞女(李夢飾)、二

手車販(曹炳琨飾)等看似不相干的幾人也因此陷入萬劫不復的深淵,在這場“鋌而走險”的警匪追逐中,綁架案背後不可告人的秘密逐漸浮出水面。

大鵬稱被打不報復

此次,歐豪首次出演反派人物,“其實在影片中,夏西對哥哥有一句話沒說,‘你為我失去了一條腿,我可以把命交給你’。”身穿背帶褲出現的歐豪談及劇中與“哥哥”的感情異常堅定,但作為反派,爭鬥似乎無法避免,他此次還與大鵬在戲中有“肉搏”鏡頭,他笑言“我在戲裡只打‘劉小俊’”,而大鵬亦回應被打不會“報復”,“這是我們的工作”。歐豪亦表示一直揣摩角色的多面性,“壞人也是人,也是有多面性的,所以抓住這個點,就能夠完

成。”沙寶亮則劇透劇中與歐豪飾演的兄弟:“二人內心其實都很柔軟,我非常喜歡這個角色。”他表示與歐豪都特別期待最後的“死亡戲”,為此豪飲半瓶威士忌尋找人物狀態,未曾想弄巧成拙,自己因醉酒曾耽誤拍戲,但也從此找準角色心態和性格。

歐豪看舊作感尷尬

在接受《香港文匯報》提問時,歐豪還透露未來方向,“大家都知道我以前是歌手,沒想過做演員,但我比較倔強,一旦進入角色我就想做好。”他表示希望在每一部作品中找到變化,讓自己更成熟,“我經常會回看以前的片子,自己都感到尷尬,但這種尷尬也是成長的過程,我覺得只要還在拍戲,盡全力拍好每一個角色,這是我要做的。”

## 電影語言有國際性 莊文強稱內地拍片改變了視野

香港文匯報訊(記者倪夢環上海報道)上海國際電影節滬港電影合作交流論壇在滬舉行,此次,香港導演莊文強與獨立製片人林炳坤均到場表達滬港合作見解。在莊文強看來,“上海是一個蠻好的片場”,無論是保存完好的舊時建築還是與香港相通的國際化與中心融合,上海為眾多優秀電影的誕生提供了良好的基礎。林炳坤則直言隨着中國電影的強大,越來越多國際製片人、公司願意來中國合作、拍攝電影,他表示作為香港影人會“不忘初心”,亦希望有更多好的合作片誕生。此前電影《無雙》

在莊文強看來,上海是蠻好的片場。夏微攝

得到金像獎17項提名,談到拍攝技巧,莊文強表示其實便是“把複雜的情感用簡單的故事講,所以得到了觀眾的共鳴。”如何拍好“簡單”,在他看來卻是最複雜的事情,而上海,正是他萌發“簡單”領悟的地方。莊文強表示,上海與香港文化結構接近,都對文明與歷史有強烈追求與尊重,“這也是超級城市必須有的,電影是

滬港電影合作交流論壇21日舉行。

需要很大的寬容度的,我來到內地拍片有很大的感受,改變了我們的視野”。他坦言最開始在內地拍電影如何“接地气”是自己遇到的問題之一,而正是在上海拍戲時,發現了電影語言的國際性,“我們就有了一個靈感,開始把我的劇本越寫越簡單,把複雜的情節變成一兩個畫面,從那個時候開始我們就一直在改變。”

林炳坤則表示,早年亦多次在上海拍片,也隨內地劇組經常去國外取景,卻也因經濟、文化等眾多因素經歷過障礙,而隨着中國實力的增強,中國電影越來越受歡迎,他建議內地與香港有更多劇本創作方面的合作,開拓多面發展。

未

有機會再次合作,所以今次一同參與活動,令我倍感開心!”蔡國威更分享道:“當年我初入演藝行業時,第一個主持工作便是與潔儀姐姐及維維合作,期望日後再有更多的機會合作呢!”

## 袁潔儀秦啟維蔡國威望傳揚灣仔街市情懷

香港文匯報訊(實習記者徐朗軒)藝人袁潔儀、秦啟維及蔡國威為“香港灣仔區各界協會慶祝中華人民共和國成立70周年暨灣仔街市市集節”擔任活動大使。早前三人更走訪

各個街市及市集拍攝節目,宣傳特色。

對於能夠參與是次活動,袁潔儀表示:“灣仔街市不單是人與人之間長長久久的情懷,就連一粒小小糖果、一條小小的鹹魚,都不其然在散發一種感情,即使不是在這區長大的我,也能感受到溫暖!灣仔街市市集帶給我的溫情,這年代似乎很少遇到,這讓我相當難忘呢!”

而秦啟維則表示:“我自小於灣仔長大,小時候家人帶着我買餸,人們都會親切地打招呼。現在的灣仔街市已全面空調化而且乾淨衛生,讓販商及買餸的朋友們都能在舒服的環境下愉快購物。今次回到灣仔街市,碰上很多以往認識的商販們,

讓我倍感親切,透過這次的機會,希望能把灣仔的街市市集文化推廣傳揚。”

蔡國威亦指灣仔區的街市市集是他其中一個購物的熱點:“貨品琳琅滿目,而且價格相宜,而檔主們更非常親切!灣仔的市集亦保留了長久以來的特色,售賣的貨品充滿香港獨有的特色情懷!灣仔的市集都是香港的文化瑰寶,我們要珍惜之外,更會多推介給旅客們,希望藉此地道文化,讓旅客更加認識我們的香港!”

對於是次合作,袁潔儀表示:“自從當年主持兒童節目後,大家亦

## 三浦春馬多部未華子合作被譽奧運級水平

今泉力哉現場大讚主演三浦春馬。夏微攝

香港文匯報訊(記者夏微上海報道)入圍金爵劇情長片競賽單元的《一首小夜曲》21日舉行劇組見面會,導演今泉力哉現場大讚主演三浦春馬,並戲稱,三浦春馬與多部未華子每四年一次的合作為奧運級別。

《一首小夜曲》是今泉力哉執導的愛情片,由三浦春馬主演,定於今年9月在日本上映。影片是根據日本作家伊坂幸太郎的原著改變而成,在原著中,作者利用佐藤和其同事騰間為主要視角,講述了一個個邂逅的戀愛故事,還有貫穿其中引人深思的日復一日、年復一年的夫妻關係。

今泉力哉直言,三浦春馬和多部未華子都是既有人氣又有實力的演員。三浦春馬除了在大屏幕上活躍外,舞台表演上也頗有建樹,他不但能夠表達出劇本中要求的內容,還能即興添加或刪除一些內容,使得人物形象更加豐富。

導演特別提及,兩位主演曾有過多次合作,但是這幾次合作非常巧的是每隔四年一次。所以包括當事人在內,都會開玩笑說,兩人是奧運會級別的合作。

今泉力哉透露,最初見三浦春馬時,他是一頭金髮,而為了塑造佐藤這個角色,三浦春馬將滿頭金髮染回了黑色,並且一改往日造型,剪短了頭髮,並直言這個角色頗具挑戰。
