## Exclusive: Merck anti-baldness drug Propecia has long trail of suicide reports, records show

(Reuters) - Newly unsealed court documents and other records show that Merck & Co and U.S. regulators knew about reports of suicidal behavior in men taking the company's anti-baldness treatment Propecia when they decided not to warn consumers of those potential risks in a 2011 update of the popular drug's label.

FILE PHOTO: A bottle of Propecia is seen on a pharmacy shelf in New York City, U.S., August 8, 2019. REUTERS/Zachary Goelman

Internal records from Merck were made public in late January, when a federal magistrate in Brooklyn, New York, granted a 2019 Reuters motion to unseal 11 documents filed in years of litigation alleging Propecia caused persistent sexual dysfunction and other harmful side effects.

Since the 2011 decision on the warning, the FDA has received more than 700 reports of suicide and suicidal thoughts among people taking Propecia or generic versions of the drug. Those included at least 100 deaths. Before that, in the first 14 years the drug was on the market, the agency received 34 such reports, including 10 deaths.

Annual U.S. prescriptions of finasteride, as the drug is known, for hair loss increased to over 2.4 million in 2020, more than double the number in 2015, according to health data company IQVIA.

European and Canadian regulators, citing similar reports among men taking finasteride, require a warning of suicidal thoughts on the label, though they note that research has

not proved that the drug causes such thoughts. To this day, the U.S. label contains no mention of suicide or suicidal thoughts.

As early as 2009, Merck knew of more than 200 reports of depression, including suicidal thoughts, in men taking Propecia, according to an internal "risk management" assessment from that year. The company decided there were too few reports of serious depression and suicidal behavior and not enough specifics about those cases to warrant more than "routine" monitoring of safety data.

In 2011, two years after the Merck risk analysis, the FDA was weighing a company request to add "depression" to the drug's label as a potential risk, with no warnings related to suicide. FDA analysts disagreed about adding a warning related to suicide, according to previously unreported government documents. But the regulator ultimately agreed with Merck's request on the grounds that the number of suicides was lower than one would expect in this group of patients.

### CALLS FOR TRANSPARENCY

Some medical researchers and patient advocates said Merck and the FDA have left American consumers in the dark about potentially life-threatening dangers associated with finasteride.

"No family should ever have to learn about this after the fact," said Kim Witzak, a consumer advocate who serves on an FDA advisory panel for psychiatric drugs. She has called drug companies and regulators to issue stronger warnings after her husband died from suicide in 2003 five weeks after being

prescribed an antidepressant for insomnia. Merck "had an opportunity to put suicide on the label, but they didn't want to do that because it's all about sales."

Michael Irwig, an endocrinologist and Harvard Medical School faculty member whose own research has found possible links between finasteride and suicidal behaviors, said Merck's handling of the risk analysis and the FDA's inaction keep critical information from the public. Merck "definitely should have provided a more complete picture," Irwig said. In a statement to Reuters, Merck said that "the scientific evidence does not support a causal link between Propecia and suicide or suicidal ideation and these terms should not be included in the labeling" for the drug. "Merck works continuously with regulators to ensure that potential safety signals are carefully analyzed and, if appropriate, included in the label for Propecia."

Merck has said in past statements that Propecia has been prescribed safely to millions of men since the late 1990s. It also has argued in court that "premature hair loss itself, the very condition for which Propecia is prescribed, is associated with low self-esteem, poor body image, and depression."

In a statement, FDA said it "continues to monitor postmarketing safety data for Propecia." Overall, the agency noted that the presence of a report in the FDA database "does not mean the drug caused the adverse event" and medical problems may stem from the "underlying disease being treated, caused by some other drug being taken concurrently, or occurred for other reasons."

## President Condé's New Book

Today I received two copies of the President of Guinea's new book, "A Vision For Africa."

President Alpha Condé spent his whole life in a political battle for democracy during which he underwent exile and imprisonment. He is the first democratically elected president in Guinea since 2010. In power, he has promised to develop the country. As a university professor, he became a statesman and continued his long journey in service to his country.

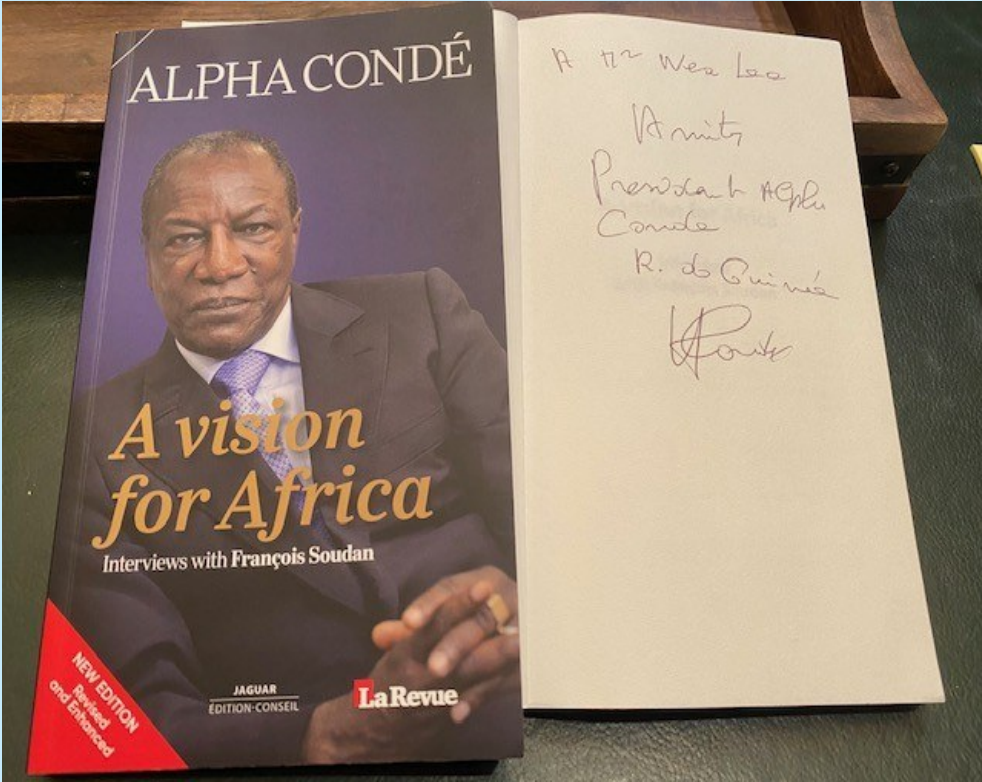

Guinea is a country in West Africa bordered on the west by the Atlantic Ocean. Natural resources are plentiful. In addition to its hydroelectric potential, the country possesses a large portion of the

world's bauxite and significant amounts of iron, gold and diamonds.

To serve the people who want to invest in Guinea, The First Guinea Investment Forum will be held on Feb. 24 to 27. This is the first transactional platform for key investment actors. The Guinea government as well as national, regional and international actors will join the event.

The priority of investments including Agriculture, Energy, Infrastructure, Mining and the digital economy will be discussed.

As President Condé said in his welcome message, "I give you the reassurance of my government in the security and profitability of your investments within

the framework of a win-win partnership."

As Honorary Consul of Guinea In Hous-

ton, I am inviting you and your friends to join this forum to explore the opportunities in the Republic of Guinea.

### Vaccine Delivery Chaos May Undermine Second Shot Doses

Illustration: Sarah Grillo/Axios

Compiled And Edited By John T. Robbins, Southern Daily Editor

Some of the same problems that have plagued the coronavirus vaccine rollout could also make it harder for people to get the second dose of the vaccines.

**Why it matters:** The two vaccines authorized so far both require two shots to reach the full potential of their protection, and those second shots need to happen within a specific window of time—putting extra pressure on a system that's already struggling to work out its kinks.

**What's next:** This week will be "when we're really starting to scale up to the second dose...the challenge is going to be about the availability of inventory and scheduling," Louisville Mayor Greg Fischer said in an interview.

• "Unlike the first dose, you've gotta get the second dose within that time window, so there's a little more criticality to it," he added.

**The problem:** Some states say they don't have enough visibility into how many doses of vaccine they are getting from the federal government, and when.

• "You need to have information on that entire supply chain," said Celine Gounder, a professor at NYU Grossman School of Medicine. "Forget second doses, we just don't know where doses are."

• "You need to have visibility three to four

weeks in advance to make sure you have that dose in hand, on time, for those patients who are coming back for a second dose," said Jessica Daley, a vice president at Premier Inc., which works with health systems across the country.

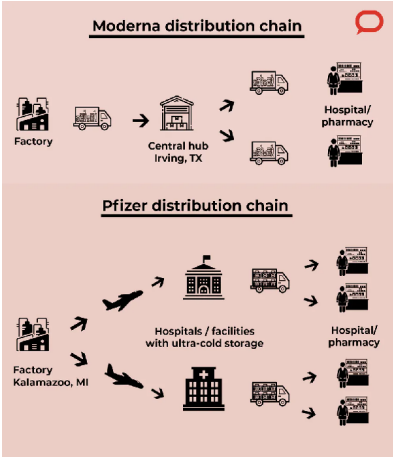

**Between the lines:** When vaccinating health system employees, "we know them, we can account for them, and it's a finite number. But when it gets to the community, its magnitude is multiple, multiple times" that, said Scott Evans, CEO of Sharp Grossmont Hospital.

**Where it stands:** Nationally, about 8% of the population has received at least one dose of the vaccine, and less than 2% have received both shots, per Bloomberg.

• The Biden administration isn't holding doses in reserve for people's second shots — it's shipping everything it can right away, trying to give as many people as possible at least some protection. Second doses will come from new supplies,

although some providers and health departments are withholding second doses themselves.

• Once someone receives the first dose of the vaccine, they have six weeks to get the second, per the Centers for Disease Control and Prevention's recommendations. **Scheduling** is also an issue. States and localities that used Eventbrite or other first-come, first-served systems may not have an easy way to guarantee appointments for second doses. "Things as simple as making appointments and calling people to come back and remind them to take their second dose — we don't have the infrastructure," Gounder said. **The other side:** Some health officials and providers feel confident that they'll be able to make the second dose process run smoothly.

• This often comes down to being able to successfully pull off the little things, like differentiating online between first dose appointments and second dose appointments or scheduling second dose appointments at the same time patients receive their first dose. **The bottom line:** We don't know what will happen if millions of Americans fail to receive their second shot in a timely manner. But at this point in the pandemic, we can little afford to figure it out the hard way.

### New Variants Driving Virus Fears: Poll

Americans are deeply worried about new strains of the coronavirus — prompting some to double-mask and many to tem-

per expectations about life getting back to normal — according to the latest installment of the Axios/Ipsos Coronavirus Index. The big picture: Fears have eased substantially around sending children back to school, our national survey found. But there's growing anxiety about the virus changing and the implications for the nation's health, economy and society.

• 83% of Americans say they're concerned about new strains that may be more transmissible — with about one-third of that group saying they're "extremely" concerned.

• Only 26% expect life to return to pre-COVID normal in the next six months; 30% predict it will be more than a year; and 8% say "never."

Percent concerned about new COVID-19 strains

Data: Axios/Ipsos survey; Chart: Axios Visuals

**Why it matters:** The findings suggest that Americans across partisan lines are increasingly attuned to the science around the virus — and that they don't expect vaccines or the new administration under President Biden to bring instant fixes.

• Six in 10 say they have watched or read news coverage about vaccinations in their community. **What they're saying:** "I'm reading this as, 'What is Biden's window to get this under control?'" said pollster Chris Jackson, senior vice president for Ipsos Public Affairs. Jackson said he'd expected to find three-to-six-month windows of patience, but that Americans seem to be prepared for a longer slog. "At least at the moment, people aren't really expecting it to get under control until six months to a year from now."

**What we're watching:** Since late August — the last time we asked this question — Americans have grown more comfortable with the idea of schools re-opening in their communities.

• 59% saying they have some level of concern, down from 74%, and only one-third now feel extremely or very concerned, down from half.

• There are still big partisan differences,

with Democrats about twice as worried as Republicans.

**By the numbers:** A small but significant share of Americans — 15% — who skew older and Democratic say they're wearing two masks at once, either sometimes or all of the time, when they leave home.

• When it comes to life returning to pre-COVID "normal," Republicans are the most likely by far to expect it within six months. But optimists are a minority even in the GOP: 84% of Democrats, 73% of independents and 63% of Republicans say a return to normal will take longer.

• Concerns about new strains of coronavirus are far more bipartisan: 95% of Democrats, 82% of independents and 71% of Republicans. (Courtesy axios.com)

**An Easy-To-Use Test Will Soon Be Available To All Americans, Per White House Covid-19 Adviser Andy Slavitt**

**U.S. Strikes \$230 Million Deal For Over-The-Counter Covid Tests**

“Making easier-to-use tests available to every American is a high priority with obvious benefits,” White House Covid-19 adviser Andy Slavitt told reporters. Ellume’s self-administered rapid coronavirus test.

Compiled And Edited By John T. Robbins, Southern Daily Editor

The Biden administration announced a \$230 million deal to ramp up production of the country’s first over-the-counter, at-home Covid-19 test. “These are over-the-counter, self-performed test kits that can detect Covid with roughly 95 percent accuracy within 15 minutes,” Andy Slavitt, the White House senior adviser for Covid-19 response, told reporters on Monday. The Food and Drug Administration granted an emergency use authorization in December for Ellume’s tests, which are expected to cost about \$30 each. “Ellume has been ramping up manufacturing and will ship 100,000 test kits per month to the U.S. from February through July,” Slavitt said. “That’s good, but it’s obviously not where we will need to be.”

Employees work on the production line of a Covid-19 coronavirus home test unit that has been granted an Emergency Use Authorization by the U.S. Food and Drug Administration (FDA), at the production facility of Australian digital diagnostics company Ellume in Brisbane on Dec. 21,

2020. (Photo/Patrick Hamilton / AFP - Getty Images)

The \$230 million deal the departments of Defense and Health and Human Services struck with Ellume will allow the company “to scale the manufacturing base and capacity of this easy-to-use test,” Slavitt said. “Thanks to this contract, they’ll be able to scale the production to manufacture over 19 million test kits per month by the end of this year, 8.5 million of which are guaranteed to the U.S. government.” The test by Ellume, an Australian digital diagnostics company, does not require sending samples to a lab, is similar to how at-home pregnancy tests work, and is “appropriate for people ages 2 and older,” Slavitt said. He said the test uses a “mid-turbinate nasal swab,” which is less invasive than the original deep nasal swabs used at the beginning of the outbreak.

The antigen test involves collecting a sample with a nasal swab that users then place into a Bluetooth-connected analyzer that syncs with a smartphone app. “After you take the swab, you put the sample into a digital analyzer, which will send a result to your smartphone in about 15 minutes,” Slavitt said. He called the news “exciting,” and said he hoped the price would come down when there are more tests in production. (Courtesy nbcnews.com)

**Biden Pledged 150 Million Covid Vaccinations In 100 Days.** Only 130 Million-Plus Total Covid-19 Vaccination Shots To Go. On Jan. 25, President Joe Biden upped

his Covid-19 vaccination goal to 150 million shots in arms in his first 100 days in office. Then Jan. 26, shortly after this article was first published, Biden backed away from 150 million and restated his 100 million goal. In the days and weeks before entering office, he said his goal was 100 million vaccinations.

**People wait in line to be vaccinated at a vaccination station in an empty department store in California, on Jan. 21. President Joe Biden pledged 150 million vaccinations in 100 days, starting Jan. 20. NBC News has tracked the progress made and the time that’s left to meet the administration’s goal. (Photo/Mike Blake / Reuters)**

President Joe Biden pledged 150 million vaccinations in 100 days  
Since Jan. 20 there have been more than 7 million total vaccinations.

**1,355,451 doses per day average, past seven days 1,552,153 doses per day necessary to reach 150 million. 86 days left to reach the goal.**

While Biden’s chief of staff had called the 100 million goal “ambitious,” the vaccination rate necessary to reach the mark is not much higher than what the rate was Jan. 20. The Biden administration has until the end of the day April 29 to reach the target. Use this graphic to follow whether the country is on track to reach the admin-

istration’s goal. Note that total vaccinations given — as in first and second shots, both shots counting individually — are what’s being counted. This is not the same as full vaccinations, which are first and second shots counted as one. Biden specifically mentioned shots in arms in his statements about the goal. (Courtesy nbcnews.com)

繼2015年《HUMAN》開創先例，成為第一部在聯合國大會廳首映的電影後，連潘基文都是座上嘉賓，法國著名環境學家、《盧貝松之搶救地球》導演楊·亞祖-貝彤（Yann Arthus-Bertrand），再度攜手烏克蘭人權記者兼導演安娜絲塔西雅·米科娃（Anastasia Mikova）獻上備受全球矚目的紀錄片《女也》（WOMAN），雙導演歷時3年、橫跨50多個國家、採訪超過2000名女性，匯集女性生命淬鍊下最內心的故事，電影震撼且鼓舞人心，於威尼斯影展首映時，觀眾喝采長達10分鐘，IMDb平均7.7高分好評：「讓人笑著笑著就哭了」、「需要被全世界看到」。一部為女性發聲的電影《女也》即將婦女節前夕3月5日在台上映。

### #Metoo運動下的韌性 《女也》揭露更多女性自白

威尼斯、哥本哈根、布拉格等各大影展都爭相播放，紀錄片《女也》聚集世界各地不同文化、家庭或信仰背景的女性們，面對著鏡頭，以第一人稱的方式自敘：第一次月經、懷孕、工作、婚姻等議題，講述其所遭受的不平等對待，真實發生於「她」的故事。該片聯合導演拍攝上一部人類影像紀錄電影《HUMAN》時，察覺許多女性對於分享自身經驗，會有所忌諱或不願意吐露，再加上近兩年好萊塢製片哈維溫斯坦的性醜聞引發「#Metoo」運動，許多女性勇敢的自白，展現堅強的心理韌性，促使他們展開電影《女也》，架設一個專屬於女性的獨白空間，導演提及受訪的婦女信任他們、賦予他們責任：「女性的聲音需要被聽到，她們不再是「弱者（the weaker sex）」。」

### 遭潑酸毀容仍挺身而出 《女也》盼性別平衡之道

電影淬汲世界各地女性的生命故事，因為家中男性而停止升學，被父親當作情人性騷擾，以及被丈夫潑硫酸毀容，揭露那些喜悅的、悲憤的、不該被埋沒的聲音。《女也》全球性大規模企劃，受到各國非政府組織以及法國巴黎銀行（BNP Paribas）等知名企業支持，記者出身的女導演安娜絲塔西雅·米科娃與法國名導楊·亞祖-貝彤，更將該片全數收益捐贈給「WOMAN(s)協會」，以培養與協助全球婦女與女孩進入媒體相關行業，期盼注入更多女性觀點，建立更包容與平等的世界。

# 《女也》橫跨全球50國 名導揭2000名女性生命故事

## 「勝利號」飛進賀歲檔 宋仲基嗨翻

宋仲基2日與金泰梨、柳海鎮、陳善奎出席新片「勝利號」上映記者會，宋仲基開心到形容「就像是當上了國家代表隊成員一樣」，迫不及待想讓觀眾看到這部韓國首次國產的宇宙科幻電影。

宋仲基和「勝利號」導演趙聖熙2012年曾合作「狼少年：不朽的愛」，對於二度聯手，宋仲基笑稱，對方都不給自己帥氣的設定，每次都要演「髒兮兮的角色」，但他誇讚主角的內心皆是單純、明朗，成為吸引他的一大原因。

他10年前就曾聽導演提過「勝利號」的故事構想，如今相隔10年接到劇本，內心大感震撼。宋仲基表示，第一次看劇本時覺得自己像小孩子一樣興奮，還想起小時候和朋友一起看的好萊塢電影「七寶奇謀」，都是愉快的冒險故事。

在「勝利號」中飾演反派的好萊塢影星李察阿米塔吉透過影片的方式在記者會上致意，李察難忘與宋仲基一起吃韓國冷麵的好滋味，故意打趣在拍攝時被金泰梨很咬的手指至今還是很痛。李察在影片結尾對大家送上飛吻，宋仲基和柳海鎮也立刻「回吻」。

老戲骨柳海鎮這回挑戰演出機器人，演出全程穿戴動態捕捉感應設備。他不介意只出聲不露臉，同樣自豪能參與「勝利號」。為了呈現宇宙磅磅的景象，「勝利號」動用韓國8家特效公司共1000多名技術人員打造視覺效果。當中不同國家和不同年代的太空梭都有歷史根據，並參考NASA提供的國際太空站畫面，力求打造真實場景。「勝利號」5日下午4點Netflix全球上線。

## 《鬼鄰居》強勢入圍 歐洲奧斯卡四項大獎

恐怖電影《鬼鄰居》取材自歐洲真實新聞，事件發生在瑞典郊區，一棟雙拼豪宅，夜半時分常傳來撞牆聲音，而且小孩常說有人來陪玩耍，屋主深感困擾，便四處訪查空屋原因，才發現驚人真相，隔壁根本沒住人，而且前屋主死於非命。新銳導演托德丹尼爾森Tord Danielsson、奧斯卡梅蘭德Os-kar Mellander看上了這個充滿懸疑驚悚的故事，便聯手進行改編拍攝，初試啼聲便獲得票房佳績，勇奪上映新片冠軍。更在歐洲奧斯卡-金甲蟲獎，強勢入圍四項大獎提名；最佳音效、最佳妝髮造型、最佳服裝設計、最佳視覺特效，讓電影更添精彩度。

電影女主角邀請亮眼新生代女星-蒂蓮葛溫Dilan Gwyn，她在瑞典斯德哥爾摩出生長大。高中畢業後，到巴黎學習法語，在斯德哥爾摩大學學習電影，2008年前往美國戲劇藝術學院表演藝術學院進修。目前居住在洛杉磯，從事跨國演藝工作。她的作品包括

影集《達文西間黑英雄》，還曾與路克伊凡斯合作好萊塢電影《德古拉：永咒傳奇》。蒂蓮葛溫這次參與恐怖片並不生澀，她在片飾演一位堅強女性，與男友買下郊外新屋，並還要照顧他的5歲兒子。在無血緣關係下，跟小孩間的相處充滿尷尬，被惡鬼侵擾時，要保護小孩還是獨自逃跑，就成了她的天人交戰。《鬼鄰居》片長87分鐘，秒秒緊湊，將在2021年開春新年，帶來最牛的恐怖片！

電影《鬼鄰居》講述一位父親帶著5歲兒子，還有女友席琳一起搬到郊外別墅，準備展開新的家庭生活。當父親離家上班，隔壁早已荒廢多時的屋宅時常傳出神秘聲響，使人夜不能眠；小孩更時常和「新朋友」對話玩耍。席琳偶然從鄰居口中得知自己新家秘密：前屋主入住後小孩失蹤、女主人精神異常因而搬離，席琳這才驚覺自家黑暗處有恐怖形體在騷動...

# 三金影帝吳朋奉生前主演最後作品 《東經北緯》3月5日上映

已故三金影帝吳朋奉生前主演的最後一部作品，電影《東經北緯》即將於3月5日全台感動上映；第一次與三金影帝合作，《東經北緯》導演袁緒虎說：「他在拍攝時不只會指導新進演員抓表演重點，更時時提點著他們如何掌握戲劇節奏，要演出這場戲的感覺，必須要心裡真正那樣想，就像大家所說的，人生如戲如人生，在海裡拍攝很辛苦，感謝他對電影的所有指導與付出。」在電影《東經北緯》中，吳朋奉飾演一位帶著孩子從小在海上尋寶的父親，透過教導小孩與大海的相處之道，凝聚兄弟彼此之間的感情，

由國內水中攝影翹楚袁緒虎所執導的電影《東經北緯》以追尋夢想、找尋寶藏和家人之間的羈絆為劇情主軸，伴隨著攪盡澎湖與小琉球海底風光，展現大海神祕、深邃與美麗的故事，導演袁緒虎說：「《東經北緯》藉由『與大海的相處之道』來提醒人的心胸應該更廣闊、

更包容、更能接受各種不同的聲音，現在的社會很紛擾，大家都該『聽見對方的聲音』，不論是家人或朋友，一起找尋夢想的座標。」

在即將上映的電影《東經北緯》中，除了可再次見到已故三金影帝吳朋奉的精湛演技，亦可看到由水球國手轉戰影視圈的柯鑑育，以及曾在電視劇《我的老師叫小賀》中有亮眼演出的新生代演員鄭凱，兩個人的精彩演出，導演袁緒虎說：「大海是他們三人共同的情感與夢想，透過三人對待大海的不同視角，帶出父子與兩兄弟之間的矛盾、衝突與深刻情感。」

以魅力的外型演出多部電視劇，亦為多部電影擔任水中攝影指導，《東經北緯》導演袁緒虎長年關注海洋生態，在首次執導的電視電影《海。人。魚》獲得金鐘獎最佳攝影的肯定後，他決定籌畫一部能透過大海的廣闊來療癒社會的電影，但熟知海底拍攝作業的他已預料必定困難重重，他說：「即便出海時天氣晴朗，但潮汐、海流、風向、海水流速與水質的清晰與透明度都會直接影響拍攝的成果，只要長時間身處其中，就能明顯感受大海的瞬息萬變。」但導演就是想呈現出這些地圖上不曾出現的風景，那也是他心中最接近夢想的座標，更希望透過《東經北緯》這部電影，重新尋回大海留給人类的無價寶藏，讓觀眾看見最美的台灣。

《東經北緯》的故事敘述三百多年前，傳說中的海盜船長顏思齊在蔚藍的大海中埋藏了大量的寶藏，身為其後代的顏賢軍(吳朋奉飾)深信著這個傳說，並且用一生的時間希望能夠證明這段歷史，他不只身體力行，更將自己的兩個兒子顏東經(柯鑑育 飾)與顏北緯(鄭凱 飾)自幼就訓練成默契絕佳的潛水夥伴，一同開啓「尋寶」的人生；原本感情極好的父子三人，卻隨著成長而逐漸發生變化，對於「寶藏」的定義產生嚴重分歧，東經更在一次意外之後憤而離家，父親口中所謂的「寶藏」究竟是什麼？曾經連結這對兄弟感情的大海是否又能讓東經北緯再次的交集。

## 4大鬼屋《民雄鬼屋》也要搬上大銀幕 女主角身分保密

台灣有許多在地盛傳的鄉野靈異奇談，現實存在最被網路討論的第一名就是嘉義的「民雄鬼屋」，在去年《女鬼橋》成為賣座的台灣鬼片之後，台南《杏林醫院》也被翻拍成電影，今年《民雄鬼屋》將被搬上大銀幕！

**民雄鬼屋家喻戶曉  
今年將搬上大銀幕**

《女鬼橋》編劇張耿銘將與同樣在去年大賣的國片《可不可，你也剛好喜歡我》監製劉楓棋聯手合作，再次端出最新貼近台灣觀眾的鬼故事，而且將以雙倍加乘的少見手法讓台灣在地鬼故事呈現更吸睛的樣貌。劉楓棋表示，相當期待與編劇張耿銘合作之後的成果，畢竟民雄鬼屋是一個相當具有特色且家喻戶曉的鬼片IP，除了想透過此片讓更多人了解專屬於台灣在地的民俗傳說，更希望藉此讓觀眾理解傳說背後真正的人性善惡本質。

**女主角獨挑大梁！  
誰主演暫保密**

民雄鬼屋座落於嘉義縣民雄地區，是一棟巴洛克式建築的三樓古厝，建造至今已有近百年歷史，但該建築至今仍被其後代遺留，荒置且未被改建，因而有了種種鄉野傳說及陰森氣息，位居台灣四大鬼屋之冠。劇組已

獲得在地富盛名的北港朝天宮之榮譽董事長兼「中華道教文化團體聯合總會」理事長曾蔡美佐允諾擔任本片顧問，希望讓嘉義文化更被關注，也找來道教正一開法壇壇主于詮詮道長替劇組坐鎮，替劇組祈福，期盼電影可以順利完成、人員平安。

電影《民雄鬼屋》預計於今年完成，為了保留神秘感，挑起大梁的女主角身份暫時保密。2021年會給觀眾全然不同的台灣靈異感受。

## 吳慷仁增胖 20 公斤陷低潮 邵雨薇臥熱馬路自嘲「鐵板燒上的烤肉」

吳慷仁為拍攝新片《我沒有談的那場戀愛》，1個半月就增胖20公斤，片商29日釋出他的「增胖日記」，只見他就像吹氣球般，結實腹肌變成一片大肚臍，他笑說：「變成胖嘟嘟的感覺很不舒服，導演希望我的臉看起來肉肉的，那我吃了很多，胖都胖在肚子，死都不胖在我的臉！」

導演徐譽庭透露把電影劇本拿給吳慷仁時，警告「這是一個觀眾看不出來演員有多辛苦，但非常辛苦的角色」，吳慷仁看完劇本果然找不出「辛苦」的部分，回應：「來！我最不怕苦！」豈料肉體的苦之外，導演在現場還很嚴格，讓他陷入角色的人生低潮，感嘆說：「從來沒有一部戲是導演一喊

『殺青』的時候，我是飆淚的。」

吳慷仁的女友邵雨薇也在電視劇《天巡者》嘗盡肉體折磨，飾演「孟婆」的她劇中常遭厲鬼攻擊，要思考如何被捧、被打，打鬥戲更讓她身上常有瘀青，但她認為身為專業演員，只要沒有過分危險都應自己上陣，也沒想過用替身。

有場孟婆被厲鬼挾持到人間的戲，邵雨薇得臥在柏油路上，當時正值炎熱7月，她形容氣溫熱到「水滴在地上會迅速蒸發」，自認像躺在岩盤浴做SPA、或是像鐵板燒上的烤肉，當導演一喊卡，她立刻跳起來，拿著陽傘以「蘑菇」姿勢蹲著防曬，笑說：「如果不這樣，會出現不聯繫的黑孟婆。」

休斯頓房地產停看聽系列講座(三十三)

抓住移居德州潮，提前布局抢先机

RE/MAX UNITED

聯禾

Q 因为疫情的摧残，几乎各行各业都深受打击，房价更是动荡不安。但却有越来越多人选择在德州置产，究竟是什么原因呢？

为什么大家都往德州跑？

德州经济发展是以石油和能源为导向，近年德州趋向产业多元化发展，包含航天、IT科技、医疗等产业。近年德州政府积极推行地方优惠政策以及没有州税的优势，吸引了许多外资进驻。美国《财星》杂志公布的500大企业中，就有52家公司进榜，仅次于加州的53家。根据《Seattle Times》的分析，加州与德州是美国人口最多的州，但加州近年人口搬迁出去的相当的多，过去十年加州迁徙到德州的人比德州移民加州的人多出 30 万。而近期，软件公司甲骨文和电动汽车公司特斯拉都有向德州迁移的消息。

新华人生活圈－凯蒂(Katy)

位于美国凯蒂市中的凯蒂亚洲城（Katy Asia Town），属于休斯顿大学校园附近的郊区，邻近高速公路际 I-10 和 99 号公路，便利出行大休斯敦各区，这里不仅仅环优美也颇具美国小镇风韵，由于经济良好，房价惠实和教育区优异有众多的中产华裔和亚裔居住在。根据 Bloomberg CityLab 2020 年 10 月的报导，凯蒂是 2020 年 2 月到 7 月人口增长涨幅最大的城市。

聯禾地產中國城

# 糾錯澄清：65歲糖尿病患者需符合相應條件才能申請糖尿病鞋！

（本報記者黃梅子）我於本週壹在《美南新聞日報》B4版發表了壹篇文章《65歲以上糖尿病患者每年可免費領壹雙鞋》，裏面提到“美國65歲以上的老人都有medicare，但很多患有糖尿病的65歲以上老人都不知道，其實他們每年都可以免費領到壹雙糖尿病鞋！只要您有家庭醫生的糖尿病病歷，就可以去位於黃金廣場的足科潘先樣醫生診所領取壹雙價值七八十元的糖尿病鞋！您自己不用支付任何費用，medicare將支付您的糖尿病鞋賬單，而且每年都可以領到壹雙！”，這段話是我在未採訪潘先樣醫生的情況下，在網上搜索了壹些資料，斷章取義而寫，使壹些病人產生

誤會，也對潘先樣醫生的聲譽造成了壹定程度的損害，我特此向潘先樣醫生道歉！並澄清如下：

潘先樣醫生強調，65歲以上擁有老人健保計劃的糖尿病人要申請糖尿病保健鞋，需滿足以下條件才能申請：首先，您要有家庭醫生開具的病歷，證明您有糖尿病史，另外，您需要再看足科醫生，如果醫生認為您現在有用藥控制血糖，但有足部血液循環不良、足部觸覺失常、足部骨頭變形等癥狀。您的家庭醫生確認您有糖尿病而且在用藥。同時足科醫生也確認您有以上不良癥狀，您可以聯系您的足科醫生向政府申請壹雙附帶糖尿病鞋墊的保健鞋。

足康寧不是潘先樣足科診所，只是相鄰門面，特此聲明。

在美國約有壹千萬個糖尿病患者，而足部疾病是百分之二十糖尿病患住院治療的主要原因，且下肢毛病是最常見而需要手術的疾病。大約三分之二非創傷性下肢截肢是發生在糖尿病患者身上。所以，對於糖尿病足的問題，絕不可等閒視之或疏略它。糖尿病人如果穿對鞋，則可以大大減低截肢的風險性。糖尿病足的臨床癥狀有以下幾項：足部或腳趾潰瘍，起因於創傷、組織缺血或異物刺激，此外，末梢神經病變引起的感覺喪失會讓病人無法及早察覺受傷，進而惡化傷口。還有壹種癥狀是穿通性潰瘍：踇骨

頭載重異常會導致胼胝形成或足底潰瘍，這種潰瘍常沿著壹條狹長的隧道蔓延到跗骨關節處，通常需要截肢方可痊癒。還有的糖尿病足是由於傷口感染，感染大都是多細菌性的，起因於足部的小創傷或微細的皮膚裂縫，導致血液循環不足和免疫機能受損。糖尿病足除了積極治療糖尿病之外，改穿糖尿病鞋、襪和鞋墊對於改善糖尿病足有很大的功效，穿對鞋可以保住腿，避免截肢。

您如果有糖尿病，且影響到您的日常活動，建議盡早去看醫生，壹切以醫生的專業診斷為準。

# 出了车祸不要紧，李医生免费帮你治，独家牵引疗法！

（本报记者黄梅子）在美国，每个人都要开车，如果出了车祸怎么办？壹般来讲，伤员要被送到急诊室进行壹系列检查，比如脑部CT、胸腔CT、腹腔CT等。如果需要手术，你就不要犹豫了，马上进行。如果内部器官完好，也没有伤筋动骨，只是肌肉或软组织受伤，可以寻求中医或西医康复治疗。这时候，找李医生，他可以帮你免费治疗！不用你自己掏壹分钱，全部由保险公司买单！不管是你的过错还是对方的过错导致的车祸，只要汽车买了保险，你把保险号告诉给李医生，由他负责免费将你治好！

李医生独家牵引疗法，包您壹次就减轻疼痛80%！大多数治疗腰椎病的西医和中医都是采用推拿疗法，配合药物或针灸，有壹定疗效，但都远远比不上牵引疗法。

病人A先生，45岁，由于是壹直从事体力劳动，腰痛病已经好几年了，起先感觉腰部酸痛，由于工作忙，没有引起重视。去

年开始，病情加重，腰椎间盘突出，腰部疼痛难忍，并且左侧大腿根往下发麻，走路困难甚至站立都难以维持。经几家医院治疗无好转，也试过中医针灸推拿，化费了上万治疗费，病情不见好转，走路需要人扶，并且壹侧臀部肌肉开始萎缩。后来到李医生诊所做牵引治疗，第壹次治疗疼痛就减轻很多，壹个疗程下来，病情明显好转，自己可以走路了，可以单独开车来治疗只需壹个人。再治疗壹个疗程，症状基本消失，身体恢复，现能够正常上班。

病人B先生，出了车祸之后开始没感觉，3—4星期之后才会觉得肩痛、背痛，才想起来去求医，幸亏找到李医生，帮他治疗，配合药物或针灸，不光治好了病，自己还不用掏壹分钱，而且有英语好的护士帮忙与保险公司交涉，省心！

病人C女士，虽然车祸后很快去看李医生，但看了几次感觉稍好之后，就三天打鱼，两天晒

网。等到身体出了大毛病，才又想起再去问医生，幸亏有李医生诊所的护士帮忙打电话给保险公司使得理赔顺利，否则不但自己要出冤枉钱，对自己身体更是不利。

很多人认为小车祸没有伤筋动骨，不去看医生，不知道车祸后任何问题都可以由保险公司负责，白白错过了免费治疗的良机。遗憾的是，5年、10年，甚至20年之后，大多数人（尤其是老年时期）就开始出现了病症。壹般是头部、视力、手腕、肩部、腰部以及骨骼其它部位等，总是感觉哪儿不对劲儿，找不到原因。其实，这就是车祸后遗症。车祸后遗症有壹个显著的表现就是长期腰痛背痛颈痛，严重时出现神经肌肉瘫痪和萎缩。腰部长期反复疼痛，休息时减轻，劳累就加重，常常有弯腰困难，久坐后疼痛，弯腰过久后疼痛加重等症。部分患者出现眩晕、头痛等症，甚至引发鼻炎、耳炎，也伴有手麻、手酸。

Texas Spinal Care 的李医生治车祸后遗症和脊椎间盘突出有20多年的经验，李医生毕业于加州大学圣荷西分校，行医多年，信誉卓著。他采用非手术治疗，独家采用牵引疗法，并配合推拿、注射、器材和营养相搭配的方法，治疗车祸后遗症和腰椎、颈椎间盘突出非常有效，病人无痛苦、不用专门请假，可以边工作边治疗，而且整个疗程的费用比手术治疗时的copay还低。

李医生专精车祸后的复健，车祸后PI与PIP都收。请打电话给李医生免费咨询。中文请与queen陈联系。
