China still ‘cautiously optimistic’ on U.S. trade talks despite new tariffs

BEIJING/WASHINGTON (Reuters) - China and the United States have agreed to hold more trade talks in Beijing, Vice Premier Liu He said as U.S. President Donald Trump ordered his trade chief to begin the process of imposing tariffs on all remaining imports from China.

Liu voiced a measured optimism on reaching a deal, but said there were “issues of principle” on which China would not back down.

“Negotiations have not broken down,” Liu, China’s chief negotiator in the talks, said in Washington on Friday, according to state television on Saturday. “Quite the opposite, I think small setbacks are normal and inevitable during the negotiations of both countries. Looking forward, we are still cautiously optimistic,” Liu said.

But Liu’s optimism was tempered by U.S. Treasury Secretary Steven Mnuchin, who told CNBC on Friday that there were no further talks with China planned “as of now.”

And on Saturday, Trump tweeted, “Such an easy way to avoid Tariffs? Make or produce your goods and products in the good old USA. It’s very simple!”

The United States escalated a tariff war with China on Friday by hiking levies on \$200 billion worth of Chinese goods in the midst of last-ditch talks to rescue a trade deal. Trump had delayed the tariffs as negotiations between Washington and Beijing were progressing.

On Friday, Trump issued orders for the tariff increase, saying China “broke the deal” by reneging on earlier commitments made during months of negotiations. China strongly opposes the latest U.S. tariff hike, and as a nation, has to respond to that, Liu told a small group of Chinese reporters in the video clip.

“Right now, both sides have reached mutual understanding in many things, but frankly speaking, there are also differences. We think these differences are significant issues of principle,” Liu said. “We absolutely cannot make concessions on such issues of principle.”

He added that talks would continue in Beijing, but gave no details. But underscoring a lack of progress in the talks, Trump ordered a further escalation of tariffs.

Trump’s move would subject about \$300 billion worth of Chinese imports to punitive tariffs, U.S. Trade Representative Robert Lighthizer said in a statement on Friday. Lighthizer said a final decision has not been made on the new duties, which would come on top of an early Friday tariff rate increase, to 25% from 10%, on \$200 billion worth of Chinese imports.

Three differences remain between the two countries, according to China’s account of the latest talks.

One of those is over tariffs, Liu said, according to a transcript of the Q&A published by Phoenix, a Hong Kong-based television station that is close to Beijing. China believes that tariffs were the genesis of the trade dispute, and that if both sides wanted to reach an agreement, then all tariffs must be eliminated, Liu said. The second is about procurement, on which an initial consensus was reached between the leaders of the two countries in Argentina late last year. The two sides now have differing views on the volumes, Liu said. The third is over how balanced the text of the draft agreement should be, he said.

“Every nation has its dignity, so the text ought to be balanced,” Liu said.

Sources told Reuters this week that China had deleted its commitments in the draft agreement that said it would change laws to resolve core complaints of the United States: theft of U.S. intellectual property and trade secrets; forced technology transfers; competition policy; access to financial services; and currency manipulation.

Liu denied the accusations of China’s reneging on promises, saying China thought it was normal to make changes before a final deal. Both sides had differing views on how to phrase it, he said.

U.S. states accuse Teva, other drug-makers, of price-fixing -lawsuit

WASHINGTON (Reuters) - U.S. states filed a lawsuit accusing Teva Pharmaceuticals USA Inc of orchestrating a sweeping scheme with 19 other drug companies to inflate drug prices - sometimes by more than 1,000% - and stifle competition for generic drugs, state prosecutors said on Saturday.

FILE PHOTO: The logo of Teva Pharmaceutical Industries during a news conference held by its CEO, Kare Schultz, to discuss the company's 2019 outlook in Tel Aviv, Israel February 19, 2019. REUTERS/Amir Cohen/File Photo Soaring drug prices from both branded and generic manufacturers have sparked outrage and investigations in the United States. The criticism has come from across the political spectrum, from President Donald Trump, a Republican, to progressive Democrats including U.S. Senator Elizabeth Warren, who is running for president.

The 20 drug companies engaged in illegal conspiracies to divide up the market for drugs to avoid competing and, in some cases, conspired to either prevent prices from dropping or to raise them, according to the complaint by 44 U.S. states, filed on Friday in the U.S. District Court in Connecticut.

A representative of Teva USA, a unit of Israeli company Teva Pharmaceutical Industries Ltd, said it will fight the lawsuit.

“The allegations in this new complaint, and in the litigation more generally, are just that – allegations,” it said in a statement. “Teva continues to review the issue internally and has not engaged in any conduct that would lead to civil or criminal liability.”

The 500-page lawsuit accuses the generic drug industry, which mainly sells medicines that are off patent and should be less expensive, of a long history of discreet agreements to ensure that companies that are supposedly competitors

each get a “fair share.”

The situation worsened in 2012, the complaint said.

“Apparently unsatisfied with the status quo of ‘fair share’ and the mere avoidance of price erosion, Teva and its co-conspirators embarked on one of the most egregious and damaging price-fixing conspiracies in the history of the United States,” the complaint said. With Teva at the center of the conspiracy, the drug companies colluded to significantly raise prices on 86 medicines between July 2013 and January 2015, the complaint said.

Representatives of Sandoz, another company named in the lawsuit, did not immediately respond to a request for comment. The drugs included everything from tablets and capsules to creams and ointments to treat conditions including diabetes, high cholesterol, high blood pressure, cancer, epilepsy and more, they said. In some instances, the coordinated price increases were more than 1,000 percent, the lawsuit said.

The lawsuit also names 15 individuals as defendants who it said carried out the schemes on a day-to-day basis.

“The level of corporate greed alleged in this multistate lawsuit is heartless and unconscionable,” Nevada Governor Steve Sisolak said in a statement.

According to New Jersey Attorney General Gurbir Grewal, more than half of the corporate defendants are based in New Jersey, and five of the individual defendants live in the state.

The lawsuit seeks damages, civil penalties and actions by the court to restore competition to the generic drug market. Generic drugs can save drug buyers and taxpayers tens of

billions of dollars a year because they are a lower-priced alternative to brand-name drugs.

“Generic drugs were one of the few ‘bargains’ in the United States healthcare system,” the lawsuit said. However, it added, “Prices for hundreds of generic drugs have risen – while some have skyrocketed, without explanation, sparking outrage from politicians, payers and consumers across the country whose costs have doubled, tripled, or even increased 1,000% or more.” As a result of the drug companies’ conspiracies, it said, consumers and states paid “substantially inflated and anticompetitive prices for numerous generic pharmaceutical drugs” while the drug companies profited. The lawsuit filed on Friday is parallel to an action brought in December 2016 by the attorneys general of 45 states and the District of Columbia. That case was later expanded to include more than a dozen drugmakers.

(CNN) A multistate outbreak of E. coli has raised alarms and questions: As of Thursday, 72 people in five states have become ill, yet the cause of their infection remains unknown, the US Centers for Disease Control and Prevention reported Friday.

Symptoms of this bacterial infection, which usually begin about three or four days after consuming the bacteria, can include watery or bloody diarrhea, fever, abdominal cramps, nausea and vomiting.

Eight people involved in the mysterious outbreak have been hospitalized. No deaths have been reported. People started becoming ill March 2, and the patients range in age from 1 to 74 years old. Additional illnesses tied this outbreak may still be reported, the CDC said.

States reporting sick patients are Georgia (8 patients), Kentucky (36), Ohio (5), Tennessee (21) and Virginia (2).

Government scientists have not identified a food item, grocery store or restaurant chain as the source of these infections. The CDC, state health departments, the US Department of Agriculture's Food Safety and Inspection Service and the US Food and Drug Administration are investigating the outbreak.

You do not need to avoid any particular food, the CDC said, and grocery stores, retailers and restaurants do not need to avoid serving or selling any particular food.

Anyone concerned that they might have an E. coli infection should talk to their health care provider. It is important to write down everything you ate in the week before developing symptoms. A medical professional can diagnose you as well as offer advice, including washing your hands, to avoid spreading it to other people.

E. coli are a diverse family of bacteria that can be found in the environment, in foods and in the intestines of people and animals. Most strains are harmless. To avoid becoming

Mystery E. Coli Outbreak Sickens 72 People In 5 States, CDC Says

Compiled And Edited By John T. Robbins, Southern Daily Editor

ing infected with a harmful strain, the CDC recommends using proper hygiene; cooking meat at proper temperatures; avoiding raw milk, unpasteurized dairy products and juices; and not swallowing water when swimming.

Most people infected by the bacteria get better within five to seven days. Antibiotics are not recommended for patients with suspected E. coli infections until testing has been performed. (Courtesy cnn.com)

Related

E. Coli Outbreaks: Fast Facts

E. coli outbreaks in the United States

General Information: (from the CDC)

There are many strains of the bacteria Escherichia coli (E. coli). Most strains are harmless and live in the intestines of healthy humans and animals.

Some kinds of E. coli cause disease by producing Shiga toxin. The bacteria that make these toxins are called "Shiga toxin-producing" E. coli (STEC). The most commonly found STEC in the United States is E. coli O157:H7.

The symptoms of STEC infections can include stomach cramps, diarrhea and vom-

iting. Some infections are mild, but others can be life-threatening.

The CDC estimates that 265,000 STEC infections occur each year in the United States. E. coli O157:H7 causes more than 36% of these infections.

People of all ages can be infected, but young children and the elderly are more likely to develop severe symptoms.

The types of E. coli that can cause illness can be transmitted through contaminated water or food, or through contact with people or animals.

Prevention:

To avoid E. coli infections, experts advise to thoroughly cook meat, avoid unpasteurized dairy products and juices, avoid swallowing water while swimming and wash hands regularly.

1998 - The Hazard Analysis and Critical Control Points program (HACCP) begins requiring meat processors to establish critical checkpoints in the plants to prevent pathogens from contaminating meat.

- Inspectors from the food-safety agency randomly test all facilities that grind meat

products to make sure that the plants are complying with the HACCP program.

1999 - The USDA approves the irradiation process for meat. Irradiation is a process that uses beams of high-speed electrons to kill E. coli and other bacteria.

May 2000 - Huisken Meats of Sauk Rapids, Minnesota, becomes the first meat processor to begin selling irradiated ground beef to retailers.

June 2009 - Epitopix LLC, a Minnesota-based veterinary pharmaceutical company, begins licensing a new vaccine for cows that reduces the transmission of E. coli between cows and humans.

Timeline of selected E. coli outbreaks in the United States:

Jack in the Box (E. coli O157:H7)

1992-1993 - The Jack in the Box outbreak kills three children and makes about 500 people sick in the Northwest United States. The Jack in the Box incident leads the Bill Clinton administration to begin random testing for E. coli in ground beef.

The meatpacking industry sues the USDA to block the tests. The USDA wins the lawsuit.

ConAgra Beef Co. (E. coli O157:H7)

July 19, 2002 - Nineteen million pounds of meat produced at the ConAgra Beef Co.'s Greeley, Colorado, plant is recalled. At least 35 people become ill due to this meat contamination and one person dies. The contaminated meat is shipped to at least 21 states.

Prepackaged Spinach (E. coli O157:H7)

September 14, 2006 - The FDA issues a warning to consumers about an E. coli O157:H7 outbreak in multiple states. The warning states, "preliminary epidemiological evidence suggests that bagged fresh spinach may be a possible cause of this outbreak."

Romaine Lettuce (E. coli O157:H7)

April 10, 2018 - The CDC says it's investigating a multistate outbreak of E. coli

infections.

April 13, 2018 - The CDC reports that its investigation is focused on chopped romaine lettuce from the Yuma, Arizona, region. According to the CDC, 35 people from 11 states have fallen ill.

April 18, 2018 - In an update, the CDC reports that 53 people from 16 states have been infected. A total of 95% of those sickened said they ate romaine lettuce before the illness started.

April 20, 2018 - The CDC expands its warning to include all forms of romaine lettuce from the Yuma area, including whole heads and hearts, not just chopped.

May 2, 2018 - The CDC reports an individual in California has died from the outbreak. There are 23 additional cases of E. coli, bringing the total to 121 cases in 25 states.

June 1, 2018 - The CDC reports an increase in the number of infected people to 197 in 35 states. A total of five deaths have been reported.

June 28, 2018 - The CDC announces that the outbreak has ended. Five deaths were reported, and a total of 210 people in 36 states were infected. It's the worst outbreak of E. coli O157:H7 since a 2006 outbreak linked to spinach.

Romaine Lettuce (E. coli O157:H7)

November 20, 2018 - The CDC, along with the FDA, announces it is investigating a multistate outbreak of E. coli infections most likely linked to romaine lettuce.

November 26, 2018 - In an update, the FDA reports that 43 people from 12 states have been infected.

January 9, 2019 - The CDC announces the outbreak appears to have ended. In total, 62 people in 16 states were infected between October 7, 2018, and December 4, 2018. (Courtesy cnn.com)

魏德聖在台中建經協會演講 宣布「豐盛之城」即將啟動

拍攝海角七號的知名導演魏德聖今（10）日表示，他所規劃的「豐盛之城」歷史文化體驗園區就快要啟動，其中台糖位於台南蘭花科技園區附近的100公頃土地，預計5月底決標，工程預計2021年下半年動工，2025年完工啓用。

魏德聖今天應台中市建築經營協會邀請，以「用電影創造無煙囪商機與人文價值」為題發表演講，現場也分享他近年電影創作與籌備中的新片，如何讓電影的價值不只在電影本身。

魏德聖曾說：「小夢想吸引不了人，也沒有投資機會點，不如追求大夢想」。

因此，他近年來正在籌拍「台灣三部曲」，述說台灣歷史不同的背景故事，這將是三部互有關係卻又各自獨立的電影，讓國民能透過電影明白：我們從何而來，我們的祖先發生過的歷史事件。

這個大夢想，還包括未來拍完後保留拍攝片場，做為新的文

創且具有歷史意義的「豐盛之城」，初估包括電影拍攝及園區建設，總投資金額超過100億元，園區預計在電影上映時同步開幕。

目前已知，包括台南的和通建設已決定參與投資，由於金額龐大，魏德聖也積極爭取國發會參與投資。

在魏德聖的計畫裡，豐盛之城是以電影「臺灣三部曲」為核心的主題園區，運用電影元素與拍攝實景，結合虛擬實境與擴增實境等科技藝術，要讓蘭遮城、普羅米遮城與已不復存在的「西拉雅部落」重生，營造出大航海時代台灣的真實情境。

魏德聖在官網曾留下這樣的感嘆：「隨著計畫推進，我們更加感受到深深的使命感」。

憶起當年賽德克巴萊的林口霧社街片場短暫半年的開放，當時有38萬的影迷曾經跟著他們回到了1930年的霧社街，那個場景已不存在，卻在他們團隊

心中刻下難以忘懷的感動」，希望同樣的遺憾不再重演。

台中建築經營協會理事長

梁信雄表示，魏德聖可以說是台灣電影界的苦行僧，國片市場經營很辛苦，他卻堅持拍出

「海角七號」、「賽德克巴萊」、「KANO」等叫好又叫座的電影。

做完田調就忘
職人劇導演
遵循太極張三豐理論

公視首播收視創新高的職人劇《生死接線員》，找來曾兩度提名金鐘獎最佳導演的邱皓洲，以及曾以《我的阿嬤是太空人》獲金鐘獎迷你劇集導演獎的王傳宗共同執導。

對於這部戲以大眾極陌生的器官捐贈移植協調師為題材，邱皓洲坦言：「雖然我也跟著到醫院做過田調，但在正式拍攝時，其實田調內容我全忘光了。看過電影《太極張三豐》嗎？和學太極拳的道理相同，最高境界就是學起來後完全忘記！」

職人劇《生死接線員》以

雙導演方式進行拍攝，導演之一邱皓洲接受專訪時直言，無論是劇本內容或田野調查的內容，都不會在腦子裡停留太久：「身為一個創作者，我如果被田調內容綁死，不如去拍紀錄片好了。任何故事有個原型或模版，如果只是拿這些在做功課照抄，那拍戲一點意思也沒有。」

以《生死接線員》為例，邱皓洲認為，必須包括導演、演員、工作人員及編劇等各方思考的層面，是個綜合性的產物。「我一直覺得情感面真實的東西，會比寫實來得更重要

，戲劇永遠不是真的，所以對田調沒那麼糾結，我只在意如果劇本方面有任何情感面是我無法理解的，那才是最嚴重的，而這與田調一點關係也沒有。

在拍戲過程中，邱煌洲除盡力做好導演工作外，並以「人」的層面理解每個器官捐案例故事人物的想法，努力以戲劇方式呈現給大家看。他也強調：「我希望能讓觀眾看這齣戲時，思考生跟死、器官要不要捐贈等問題，而不是單純只看案例的故事而已，這也是我身為導演必須學習的課題。」

徐若瑄新片「孤味」與影后謝盈萱飆戲

當了母親的徐若瑄，演出題材也與年輕時大不相同。她和曾獲得國家文藝獎、金馬獎特別貢獻獎的資深剪接大師廖慶松合力監製新片「孤味」，由導演許承傑同名短片改編，卡司陣容堅強，除了她扮演2姊外，「全民阿嬤」陳淑芳飾演母親，金馬獎影后謝盈萱、金鐘女配角孫可芳飾大姊和3妹，金馬最佳女配角丁寧也加入。由於劇本曾獲優良電影劇本特優獎，在編、演俱優情況下，觀眾將可期待一部最溫暖人心的感動好戲。

「孤味」描述陳淑芳飾演的單親媽媽，獨自撫養大姊謝盈萱、2姊徐若瑄與3妹孫可芳長大，卻在接到一通電話後，發現她

不但得面對自己內心多年來的怨懟，也在處理和女兒們關係的過程中，出現了更多人生難題。

爲迎接本週母親節的到來，大姊謝盈萱、2姊徐若瑄與3妹孫可芳齊聲祝福大家「母親節快樂！」徐若瑄更是感性發言：「自己是在當了母親後，才更了解自己的母親。」她一直有想要監製電影的念頭，苦於沒有遇到合適的題材，但第一次讀到「孤味」的劇本立刻深受感動，決定就是要要把這個很女性的故事搬上大銀幕，她也以自身爲人母的角度，將人生經驗貢獻在電影之中，希望能夠爲「孤味」帶來不同世代母親的感覺。

無論你是想開奶茶店或是你現有生意增加額外收入
