US Justice Dept seeks rejection of Trump immunity claim in Jan. 6 lawsuits

(Reuters) - The U.S. Justice Department on Thursday urged an appeals court to reject former President Donald Trump's claim that he is automatically immune from lawsuits over his supporters' assault on the U.S. Capitol on Jan. 6, 2021.

The U.S. Court of Appeals for the District of Columbia Circuit had asked for the Justice Department's view as it weighs whether to allow civil lawsuits against Trump over the riot.

Trump has argued that he was acting in his official capacity as president when he told a crowd of supporters he would never concede the 2020 election and to "fight like hell" ahead of the congressional certification of President Joe Biden's electoral victory.

The U.S. Supreme Court held in 1982 that presidents cannot be sued over their official acts. But U.S. District Judge Amit Mehta ruled last February that Trump's fiery speech on Jan. 6 did not fall within his official scope of duties, allowing the lawsuits to move forward. Trump is appealing that ruling.

However it told the c that "incitement of imminent private violence" would not fall within the scope of a

president's official duties.

Lawyers for Trump and the plaintiffs in the lawsuits did not immediately respond to requests for comment.

Democrats in Congress and police officers have filed several civil lawsuits over the Capitol riots, with some alleging that Trump conspired with others to block the certification of Biden's 2020 election win.

The Justice Department has weighed in before on litigation targeting U.S. officials' Jan. 6 conduct.

In July 2021, it rejected a request by Mo Brooks, who was a Republican Congressman at the time, to defend him from a lawsuit by Democratic House member Eric Swalwell. The department said allegedly inciting an attack on the U.S. Capitol would not fall "within the scope of employment of a representative - or any federal employee."

At the same time, the Justice Department is defending Trump in a defamation case from the writer E. Jean Carroll, who has accused the former president of raping her in the mid-1990s, over statements he made while in office disparaging Carroll and her claims.

Justice Department lawyers have said Trump is immune from the defamation lawsuit. A different Washington appeals court in January heard arguments on whether Trump was acting as president under local law when he made the comments and is expected to rule on the immunity question

Russian mercenary boss publishes video showing fighters inside Ukraine's Bakhmut

March 2 (Reuters) - The founder of Russia's Wagner mercenary force on Thursday published a video showing his fighters inside Bakhmut, the small Ukrainian city Wagner has been fighting to capture for months.

Wagner has spearheaded Russia's assault on Bakhmut, which had a pre-war population of 75,000, and has made steady but incremental progress around the city's outskirts in recent months, endangering Ukraine's supply lines. In a post on Telegram, the press service of Yevgeny Prigozhin, Wagner's founder, cited him as saying: "The lads are mucking about, shooting home video. Houston Independent School District Is Facing A Takeover

A group composed of politicians, teachers and community leaders is expected go to Austin to demonstrate against a state takeover of the district. This is the biggest challenge in history for Houston's education system.

Mayor Sylvester Turner expressed great dissatisfaction with the prospect of a takeover and plans to participate in a counter-action.

At the same time, State Senator Whitmire and other senators joined in an action to sponsor Bill 1662 to oppose the State's takeover of the district.

Whether any opposition will be successful or not is still in doubt.

At present, there are 200,000 students and 27,000 teachers in the Houston Independent School District which ranks number one in Texas and eighth largest in

In recent years many residents in the metropolitan areas of the United States, including Houston, are poorer ethnic minorities made up of Latin American and African communities. The tax bases are much lower

and the tax money is less than average. The situation prevents the hiring of good teachers and lowers student quality.

The move to end the COVID national emergency and public health emergency declarations would formally restructure the federal coronavirus response to treat the virus as an endemic threat to public health that can be managed hrough the various agencies' normal authorities.

WASHINGTON — President Joe Biden informed Congress on Monday that he will end the twin national emergencies for addressing COVID-19 on May 11, as most of the world has returned closer to normalcy nearly three years after they were first declared.

The move to end the national emergency and public health emergency declarations would formally restructure the federal coronavirus response to treat the virus as an endemic threat to public health that can be managed through agencies' normal authorities.

It comes as lawmakers have already ended elements of the emergencies that kept millions of Americans insured during the pandemic. Combined with the drawdown of most federal COVID-19 relief money, it would also shift the development of vaccines and treatments away from the direct management of the federal government.

Former President Donald Trump Declared The COVID-19 Pandemic A National Emergency On March 13, 2020.

Biden's announcement comes in a statement opposing resolutions being brought to the floor this week by House Republicans to bring the emergency to an immediate end. House Republicans are also gearing up to launch investigations on the federal government's response to

Former President Donald Trump first declared the COVID-19 pandemic a national emergency on March 13, 2020. The emergencies have been repeatedly extended by Biden since he took office in January 2021, and are set to expire in the coming months. The White House said Biden plans to extend them both briefly to end on May 11. "An abrupt end to the emergency declarations would create wide-ranging chaos and uncertainty throughout the health care system — for states, for hospitals and doctors' offices, and, most importantly, for tens of millions of Americans," the Office of Management and Budget wrote in a Statement of Administration Policy.

President Biden Received His Covid Vaccine During the Emergencies.

Congress has already blunted the reach of the public health emergency that had the most direct impact on Americans, as political calls to end the declaration intensified. Lawmakers have refused for months to fulfill the Biden administration's request for billions more dollars to extend free COVID vaccines and testing. And the \$1.7 trillion spending package passed last year and signed into law by Biden put an end to a rule that barred states from kicking people off Medicaid, a move that is expected to see millions of people lose their coverage after April 1. The costs of COVID-19 vaccines are also expected to skyrocket once the government stops buying them, with Pfizer saying it will charge as much as \$130 per dose.

Only 15% of Americans have received the recommend-

ed, updated booster that has been offered since last fall.

Once the emergency expires, people with private insur-

ance will have some out-of-pocket costs for vaccines, tests and treatment, while the uninsured will have to pay for those expenses in their entirety

Legislators did extend telehealth flexibilities that were introduced as COVID-19 hit, leading health care systems around the country to regularly deliver care by smartphone or computer.

The Biden administration had previously considered ending the emergency last year, but held off amid concerns about a potential "winter surge" in cases and to provide adequate time for providers, insurers and patients to prepare for its end.

senior administration official said the three months until the expiration would mark a transition period where the administration will "hegin the process of a smooth operational wind-down of the flexibilities enabled

by the COVID-19 emergency declarations." The official spoke on the condition of anonymity to discuss the announcement before it had been released

More than 1.1 million people in the U.S. have died from COVID-19 since 2020, according to the Centers for Disease Control and Prevention, including about 3,700 last week.

Case counts have trended downward after a slight bump over the winter holidays, and are significantly below levels seen over the last two winters—though the number of tests performed for the virus and reported to public health officials has sharply decreased.

Moments before the White House's announcement, Rep. Tom Cole, R-Okla, accused the president of unnecessar ily extending the public health emergency to take action on issues like forgiving some federal student loan debts.

President Biden Will End COVID Emergencies On May 11th, 2023.

"The country has largely returned to normal," Cole said Monday, introducing a Republican-backed bill calling for an end to the health emergency. "Everyday Americans have returned to work and to school with no restrictions on their activities. It is time that the government acknowledges this reality: the pandemic is over."

FDA Experts Urge Single Annual COVID Vaccine Formula For All, But Variants Are Still With Us. Recommendations Would Override The Original COVID Vaccine Mix.

Shae Hammond/Bay Area News Group)

The original COVID-19 vaccine formula introduced in December 2020 should be retired and replaced entirely with the undated mix tailored to recent virus variants, an FDA expert panel urged in a unanimous vote this week. The Food and Drug Administration's Vaccines and Related Biological Products Advisory Committee was asked to consider whether to recommend a single vaccine composition for all situations, the so-called bivalent formula based both on the original virus strain and the more recent

'This isn't only a convenience thing to increase the number of people vaccinated, which is extremely important." said Dr. Hayley Gans, pediatrics professor at Stanford University Medical Center, during Thursday's panel discussion. "But also I think moving toward the strains that are circulating is important."

But COVID'S ever-evolving mutations make that difficult. Even the strains the updated booster shot was designed to protect against are rapidly vanishing. The Centers for Disease Control and Prevention indicates that the omicron BA4 variant is no longer circulating and that BA.5 only represents about 2% of cases nationally, edged out by XBB.1.15, which now accounts for about half of infections.

"I do think it's important to get closer to the circulating strains," said Dr. Paul Offit, a pediatrics professor at Children's Hospital of Philadelphia.

It was unclear how soon the FDA might put the committee's recommendation into action.

The move comes as a succession of omicron variants of the virus that causes COVID-19 continues to infect the vaccinated boosted and unvaccinated but hospitalizations and deaths haven't soared as they did in past winter waves of infection since the virus emerged three years ago, in early 2020.

Last year, the FDA experts urged new booster shots based on both the original virus strain that emerged in Wuhan. China and some of the newer omicron virus variants. known as BA4 and BA5.

But that undated formula was only recommended for hoosters to goose the immune response for the already vaccinated. Those who had not been vaccinated had to get the original vaccine, based on a now-extinct strain. Health

officials said the original vaccine still showed strong pro-

Experts have said low vaccination rates since then suggest the strategy wasn't popular. Currently, 61% of Americans and 75% of Californians have had the primary, two-dose COVID-19 vaccination. But only 15% nationally and 18% in California have had the single, updated booster

shot unveiled last fall. Others on the panel questioned the need for vaccines to

combat infections that don't produce symptoms. "You can certainly make the argument an asymptomatic infection is desirable," said Dr. Cody Meissner, a pediatrics professor at Dartmouth-Hitchcock Medical Center in Lebanon, New Hampshire, adding it will "act as its own

ing to be possible The virus is always going to mutate and evolve and find ways to avoid the immunity humans build up."

During the open comment period, several people told the panel they had suffered severe side effects from the vaccines and felt the agency was downplaying the risks. Angie Bluford, who said she's a 49-year-old mother from

Wilmington, North Carolina, said she got the Moderna vaccine in April 2021 "to protect my family," thinking she was "doing the right thing," and that she felt ill the next day, with headaches, shortness of breath and other

"My body is a shell of what it once was," she said. "Please hear us and help us.

Dr. Tom Shimabukuro of the CDC's immunization safety office said that the CDC is still investigating indications of a possible elevated stroke risk in older people that appeared in one of several safety monitoring networks and not others.

The public and the medical community should be confident that the government has systems in place to rapidly detect safety problems," Shimabukuro said. "We are aware of these reports of people experiencing long-lasting health problems following COVID vaccination. No specific medical causes for the symptoms have been found. We will continue to monitor the safety of these vaccines.' The panel concluded with discussions about future vaccine and booster schedules and dosages but made no recommendations. The \$16 TRILLION Bug — Pandemic May Cost U.S. **Economy Total Annual Output**

Compiled And Edited By John T. Robbins, Southern Daily Editor

The U.S. economy may lose a whopping \$16 trillion due to the devastating impact of the Covid-19 outbreak, both in output and people's lives, new research has found. While most studies assess the costs of the deadly virus by its impact on the national gross domestic product (GDP), a paper published in the Journal of the American Medical Association earlier this week offered a different approach. The authors of the study – former Treasury Secretary Lawrence Summers and Harvard University economist David Cutler – also took into account losses associated with those who have died due to the virus, in addition to the purely economic costs. With the number of coronavirus infections in the US nearing eight million and deaths surpassing 215,000, the researchers believe that the outbreak may result in an estimated 625,000 cumulative deaths in the country through next year. Given the theoretical "conservative value of \$7 million per life," premature deaths linked to the coronavirus could wipe out nearly \$4.4 trillion, according to their calculations.

The virus is believed to have long-term effects on health, especially for survivors with severe or critical disease. As those complications lead

to increased risk of premature death, they also have far-reaching consequences for the entire economy, with losses amounting to another \$2.6 trillion for cases forecast through the next year, the authors noted

Even those who did not contact the deadly virus could also be affected by it, the paper adds. Suffering caused by the possible death of loved ones, as well as the effects of isolation and loneliness, may lead to deteriorating mental health conditions. This also takes its toll on the economy, which could lose approximately \$1.6 trillion due to mental health impairment, according to the research. The rest of the losses – nearly half of the total – are associated with a drop in income due to the coronavirus-triggered recession. The authors cited a previous estimate from the Congressional Budget Office, which projects a total of \$7.6 trillion in

COMMUNITY

lost output during the next decade.

"The economic loss is more than twice the total monetary outlay for all the wars the US has fought since September 11, 2001, including those in Afghanistan, Iraq, and Syria," the study reads. "The total cost is estimated at more than \$16 trillion, or approximately 90% of the annual gross domestic product of the US," it concludes, adding that the estimated loss for a family of four would reach nearly \$200 000

The paper comes as US lawmakers debate another stimulus package, set to mitigate damage from the virus. The research stressed that any such economic relief should allocate at least five percent of the funds for increased testing and contact tracing, as an investment of approximately \$6 million leads to averted costs of an estimated \$176 million.

"Increased investment in testing and contact tracing could have economic benefits that are at least 30 times greater than the estimated costs of the investment in these approaches," the study said. It added that financial support for health measures should not be dismantled even when the concerns about the pandemic begin to recede.

U.S. Employers Cut Record 2 MIL-LION JOBS As Coronavirus Batters Economy

Job cuts announced by US employers have hit nearly 2 million so far this year, with the entertainment industry accounting for 40 percent of total layoffs, according to global outplacement firm Challenger, Gray & Christmas. In its report published on Thursday, the company said that last month's layoffs in the US were down 56 percent from July, but still 116 percent higher than at the same period one year ago. August job cuts of nearly 116,000 lifted the total number of this year's layoffs to 1.963.458. The number has already broken the previous record for the whole of 2001, when US-based employers announced a total of 1,956,876 cuts.

Most of the jobs – nearly 800,000 – vanished from the entertainment sector so far this year, followed by firms operating in retail and services. In August, entertainment and leisure companies, including bars, restaurants, hotels, and amusement parks, posted the second-highest number with 17,271 job

Air and transport companies downsized their staff even more last month. According to the report, 26,545 job cuts were announced in the struggling sector – 59 percent lower than in the previous month, but 647 percent higher than in August 2019.

"The leading sector for job cuts last month was transportation, as airlines begin to make staffing decisions in the wake of decreased travel and uncertain federal intervention," said Andrew Challenger, senior vice president at Challenger, Gray & Christmas. "An increasing number of companies that initially had temporary job cuts or furloughs are now making them permanent."

The coronavirus pandemic is still battering the US labor market. According to the latest Labor Department data, seasonally adjusted initial claims for jobless benefits for the week ending August 29 stood at 881,000. While it is around 130,000 down from the previous week's totals, it is only the second time the number of new jobless claims dropped below 1 million since the pandemic hit in March.

Despite the upward revision, based on better than previously estimated private inventory investment and personal consumption expenditures (PCE), the GDP drop is still the sharpest on record. In the worst plunge ever recorded, the U.S. economy contracted by 31.7 percent in the second quarter.

The plunge came as most business activities were paralyzed for weeks, and millions of Americans lost their jobs amid strict stayat-home orders to contain the spread of the deadly virus. Despite having the highest number of coronavirus infections, the US gradually lifted lockdowns, possibly paving the way for partial recovery in the next

However, there are concerns that a second wave of Covid-19 may come this fall, further disrupting the economy.

"The full economic effects of the Covid-19 pandemic cannot be quantified in the GDP estimate for the second quarter of 2020 because the impacts are generally embedded in source data and cannot be separately identified," the Bureau of Economic Analysis (BEA) said. (Courtesy www.rt.com/ business)

《隱形戰隊》兩集過後,足夠短平快 足夠女性暴力美學,精彩港劇

TVB翡翠臺播出,並且在優酷同步上線 。我在6日的劇評文章當中說,這部電 慎原則,希望能夠多追幾集,然後和大 觀眾,可以追劇了。

我在6日的劇評文章當中,已經聊 中,這種短平快的橋段創作和拍攝方式 , 更是此起彼伏。這種快節奏, 符合觀 眾們對於港劇警匪劇的既定期待值。

的時候,就是憑借這種快節奏的警匪劇 打開中國內地市場的。二十多年前,中 國內地也有不少的警匪劇和犯罪劇作品, 但大多集中在現實特征的表達上,犯罪分 子也沒有港劇當中的狂野粗暴、有組織。 略差。港劇警匪劇猛然北上,短平快的 商業打法,讓觀眾們大呼過癮。

這次,在《隱形戰隊》當中,觀眾 們顯然可以獲得壹種久違的港劇短平快 老味道了。比如,在第2集的劇情內容 當中,毫無拖泥帶水的內容,直接是臥 底男主大雄起, 搗毀毒品犯罪分子的老 巢,並且取而代之,與大毒梟交易,並 且摧毀了整個的大毒梟犯罪團夥。壹集 内容,沒壹句廢話,槍戰也是爽朗的很

另壹面,則是《隱形戰隊》把女性 暴力美學元素運用的非常不差。這壹點 ,我在6日的劇評文章當中,也大略說 了壹下。在《隱形戰隊》第2集的內容

, 幾位霸王花雖然都是顏值很高的, 甚 至於穿著打扮非常時尚的,但她們都是 其實,二十多年前,港劇剛剛北上 的角色。這樣的女性,會讓那群三俗的 男性觀眾們望而卻步

> 此外,這部電視劇當中,也有更為 微妙的港劇情懷。什麼情懷呢?俠的情 懷。其實,精彩的港劇警匪劇,都是武 俠劇的變種。在古裝的環境當中,大俠 們來行俠仗義。在香港的現代都市環境 當中,則是香港的警察們來為民除害。 港劇警匪劇要想好看,就需要有俠的精 氣神。

> 《隱形戰隊》當中,這種精氣神是 很足的。什麼是俠的精神呢?是為天 下,為普通人。壹個大俠,天天光想 著自己抽煙喝酒搞三俗,成不了大俠 , 只能成被人唾棄的三俗戲子。在 《隱形戰隊》第2集的內容當中,有兩

和毒販進行交易,毒販把有毒的飲料端 給普通人。這個時候,男主角若是不救 這個普通人,那這個普通人就會死掉, 並且威脅其他人。而如果他去救,就會 暴露自己的警察身份。這其實就是把男 主角放在了俠的位置上,讓他自己選 劇情當中,男主角猛然起身,救下無辜

第二處,隱形部隊的戰鬥人員們 同時,港劇警匪劇當中,雖然有女 而此刻,壹個嬰兒車被擋在了毒梟和警 個橋段,實在是《隱形部隊》當中的點 睛之筆。壹車不救,何以救天下。有這 以女強人的形象出現,都是能打半邊天 樣的警員,大家願意相信,他們能夠保 障香港社會的安全。

> 這些內容,其實都是武俠精神的壹 種。武俠劇也好,警匪劇也罷,其實都 是典型的商業爽劇模式。它們當然是虛 假的,但它們能夠實現情感上的直實 《隱形戰隊》這部電視劇,播出兩集, 沒有短板,喜歡港劇警匪劇的觀眾們 不妨追起來

湯怡衛詩雅預祝家樂早生貴子

提到同公司的陳家樂下月與連詩雅結婚,家樂已吩咐湯 怡等同門師兄弟姊妹拿假出席婚禮,湯怡説: "當日我結婚 時沒有請家樂,記得他問過我好幾次,為什麼沒有請他?我 怕到他結婚時不會請我,幸好我都在名單之中。"湯怡與衛 詩雅更預祝家樂早生貴子,因知道對方想生一隊足球隊。問 到二人會送什麼厚禮,衛詩雅笑道: "我不送了,他欠我太 多了,不過我會幫手做兄弟和義工。"詩雅的6歲姪女是家 樂的忠實粉絲,之前家樂更送戒指給她,詩雅説: "姪女會 做花女,她有問我家樂哥哥是不是要結婚,叫我幫她祝福對 方,又錄音讚家樂靚仔,連詩雅就更靚女。她現在很緊張當 日要穿什麼裙,我就笑她又不是她要出嫁。"詩雅更取笑姪 女雖然收了家樂的戒指,但現在對方卻娶第二個女人,教姪 女今後不要輕易相信男人,說不定姪女到時會第一個出來反 對家樂結婚。 ◆攝:香港文匯報記者 郭木又

曾志偉討債5700萬台幣 二審改判勝訴

香港中通社 台北消息:香港藝人曾志偉主 張已故台灣製片人裴祥泉生前向其借款5,700萬 元 (新台幣,下同),跨海提告要求裴祥泉繼承 人償還。法院一審判曾敗訴,二審8日改判裴祥 泉繼承人須向曾志偉償還5,700萬元。

曾志偉主張,裴祥泉約定將兩人合作發行的 8部電影的收益盈餘分配給曾。裴祥泉取得收益 後,向曾借用其應得收益款項繼續發行新電影。 雙方於1999年4月簽立借據和本票, 裴祥泉表明 向曾志偉借款4,000萬元。

曾志偉指出,裴祥泉未依約清償,繼續積欠 他的演出酬勞,並於2003年3月又簽立借據及本 票,表明向他借款總計5,700萬元。不料,直到 裴祥泉逝世前仍未歸還款項,因此向繼承人求

愿理各種保險

裴祥泉家屬主張,曾志偉未舉證與裴祥泉有 借貸或交付金錢的事實,也沒提到參與電影拍攝 及如何分配收益。且曾志偉多年來未曾追討,數 年後才簽立借據及本票,在裴祥泉逝世3年後才 提起訴訟,與常情不符。

一審台北地方法院認為,曾志偉無法證明裴 祥泉欠款,判曾志偉敗訴。案經上訴,二審由台 灣高等法院審理,8日改判裴祥泉的3名繼承人 應在繼承的遺產範圍內,償還曾志偉5,700萬

二審判決指出,曾志偉與裴祥泉簽立的借 據,經送調查部門進行筆跡鑑定,確認是裴祥泉 親書,足證兩人確實存在委任關係。
