China’s Wuhan shuts down transport as global alarm mounts over virus spread

Director-General of World Health Organization (WHO) Tedros Adhanom Ghebreyesus takes part in a news conference after a meeting of the International Health Regulations (IHR) Emergency Committee for Pneumonia due to the Novel Coronavirus 2019-nCoV in Geneva, Switzerland, January 22, 2020. Christopher Black/WHO/

BEIJING/SHANGHAI (Reuters) - Deaths from China’s new flu-like virus rose to 17 on Wednesday, with more than 540 cases confirmed, leading the city at the center of the outbreak to close transportation networks and urge citizens not to leave as fears rose of the contagion spreading.

The previously unknown coronavirus strain is believed to have emerged from illegally traded wildlife at an animal market in the central city of Wuhan. Cases have been detected as far away as the United States.

Contrasting with its secrecy over the 2002-03 Severe Acute Respiratory Syndrome (SARS), which killed nearly 800 people, China’s communist government has this time given regular updates to try to avoid panic as millions travel for the Lunar New Year.

WHO says will decide on Thursday if China virus is a global health emergency
Saudi Arabia to screen travelers from China after virus outbreak
See more stories

After a meeting at its Geneva headquarters on Wednesday, the World Health Organization (WHO) said it would decide on Thursday whether to declare the outbreak a global health emergency, which would step up the international response.

If it does so, it will be the sixth international public health emergency to be declared in the last decade.

“This is an evolving and complex situation,” said WHO Director-General Tedros Adhanom Ghebreyesus.

As it seeks to stop the spread of the virus, Wuhan’s local government said it would close all urban transport networks and suspend outgoing flights from the city as of 10 a.m. on Thursday (0200 GMT), state media reported, adding that the government said citizens should not leave the city unless there were special circumstances.

The measure was intended to “effectively cut off the transmission of the virus, resolutely curb the spread of the epidemic, and ensure the health and safety of the people,” state media cited Wuhan’s virus task-force as saying.

Wuhan’s move was praised by Ghebreyesus as a “very strong” measure that could minimize the risk of contagion.

“If Wuhan is taking such drastic measures, we must assume widespread community transmission in this central China megacity & transport hub,” Lawrence Gostin, a public health expert at Georgetown University Law School in Washington, wrote in a tweet.

Christopher Black/WHO/Handout via REUTERS

With more than 11 million people, Wuhan is central China’s

main industrial and commercial center, home to the country’s largest inland port and gateway to its Three Gorges hydroelectric dam.

The latest death toll in Hubei province, of which Wuhan is the capital, rose to 17 by midday on Wednesday, state television quoted the provincial government as saying.

However, the virus has already spread beyond the city to population centers including Beijing, Shanghai, Macau and Hong Kong.

The official China Daily newspaper said 544 cases had now been confirmed in the country. Thailand has confirmed four cases, while the United States, Taiwan, South Korea and Japan have each reported one.

Britain advised its citizens against all but essential travel to Wuhan.

Many Chinese were canceling trips, buying face masks, avoiding public places such as cinemas and shopping centers, and even turning to an online plague simulation game as a way to cope.

“The best way to conquer fear is to confront fear,” said one commentator on China’s Twitter-like Weibo. China’s National Health Commission Vice Minister Li Bin said the virus, which can cause pneumonia and has no effective vaccine, was being spread via breathing. Symptoms include fever, coughing and difficulty breathing.

“I feel fearful, because there’s no cure for the virus,” said

Democrats launch first salvo at Trump impeachment trial, say U.S global standing at stake

WASHINGTON (Reuters) - Democrats accused President Donald Trump at his impeachment trial on Wednesday of a corrupt scheme to pressure Ukraine to help him get re-elected and warned that America's global prestige would suffer if the U.S. Senate acquits him.

The Republican Trump sounded a defiant note, telling reporters in Switzerland the Democrats did not have enough evidence to find him guilty and remove him from office.

In a two-hour opening argument for the prosecution after days of procedural wrangling, U.S. Representative Adam Schiff said Trump had pushed Ukrainian President Volodymyr Zelenskiy to investigate former Vice President Joe Biden and Biden's son on unsubstantiated corruption charges last year.

“To implement this corrupt scheme, President Trump pressured the president of Ukraine to publicly announce investigations into two discredited allegations that would benefit President Trump's 2020 presidential campaign,” Schiff said.

Protester shouting ‘dismiss the charges’ briefly interrupts Trump impeachment trial

U.S. senators on ‘digital detox’ as they hear Trump’s impeachment trial

See more stories

Democrats argue that Trump was trying to find dirt on Biden, a leading contender for the Democratic presidential nomination for the November election, and his son Hunter Biden who had served on the board of a Ukrainian gas company, to help the president win a second term.

Trump was impeached last month by the Democratic-controlled House of Representatives on charges of abuse of power and obstruction of Congress for his dealings with Ukraine and impeding the inquiry into the matter.

A Reuters-Ipsos poll released on Wednesday found a bipartisan majority of Americans wanting to see new witnesses testify in

Lead manager House Intelligence Committee Chairman Adam Schiff (D-CA) delivers an opening argument as Senate Majority Leader Mitch McConnell (R-KY) (lowerR) prepares to speak during the second day of the Senate impeachment trial of U.S. President Donald Trump in this frame grab from video shot in the U.S. Senate Chamber at the U.S. Capitol in Washington, U.S., January 22,

the impeachment trial.

It said about 72% agreed that the trial “should allow witnesses with first-hand knowledge of the impeachment charges to testify,” including 84% of Democrats and 69% of Republicans

Trump denies any wrongdoing and his fellow Republicans in the Senate say his behavior does not fit the description of “high crimes and misdemeanors” outlined in the U.S. Constitution as a reason to oust a U.S.

president.

Trump is almost certain to be acquitted by the Republican-controlled 100-member Senate, where a two-thirds majority is needed to remove him from office. But the trial's effect on his re-election bid is unclear.

The case against him is focused on a July 25 telephone call in which he asked Zelenskiy to open a corruption investigation into the Bidens as well as a discredited theory that Ukraine,

not Russia, meddled in the 2016 U.S. election.

“Nothing could be more dangerous to a democracy than a commander in chief who believed that he could operate with impunity, free from accountability. Nothing, that is, except a Congress that is willing to let it be so,” said Schiff, who is leading the prosecution team of Democratic “managers” from the House.

CDC 2017 Survey Shows Houston With Lowest Measles Vaccination Rate Among Key U.S. Cities

Related
Five cases of measles confirmed in the greater Houston area

A vial containing the measles vaccine is loaded into a syringe before being given to a baby in Los Angeles, Calif. on Feb. 6, 2015. Monday, officials announced three cases of the measles virus in Harris County, Texas and advised residents to be current on their vaccinations.

Five cases of measles have been confirmed in the greater Houston area, a regional cluster that makes Texas the eleventh state this year to report the highly contagious disease until recently thought virtually eliminated in the U.S. The cases, all announced last year, include three in Harris County, one in Galveston County and one in Montgomery County. They involve four children, all under 2 years of age, and a woman between the ages of 25 and 35. All are doing well now. “This is a reminder for people to be on guard and be up to date on their vaccinations,” said Dr. Umair A. Shah, executive director for Harris County Public Health. “Measles, a serious disease, is in our community.”

Measles, caused by an airborne virus, is particularly dangerous, capable of causing serious neurological disorders and death in infants and the developing fetus in pregnant women. It is spread through direct contact with discharge through the

nose and mouth as well as coughing and sneezing. Shah said it was too early to say whether the five cases might be the start of a local outbreak. The counties are monitoring anyone exposed to the measles patients while they were contagious to see if they develop symptoms. None has so far. Dr. Peter Hotez, an infectious disease specialist at Baylor College of Medicine and Texas Children’s Hospital, said he’s concerned because in the pre-vaccine era, measles typically peaked in the late winter and early spring. He said “a perfect storm could be coming.” The numbers have already begun increasing in Texas. There was one case per year in the state in each of 2015, 2016 and 2017, then nine cases last year. This year’s possible sixth case, elsewhere in Texas, awaits lab testing, said a spokesman for the state department of health.

A 2018 study led by Hotez found four Texas counties, including Harris County, ranked in the top 15 metropolitan “hot spots” of vaccine exemptions, the nation’s areas with the highest numbers of kindergartners not getting inoculated for nonmedical reasons. Throughout the state, those numbers have spiked from less than 3,000 in 2003 to about 50,000 in 2017, the latest year for which statistics are available. (Courtesy houston-chronicle.com)

Compiled And Edited By John T. Robbins, Southern Daily Editor

A 2017 report by the Center for Disease Control and Prevention shows that among major U.S. cities surveyed, Houston has the lowest rate of measles vaccination among young children. The study looked at vaccination rates among a large sample group of children between 19 and 35 months old in 2017, which was the most recent data available. Health authorities recently announced that five Houston-area people, including two infants, have contracted measles. Measles is a dangerous and highly contagious disease that can cause lasting damage in some cases. In the 2017 study, the CDC claims 87.8 percent of Houston children in that age range were vaccinated against measles, mumps, and rubella vaccination, well below the statewide 90.3 percent. The report included eight major U.S. cities, although data was not available for many of them. Other Texas metro areas fared better. Bexar County lead the way with 96.1 percent of its children vaccinated. For Dallas County, 93.1 percent of children were vaccinated. Travis County had 92.1 percent and El Paso County had

89.3 percent.

Nationally, Houston is listed as the fifth worst designated area for vaccine rates. It was beat out by the states of Colorado (87.2 percent), Indiana (87 percent) and Missouri (82.5 percent). Guam, a U.S. territory, had the worst rate with 82.5 percent. Massachusetts (98.3 percent) and Virginia (97.6 percent) took the top for designated areas in the study, followed by Bexar County. Calls Increase For Protection Against Radiation Pollution

**Health Hazard Alert From 5G
Cell Towers Going Mainstream**

Compiled And Edited By John T. Robbins, Southern Daily Editor

(Natural News) Like it or not, 5G (fifth generation) cellular technology will be up and running in your area soon. Experts believe that by 2020 virtually every country on the planet will have switched to this technology. Service providers boast that 5G will revolutionize the ‘Net, increasing download speeds by 100 times when compared to 4G technology. And 5G will likely facilitate more stable connections and greater capacity. In simple terms, this means that several people in a household will comfortably be able to run high-demand applications simultaneously, and a full HD movie will take less than 10 seconds to download. As reported by CBS San Francisco, the Federal Communications Commission (FCC) and the cellular service providers themselves all insist that this technology is safe. But studies have found that 5G poses a serious threat to the health of the community, and anecdotal evidence of people who have developed tumors after exposure to even older generations of wireless technology has begun to mount. “Flying Blind” CBS reported that residents of the East Bay area of San Francisco recently scheduled a town council meeting to challenge local government to take steps

to protect residents from radiation exposure. This neighborhood is just one of many across the country that has decided to take a stand against the rollout of 5G in their area.

Ellie Marks is an East Bay resident who became outspoken about the dangers of cellular radiation after her husband was diagnosed with a brain tumor in 2008. The tumor was located on the right side of his head, exactly where he regularly held his cellphone to his ear. Marks had been a prolific cellphone user since 1986. Though Marks survived the tumor, the cancer scare mobilized his wife to speak up publicly in countrywide tours about the dangers of cellphone use and radiation exposure from other wireless devices. “We may not see the full ramifications of this for 20-30 years,” she told CBS. “How can we just fly blindly into this? It

doesn’t make sense
5G likely to prove more harmful than previous cellular technologies

As bad as older cellular technologies have proven to be, 5G is likely to be even more harmful. As Natural News previously reported: It all has to do with the type of radiation that’s emitted from 5G – radiation that penetrates human skin more aggressively than any other type of radiation currently emitted from consumer electronics. It’s actually in the same frequency range as what’s blasted by the naked body scanners present at American and British airports. “Today’s cellular and Wi-Fi networks rely on microwaves – a type of electromagnetic radiation utilizing frequencies up to 6 gigahertz (GHz) in order to wirelessly transmit voice or data,” explains the Environmental Health Trust (EHT) about the difference. “However, 5G applications will require unlocking of new spectrum bands in higher frequency ranges above 6 GHz to 100 GHz and beyond, utilizing submillimeter and millimeter waves – to allow ultra-high rates of data to be transmitted in the same amount of time as compared with previous deployments of microwave radiation.” (Courtesy <https://www.naturalnews.com>)

Related
5G Now Linked To Rising Health Problems Concerns About “Health Calamity” On The Rise

Understanding 5G And Cell Phone Radiation

The kind of radiation emitted from cell phones, cell towers and related devices is known as “electromagnetic radiation,” often abbreviated to EMF or EMR. It is also considered to be a type of non-ionizing radiation. While it is not the same radiation you’d fear in a nuclear accident — that doesn’t mean it’s as “risk-free” as

industry leaders make it out to be. Currently, cell phones and other devices rely on the 4G network. 5G, or “Fifth Generation” technology promises speeds of up to 100 times faster than the current model. In order to achieve such speed, however, there is a catch: Thousands of more base stations need to be installed in order for it to work. 5G waves cannot travel as far as 4G; experts say that one new base will need to be installed for every 12 homes. This means that while you might not currently live near a cell tower, soon these new base stations will become virtually impossible to avoid.

A Health Hazard Waiting To Explode
There is no shortage of reasons to be worried about the impact of 5G networks on human health, but the recent reports of health complaints from a group of San Francisco firefighters ought to give everyone pause. While the promise of faster speeds and better connectivity sounds like a dream come true to cellphone lovers, it is becoming quite clear that the cost of 5G is simply too high. Firefighters from San Francisco say that they began experiencing an array of unusual side effects — after 5G equipment was installed in and around their firehouses. Symptoms reportedly included memory problems and confusion. The firefighters say the symptoms only stopped after they relocated to different fire stations without 5G devices nearby. Many studies have shown that there is a link between EMR from cellphones and cancer. In fact, a recent, large-scale government study found an association between cell phone radiation and brain cancer and heart tumors. The \$25 million study carried out by the U.S. National Institutes of Health’s National Toxicology Program (NTP) has

shed light on the very real dangers of cell phones and other wireless devices. The NTP study focused on exposing rats to two types of radiation emitted by cell phones for a nine-hour period each day. The radiation bath began while the rats were still in utero, and was continued until the rats died a natural death. An expert review panel analyzed the findings and were shocked to see that the radiation from cell phones was linked to increase in tumors of the brain and heart. Additionally, the reviewers also observed a “statistically significant” increase in damage to heart muscle. Advocates say that the implementation of 5G is a recipe for total “health calamity.”

Don’t Ignore The Risks

Despite the growing body of research indicating danger, the potential health crisis of 5G is largely being ignored. For example, in response to the firefighters’ health complaints, the wireless industry told CBS13 that “decades of research” show that cell phone radiation is safe. The industry rep even told CBS13 that brain tumor rates in the U.S. had gone down since the advent of cell phones. This assertion from the wireless industry is at odds with reports that brain cancer is on the rise in both the United States and England. But it’s not just industry leaders ignoring the risks of 5G and other related tech — the FDA has come out and declared that only “heavy users” of cell phones may be at risk. In today’s world, being a “heavy user” of cellphones isn’t that hard to accomplish — most young people would easily fall into that category. (Courtesy <https://www.newstarget.com>)

2020年美国移民政策有何新变化？移民关心这些问题

据美国中文网援引Forbes报道，2019年，美国政府出台多项移民新规，外国投资者为EB-5签证必须支付的最低金额几乎翻倍，从50万美元增加至90万美元，而2020年移民政策又将会有哪些改变？有哪些法案值得关注？

H-1B和L-1签证拒签率仍或居高不下

H-1B申请可能会继续保持或接近美国政府前三年的高比率。今年3月，美国公民和移民服务局(USCIS)将推出电子注册系统。各公司将利用该系统提交有关申请H-1B签证的专业人士的信息。新推行的电子注册可能会导致申请数量增加，从而导致初创公司或其他申请员工少的公司的中签率下降。

美国移民局计划发布一项规则，将提出修改专业知识定义，阐明就业和劳资关系的定义，并确保雇主支付L-1签证持有者适当的工资。拟议规则的目标日期为2020年9月。

雇主们表示，现在为雇员申请L-1签证很困难。“我们在印度领事馆的L签证拒签率是80%到90%”，一家美国大公司的高管在一次采访中告诉Forbes。

H-4签证工作权利或被取消

针对H-1B配偶签证，美国政府将继续取消持H-4签证的工作权利列入监管议程。拟议规则的目标日期是2020年3月。

S.386法案能否在参院通过

2019年7月10日，众议院以365票对65票通过了高技能移民公平法案(H.R. 1044)。该法案将取消各国雇主担保移民的配额限制，同时将亲属移民的配额从7%提高到15%

H.R.1044的参院版本S. 386号一直2019年一直遭到部分参议员的否决，S.386法案的主要发起人、参议员迈克·李(Mike Lee)已同意将三位参议员要求的条款包括在法案中。2020年S.

386法院能否在参院顺利通过值得关注。

留学生OPT及停留时间或将受限

ICE计划在2020年修订现有法规，并修订针对F和M签证的非移民学生的OPT规则。”2020年8月是拟议的目标日期。

国土安全部的监管议程上的一项内容指出：“ICE提议对所有指定的学校官员进行审查，以确保ICE能够通过学生和交流访问者信息系统(SE-VIS)获取学生的准确数据。”

美国政府还计划在2月公布一项改革，更改国际学生在美最长停留时间。

难民和庇护政策或将收紧

2019年9月，美国政府宣布了历史最低的2020财年接收难民的年度上限，为1.8万人，比奥巴马政府最后一年设定的11万人的上限降低了84%。2020年美国可能不会调高接收难

民的年度上限。

法院是否会撤销对新公共负担法的禁令

2019年10月15日起，美国政府新规明确规定了在一定时间内领取过公共福利的移民，将被视为“公共负担者”，可能被驳回绿卡或部分签证的申请，包括游客、学生、短期工作、短期探访等等，当然，受限最大的可能还是绿卡申请。

此前纽约南区联邦地区法院法官George Daniels，批准了一项全国性的初步禁令，阻止了原计划在10月15日生效的“公共负担”新法规。而今年如果法院批准了“公共负担”法规，这可能是美国政府影响最深远的移民措施。

移民局或将加强对雇佣移民的企业监管

据《华尔街日报》报道，在2019年美国移民局调查人员开展的工作场所调查数量是奥巴马政府结束时的四

倍。这种趋势很可能在2020年继续下去。美国最高法院对堪萨斯诉加西亚案的裁决可能会对企业构成更大的移民执法威胁。如果法院的裁决对堪萨斯州有利，那么“当地的市、县检察官就可以对雇主和雇主进行起诉”，理由是“雇佣那些没有工作授权的移民”。

移民申请费用或将继续增加

2019年美国政府公布了一项移民新提案，以提高赴美移民的申请费，并首次对寻求避难者收取费用，旨在限制他们获得美国庇护及移民福利。如果此项法案通过，移民申请费用将增加。

这项提案将对庇护申请者收取50美元的申请费，对所有寻求庇护者收取490美元的工作许可费。申请美国公民身份者的申请费也从750美元，增加到1170美元，针对某些特殊移民的费用可能更高。

2016年到2018年中国赴美移民减少逾20%

据美国侨报网报道，美国国土安全部DHS的新数据显示，在2016财年至2018财年之间，每年美国新增合法移民数量从118万下降至109万人。来自中国的移民人数从2016财年的81772人减少到2018财年的65214人。

福布斯13日报道，“在排除难民后，2018财年成为永久居民的合法移民数量比2016财年下降了122412人，下降幅度达到11.5%。”美国国家政策基金会NFAP的分析显示。而特朗普政府一些当下遭到联邦法院阻止的政策，可能会导致更多的合法移民减少。

归因于直系亲属类别的移民数量减少

NFAP的分析指出，大部分下降可以归因于美国公民直系亲属类别的移民数量减少，该类别包括了美国人的配偶、子女和父母。

总体而言，美国公民的直系亲属成为永居移民的数量，从2016财年的566706人下降至2018财年的478961人，减少了87745人，或15.5%。其中，美国公民的配偶减少36209人(下降了11.9%)，子女减少了21700人(下降了24.5%)，父母减少了29836人(下降了17.2%)。

按国家来看，墨西哥、中国、越南和韩国是人数减少最明显的国家。来自墨西哥的移民从2016财年的174534人下降到2018财年的161858人，下降了7.3%。来自中国的移民人数从2016财年的81772人减少到2018财年的65214人，减少了20%以上。

这些国家/地区的人数下降大部分可以归因于美国公民直系亲属类别成为永居人数的下降。“在2016财年至2018财年之间，从墨西哥获得绿卡的美国公民的直系亲属人数减少了14002人(11.7%)，中国的减少了7636人，或24.1%。”NFAP表示，其他国家在这一类别上，多米尼加共和国下滑17%，菲律宾下滑24.1%，印度减少14.8%，韩国下降17.3%。越南下降了12.7%。

合法永久居民的配偶、子女和未婚子女方面，新增永居人口从2016财年的121267人下降至2018财年的

109841人，减少11426人或9.4%。

多项行政政策延误绿卡申请

这些直系亲属获得绿卡人数下降，可能是处理延迟，以及阻止获得永久居留权的政策变更所导致的。

包括要求对以就业为基础的移民进行面试的多项行政政策，都导致了绿卡申请的延误，而2017年3月6日总统发布的“加紧检查和审查”的命令可能同时导致了申请延误以及签证被拒。

基于221(g)理由(申请不符合‘移民和国籍法’或相应颁布的法规)而遭确定的移民申请不符合资格的数量，从2017财年的254478人增加为2018财年的341128人，增加86650人或34%。

Berry Appleman & Leiden律所的高级顾问，也是前国务院签证办公室法律咨询意见部门主管的杰弗里·高斯基(Jeffrey Gorsky)表示，221(g)通常会导致领事官员寻求更多材料，或让申请进入“行政处理”时所使用的，大多数此类案件最终会通过。然后，增加的数量太过巨大，大多数案件的结果不得而知，尤其是在白宫加紧审核的指示下。

高斯基说，“行政处理”可能包括安全许可在内的多种情况，许多案件不会在同一财年内被批准或结案，或者有一些永远不会被批准。

未来每年或减少数十万合法移民

特朗普政府的另外两项行政政策可能还会导致每年数十万的合法移民减少，包括总统2019年10月4日宣布，按照《移民与国籍法》第212(f)条，禁止新移民在没有医疗保险的情况下进入美国。此外，政府还发布了关于基于公共负担理由的不予受理的规则，该规则可能导致成千上万的领事官员或裁定人员阻止那些被预测会在未来12个月内使用某些公共福利的移民。

联邦法官已经搁置了这两项法规。如果其中任何一个规定生效，就可能导致进入美国合法移民数量明显的和潜在永久性减少。

2019年美国这些移民政策改变着华人的生活

据美国中文网报道，过去的2019年许多移民政策都在深刻地影响着在美华人，从绿卡限制法到EB5改革，学生签证、工作签证、特殊人才绿卡等审批申请都在发生着变化，下面特别总结了2019年美国移民方面的十大关键性政策。

1.S386/HR1044法案绿卡限制法

S386由美国参议员Mike Lee在2019年2月7日提出的一项法案，该法案的众议院版本叫HR1044(2019年高技术移民公平法案)。S386法案旨在取消职业移民和投资类移民绿卡申请配额。内容包括：

- 职业移民取消取消国家配额，每个移民获得绿卡的先后是根据申请日期，而不是国籍。
- 而新提案则取消目前7%国家限额，有三年过渡期。
- 家属移民，每个国家的签证配额上限，从原来的7%增加到15%
- 废除中国职业移民每年减少1000个配额的规定

12月17日公布的最新S386修正案增加了内容：

- 预留5.75%的绿卡名额给除了印度和中国以外的国家申请人使用，但是9年以后会过期
- 为等候绿卡排期的申请人提供临时身份

该法案涉及到中国和印度两个人口大国的申请人未来十年的绿卡排期，进而受到华人群体广泛关注。

2.EB5投资移民涨价

美国移民局(USCIS)7月23日宣布将对EB-5投资移民作出重大改革。最低投资额度将由此前的100万美元上调到180万美元，区域中心的投资额度则将从50万美元涨到90万美元。新规定已于2019年11月21日生效。除上述投资金额外，其他的变化包括：

- 区域中心(TEA, Targeted Employment Area)的划分和决定权将由国土安全部直接负责，各州不再有决定权。
- 明确移民局对有条件绿卡转为永久绿卡的处理步骤，并将对绿卡面试的地点提供更多选择。
- 多次EB-5申请的投资者享有材料被优先处理的资格。

美国移民局表示，这是EB-5项目自1993年以来首次重大调整。上调投资金额是基于EB-5项目推行30年来的通货膨胀

导致的。此外，国土安全部直接决定区域中心的划分也将有利于部分偏远和落后地区能得到切实的就业机会。但是EB5投资移民对中国大陆出生的申请人而言，最大的障碍还是超过十年以上的绿卡排期问题。

3.F1学生签证收紧

过去12个月以来，中国留学生办美国签证拒签率持续上升，达到了10年的最高值。

科技专业博士及研究生签证遇到更多的挑战，短期游学团B1/B2签证也大幅收紧。持H1B工作签证者回国续签的人，有的审查长达3个月甚至更久。

美国移民局甚至开设假大学钓鱼执法，数百个外国学生违反移民规定面临驱逐出境。2019年感恩节前后，美国海关和移民执法局(ICE)查办了一所假大学法明顿大学University of Farmington，逮捕了数名招生人员，另有数百名学生被驱逐出境。

这所大学的创建者不是别人，就是美国移民局！移民局官员用学生签证的名义吸引招生人员和外国留学生，再和国土安全局联手将涉案人员查办。从2015年成立到2019年实施抓捕，此次“钓鱼执法”长达4年之久。有近80%的被捕者选择自愿离开美国；另外10%的学生收到了“最终的驱逐令”，还有10%的学生提出质疑，申请法院诉讼。

4.EB1审批变化改革

EB-1A杰出人才移民审查变得越来越严格，其标准的提高也引起了各界的关注。

审批过程中，有了以下几个变化：

- 更加关注来美是否在本领域工作，要求提供更具体、清晰的证据。
- 增加证明申请人入境后将使美国未来受益的要求
- 意图拒绝通知增加(NOID)

5.H1B电子抽签

2019年1月31日美国国土安全部发不了新的H1B申请案，但出于种种原因被推迟了，但预计2020年将会首次引入电子注册系统。

规则上最大的改变是在申请流程上。过去是抽签前将材料邮寄给移民局，从2020年开始H1B申请人及其雇主需要在抽签前到指定网站进行注册，随后移民局将会在所有注册记录中进行抽签，只有中签的申请人需要提交材料。

如果申请者委托律师填写电子注册表

，律师还需要在网上注册一个用于追踪申请人流程的账户，该账户包含雇主和申请人的基本信息。

6.移民申请费大幅涨价

2019年底开始，公民申请费用提高83%，从640美元涨至1170美元；绿卡的申请费上涨79%，从1220美元涨至2195美元。

7.海关严查社交媒体

特朗普政府公开讨论对进入美国的外国人，采取更严格的审查，包括要求在社交网站上的密码，比如微信记录等等。

8.移民强制医疗保险

特朗普政府2019年10月4日宣布，从11月3日凌晨起，所有移民签证申请者必须证明自己在赴美30天之内会获得医保，或者有足够财力可以支付医疗账单。否则可能被拒签，或者被拒入境。

9.公共负担新规

2019年10月15日起，该新规明确规定了有长久由来的基于“公共负担”理由而有可能被拒绝发放绿卡的法律规定。新规给了移民局权利，通过考虑一些因素，来认定外国人是否有可能在未来任何一个时间成为公共负担。如果移民局认定该外国人可能未来成为公共负担，那么将会拒绝其绿卡申请，延期或者调整身份。如果一个外国人，在36个月内期间，他收取了一种或者多种特定的福利，比如粮食券、医疗补助、住房补助券等，共超过12个月的话，将会被认定为公共负担那么他绿卡申请很大可能会被拒。

此政策仅适用于持移民类签证的民众，包括美国公民的外籍配偶(或订婚者)、美国公民为亲属申请移民、绿卡持有者为亲属申请移民、杰出人才和专业类人才移民签证等，不包括美国公民的外籍孩子、特殊移民签证单持有人(SI和SQ签证)、IR-5签证持有者、SB-1持有者、18以下的儿童、为了国家利益而由国务卿指或派人邀请的外国人。

10. 最高法院审理DACA(梦想生)案

特朗普政府为结束奥巴马时代，而发起的针对幼年非法入境移民的DACA(梦想生计划)的长期官司，将于2020进入最后对决。

目前有70-80万名梦想生可能受到影响，他们能否合法留在美国，掌握在9名美国最高法院大法官的手中。此案是特朗普上任以来最有争议性的移民话题之一。

四川青城山古建筑群

道教名山，有天下幽之美誉

“问道青城山，拜水都江堰”，四川都江堰因这两处吸引了无数人来寻山访水，求仁启智。

世界文化遗产青城山位于都江堰市西南，是中国著名的道教名山，有天下幽之美誉，是我国道教发源地之一。相传东汉张道陵（后称张天师）曾在此修炼，道教称此山为“第五洞天”。全山树木葱茏，青翠满目，鸣泉飞瀑，清冷怡人。山中有8大洞、72小洞，道家宫观，遍布其间，由下而上，建福宫、天师洞、祖师殿、上清宫等。2013年3月，国务院公布青城山古建筑群为全国第七批重点文物保护单位。

而都江堰是著名的古代水利工程，位于四川省成都平原西部的岷江上，在都江堰建成以前，岷江江水常泛滥成灾。公元前256年，秦国蜀郡太守李冰和他的儿子，吸取前人的治水经验，率领当地人民兴建水利工程。都江堰建成后，成都平原沃野千里，成为“天府之国”，这项工程直到今天还在发挥着作用，被称为“活的水利博物馆”。

青城山古建筑群依山乘势，不拘不羁；亭台轩榭、石桥古道多就地取材不加雕琢，与山水完美融合。随处可见的楹联匾额、书画题词和诗文碑刻，以及优美的神话传说，更是点景抒情，为这座名山增添了浓郁的诗情画意。这里的很多雕刻也都不拘一格，别有生气，令人眼前一亮。

诗圣杜甫来到青城山就写下了“自为青城客，不唾青城地。为爱丈人山，丹梯近幽意”的佳句。这一抹千年才思积淀下的人文气息，正是青城山最美的色彩。

天师洞（常道观）

天师洞始建于隋大业年间（605年-618年），名延庆观；唐代改常道观，宋称昭庆观，清代始用今名。因传说东汉张陵在观后的洞窟结茅传道，故俗称天师洞。现存建筑主要系清光绪及民国年间重建，占地面积8132.5平方米，建筑面积5749平方米。天师洞背靠一面绝壁，其它三面均为深壑，建筑群坐西向东，不强调中轴线，依地势和使用功能在总体上分为四个区域，在纵向和横向布置成十多个大小不等、形状各异、气氛有别的院落，由曲折环绕的石道连接成一座完整的古建筑群。

三清大殿供奉三清神像，殿后石壁刻有青城山108景图。再后为供奉轩辕黄帝的黄帝祠，祠右三皇殿，有背刻“唐开元十一年”铭文的伏羲、神农、轩辕石像各一尊，神座前有开元十二年（724年）唐玄宗解决青城山佛道争端的敕诏石碑《大唐开元神武皇帝书碑》。黄帝祠后为倚崖而建，别具一格的天师殿。

天师洞景色、建筑、文物为全山之冠，历代名人书画、碑刻、匾联数以百计，四面古木参天，掩映着降魔石、六时泉、洗心池、掷笔槽、上天梯、听寒亭等古迹，多条山路在此汇合。天师洞古建筑群的结构形制神殿为混合式木梁架（主殿为木石混用）、歇山顶，厢房及其它功能建筑为穿斗式木梁架、悬山顶，均为小青瓦屋。建筑材料采用本地常见的木、石、砖瓦等。

朝阳洞

朝阳洞位于青城山朝阳顶东南绝壁下，洞穴有二，分别为大、小朝阳洞，两洞间相距5米，均面向东南。朝阳洞宽32.15米，高4.36米，深24.2米；小朝阳洞宽11.0米，高3.2米，深5.3米。清光绪年间黄云鹤在此结茅居住，题诗和纪事于小朝阳洞石壁，现代画家徐悲鸿

亦题有一联。洞口接搭木结构树皮屋面建筑，顺绝壁横向展开，朴素无华、十分自然，占地面积约500平方米，建筑面积130平方米。

上清宫

上清宫是青城山海拔最高的一座古建筑群，始建于晋，五代王衍重建，现存建筑是清同治八年（1869年）再建。建筑群坐西向东，顺等高线横向展开，形成三区六个院落，占地面积6645.6平方米，建筑面积4202平方米。中心区沿轴线依次为山门，右茶楼，左斋楼，三官楼，南、北楼，三皇殿。

山门为石券拱城楼式、重檐歇山顶，石作素面台基、25阶垂带踏道；南区有道德经殿，木板壁刻《道德经》五千言；殿前有二井，名“鸳鸯井”；北区有文武殿（剑仙楼），供奉孔子、关羽，两旁有大千等绘王母、麻姑、三丰祖师、花蕊夫人画碑和黄云鹤诗碑；文武殿下侧一池，半月形，池深数尺，名天池，传为麻姑浴丹处，故又名麻姑池。

上清宫至第一峰路侧有玉皇坪，坪内有前蜀王衍行宫遗址，础石犹存；左侧岩上有清黄云鹤题字“天下第五名山”，字高2米，笔力苍劲；宫前有复仇谷、旗杆石、碓窝坪、跑马坪等明末张献忠农民起义军遗迹；周围还有观日亭、呼应亭、圣灯亭，是看日出、观云海、夜赏神灯的佳处。

真武宫（祖师殿）

祖师殿创建于唐，名清都观、洞天观，清乾隆十七年重建，改称真武宫，现存建筑为清光绪年间（1875年-1908年）所建，因又供奉三丰祖师，俗名祖师殿。庙宇背倚轩辕峰，面对白云溪，地板清幽；传说唐玉真公主曾在此修道；唐人杜光庭、薛昌，宋人张愈曾在此隐居。

建筑群占地1840平方米，建筑面积303平方米，坐西向东，四合院布局，沿轴线依次为山门、三官殿及左右厢房，建筑形式为穿斗式木梁架、悬山顶。三官殿面阔三间12.6米，进深三间7.7米，高6.49米。建筑群右边跨出台地部分，采用了一列吊脚楼支承。殿侧有亭，名“闻胜”，1945年8月，寓居于此的爱国将领冯玉祥闻日寇投降，喜不自胜，捐资建亭，并题名立碑。建筑群内还有云松塔、薛昌浴丹池、杜光庭读书台等古迹，存有清乾隆十七年及同治年间匾额各1道，清龙蛇诗碑1方。

圆明宫

圆明宫始建不详，重建于明万历年间（1573年-1620年），称清虚观，清道光二十六年（1846年）重建，改称圆明宫。占地面积3971.5平方米，建筑面积1800.3平方米，建筑形式为穿斗式木梁架、歇山顶。建筑群依山势和使用功能从纵横两个方向展开，分为三个区85间房舍。

中央一组是殿堂区，依次为灵官殿、斗姆殿、三官殿及左右厢房；左边一组是大片客房及后勤用房；右边一组是贵宾用房。入口顺应地形与山道位置，偏于左前部，构思奇巧，协调自然。宫内古木成林，浓荫蔽日，庭院内遍植四季花卉，更显清静幽雅，山间小道从宫北面由东而西穿过。主殿三官殿，明间

抬梁式木构架，次间及稍间穿斗式木梁架，悬山顶，小青瓦屋面，前后均有副阶；面阔五间22.6米，进深三间11米，通高9.45米；因其常年难有灰尘，故又被称为“无尘殿”。斗姆殿，明间抬梁式木构架，次间及稍间穿斗式木梁架，悬山顶，小青瓦屋面，前后均有副阶；面阔三间13.22米，进深五间10.97米，高8.54（柱高4.52）米，台基高0.97米。玉清宫

玉清宫古名天真观，早废，1938年成都两仪慈善会重建，改称玉清宫。建筑群坐西向东，占地1020平方米，建筑面积697平方米，建筑结构为穿斗式木构架，歇山顶，是川西地区典型近代建筑之一。殿宇两重，依次为灵祖殿、纯阳殿。纯阳殿两旁各有一小天井，与大院只一门之隔，殿内祀吕纯阳、丘长春；下为灵祖殿，建筑在一个3米高的台阶上，面阔三间13.86米，进深四间9.76米，通高6.84（柱高3.9）米。

正面敞开，两侧厢房与殿宇连接，构成一个浅的三合院，厢房山墙加设一段短廊，此三者均可俯瞰山下平川，形成一组观光平台，短廊屋两端为45°锐角披檐，形象生动。宫内有清代及民国石刻十余方。宫左侧有天然莲蕊石，

形如莲花；宫后一泉，泉水清澈，四时不竭；宫后有小道，西行里许可达丈人峰，登峰眺望，后面青城诸峰，前面千里平川，尽收眼底。

“天然图画”枋坐西北向东南，横跨游山道，占地面积110平方米，建筑面积65.8平方米。枋为穿斗式木梁架，重檐歇山顶，面阔三间8.35米，进深一间2.8米，通高6.35米。枋前左有厢房，右是长亭式建筑“驻鹤庄”，抬梁式木梁架，悬山顶，面阔三间6.95米，进深一间3.42米，高4.3米。

五洞天及接仙桥

五洞天为砖砌筑三重檐牌坊式建筑，也可算天师洞的第一道门。上依岩岭，下临深谷，四周古木参天。接仙桥，始建不详，清代重建。桥为条石砌筑单拱桥，宽3.5米，长14.1米，跨长5.25米，高4.7米，面积49.35平方米；两侧桥栏高0.8米，内嵌石刻浮雕图案各9幅；两端分置垂带踏道，前12级、后13阶。

凝翠桥

凝翠桥位于建福宫至天师洞之间的游山石道上，是我市典型的古桥之一。桥北依岩壁，下临深壑，四周古木参天，林荫蔽日。始建不详，清光绪二十六

年重建。桥西北-东南走向，为木结构单墩、廊式桥，长9.3米，宽2.4米，面积22.32平方米；木质桥板，距沟底3.55米；桥廊为茅亭类建筑，抬梁式木梁架，歇山顶，树皮屋面，高4.21米；两侧置飞来椅作桥栏，靠高1米。

山荫亭

山荫亭位于青城山景区天然图画至天师洞之间，西距天师洞1.2千米，东离“天然图画”100米，是青城山最具代表性的“茅亭”建筑之一。建于民国二十九年（1940年），占地面积42平方米，亭边长2.05米，对角线5.36米，建筑面积26.8平方米。抬梁式木梁架、八角重檐攒尖顶，树皮屋面。

青城山古建筑兼有宗教性建筑、纪念性建筑和游览性建筑的特点，是风景、建筑和文物古迹的综合统一体，是我国建筑艺术宝库重要的一部分。

古建家园-古建中国以线上+线下模式，建筑+互联网+文化，传承与发扬建筑文化，把传统优良文化植入到建筑材料中，让建筑从源头上有文化，将中华上下五千年文化的精髓与现代科学技术古今结合、中西融合，应用于现代建筑行业，倡导将优良的传统文化走入大众的衣食住行。
