UK to refine allergy warning on Pfizer vaccine sparked by two adverse reactions

George Dyer, 90, receives the first Pfizer/BioNTech COVID-19 vaccine, administered by General manager of Covid Recovery Becky Board, at Croydon's University Hospital, on the first day of the largest immunisation programme

LONDON (Reuters) - Britain's medicine regulator warned people with significant allergies not to get Pfizer-BioNTech's COVID-19 vaccine after two people suffered adverse reactions, but was set to give more detailed guidance on Wednesday based on reviews of those cases.

George Dyer, 90, receives the first Pfizer/BioNTech COVID-19 vaccine, administered by General manager of Covid Recovery Becky Board, at Croydon's University Hospital, on the first day of the largest immunisation programme in the British history, in London, Britain December 8, 2020. Dan Charity/Pool via REUTERS Starting with the elderly and frontline workers, Britain began mass vaccinating its population on Tuesday, part of a global drive that poses one of the biggest logistical challenges in peacetime history.

National Health Service medical director Stephen Powis said the advice had been changed as a precaution after two NHS workers reported anaphylactoid reactions from the vaccine.

"Two people with a history of significant allergic reactions responded

adversely yesterday," Powis said. "Both are recovering well."

The Medicines and Healthcare Products Regulatory Agency (MHRA) initially advised anyone with "a history of a significant allergic reaction to a vaccine, medicine or food" to avoid taking the vaccine.

However, by the end of Wednesday that guidance was set to be refined after discussions with experts on the nature of the reactions.

"We're tweaking advice to make it very clear that if you've got a food allergy, you're not more at risk," Imperial College London's Paul Turner, an expert in allergy and immunology who has been advising the MHRA on their revised guidance, told Reuters.

Pfizer and BioNTech said they were supporting the MHRA's investigation.

Last week Britain's MHRA became the first in the world to approve the vaccine, developed by Germany's BioNTech and Pfizer, while the U.S. Food and Drug Administration (FDA) and European Medicines Agency (EMA) continue to assess the data.

A top U.S. official said on Wednesday that Americans with known severe allergic reactions may not be candidates for Pfizer's COVID-19 vaccine until more was understood about what had happened.

Canada's health ministry said it would look at the reported adverse reactions in Britain, but said adverse events were to be expected and would not necessarily change the risk/benefit of the shot, after the country approved the vaccine.

RELATED COVERAGE

UK medicine regulator examining Pfizer vaccine reactions as matter of priority ALLERGIC REACTION
 MHRA Chief Executive June Raine told lawmakers such allergic reactions had not been a feature of the Pfizer's clinical trials.

Pfizer has said people with a history of severe adverse allergic reactions to vaccines or the candidate's ingredients were excluded from their late stage trials, which is reflected in the MHRA's emergency approval protocol.

However, the allergic reactions may have been caused by a component of Pfizer's vaccine called polyethylene glycol, or PEG, which helps stabilise the shot and is not in other types of vaccines.

Imperial College London's Turner said: "As we've had more information through, the initial concern that maybe it affects everyone with allergies is not true.

"The ingredients like PEG which we think might be responsible for the reactions are not related to things which can cause food allergy. Likewise, people with a known allergy to just one medicine should not be at risk," Turner told Reuters.

The EMA said in an email that all quality, safety and efficacy data would be taken into account in assessing the vaccine, including data generated outside the EU.

In the United States, the FDA released documents on Tuesday in preparation for an advisory committee meeting on Thursday, saying the Pfizer vaccine's efficacy and safety data met its expectations for authorization.

The briefing documents said 0.63% of

people in the vaccine group and 0.51% in the placebo group reported possible allergic reactions in trials, which Peter Openshaw, professor of experimental medicine at Imperial College London, said was a very small number.

"The fact that we know so soon about these two allergic reactions and that the regulator has acted on this to issue precautionary advice shows that this monitoring system is working well," he said.

However, Gregory Poland, a virologist and vaccine researcher with the Mayo Clinic in Rochester, Minnesota, said that the MHRA and NHS had overreacted initially.

"I would not have broadened to the degree they did," he said.

"It's reasonable to let the world know about this, and to be aware of it in terms of people who have had reactions like this to vaccines. I think to say medicines, foods or any other allergies is past the boundary of science."

ADVERTISEMENT FOR BIDS DOWNTOWN REDEVELOPMENT AUTHORITY / TIRZ No. 3 SOUTHERN DOWNTOWN PARK

The Downtown Redevelopment Authority (the "Authority") / TIRZ No. 3 will receive sealed bids for the Southern Downtown Park project, located in Downtown Houston, 1515 Fannin Street bounded by Bell, Fannin, Leeland, and San Jacinto Streets. Hardcopy bids will be received until 11:00 AM, local time on Friday, January 15, 2021 by the Executive Director, Downtown Redevelopment Authority. Hardcopy bids received after this time will not be accepted. Hardcopy bids are to be delivered to 1313 Main Street, Houston, Texas, 77002.

Beginning 11:00 AM, Monday, December 14, 2020, Bidding Documents will be available at www.civcastusa.com. Any Addenda will be distributed through www.civcastusa.com. Bidding Documents may also be viewed online at isqft.com.

An ONLINE MANDATORY Pre-bid Conference will be held at 2:00 PM on Wednesday, December 16, 2020. All bidders (general contractors, sub-contractors and suppliers) are invited to attend.

Due to COVID-19 and the Authority's work safe protocol, all potential bidders who intend to participate in the pre-bid conference and submit bids are required to register their intention by 2:00 p.m. on Tuesday, December 15, 2020 by email to Lonnie Hoogeboom, Director of Planning & Design at lonnie@downtowntirz.com. Potential bidders are to provide Company Name, Address, and Phone plus (two maximum) Representative Names & Titles, Representative Emails, and Cell Phones. All bidders who register in advance of the pre-bid conference will receive a calendar invitation providing access to the online meeting venue. Bids will be ruled non-responsive if received from an individual who did not attend the pre-bid conference.

Bidders shall comply with City of Houston Code of Ordinances, Chapter 15, Articles II, V, VI, and XI and the Mayor's Executive Orders No. 17 Pay or Play (POP) Program for Houston Public Works for the public procurement procedures of the City of Houston Office for Business Opportunity (OBO) established in March 2008 and the entity responsible for the administration of the Small/ Minority/ Women-Owned (S/M/WBE), Persons with Disabilities Enterprises (PDBE), and Hire Houston First programs. The successful Bidder will be required to make good faith efforts to achieve an S/M/W/DBE participation goal of 20 percent.

Beginning December 3, 2020, the Authority's procurement for the general contract for this capital improvement project is advertised in the Houston Business Journal, the Houston Defender, the Southern Chinese Daily News, and the Greater Houston Business Procurement Forum.

WEA LEE'S GLOBAL NOTES

CORONAVIRUS DIARY

Wealee@scdaily.com

Dr. Fauci's Advice

Dr. Anthony Fauci finally spoke with President-elect Joe Biden. He is advising Biden that we need to have a uniform message that comes from the top right down to each and every one of the people involved, from the health officials, the physicians, the scientists, to the public health officials.

"We've all got to be on the same page and tell the American public that we've all got to pull together."

President-elect Biden has formally

introduced key members of his health team tasked with fighting COVID-19.

For his first 100 days in office, Biden outlined his three main goals: universal mask wearing, vaccinations and reopening of the schools. He also committed that his team will help get at least 100 million COVID-19 vaccine shots into the arms of the American people in the first 100 days.

Until today, President Trump and his allies have sent one fundamental

message: millions of votes cast by their fellow Americans are worthless."

want to live a peaceful life. All of the political disputes don't really help our nation.

For all of us as ordinary citizens, we only

The COVID-19 Vaccine Is On The Way! Important COVID-19 Vaccine Questions Answered Here

COVID-19 vaccines could arrive by the end of 2020.

KEY POINTS

When will a COVID-19 vaccine be ready and when will it be available for you? Will it be completely free? What happens after you're vaccinated? Here are the top things you need to know.

Compiled And Edited By John T. Robbins, Southern Daily Editor

The US is preparing for tens of millions of COVID-19 vaccine doses to arrive by the end of 2020, and you have questions. How many vaccinations will there be and how will it be administered? Is it completely free or will you have to pay? How long will you personally have to wait to receive it, and can you choose which brand of vaccine you get?

How many coronavirus vaccines will there be? Dozens of vaccine candidates are in development around the world, but two of them, Pfizer and Moderna, claim to be 95% and 94% effective, respectively, against the coronavirus. Both have sought emergency approval from the Food and Drug Administration to get vaccines rolling out as early as the end of December.

Pfizer and Moderna both use a type of vaccine technology that focuses on the mRNA of the SARS-CoV-2 virus (that's the coronavirus' official name). Expect other types of vaccines to emerge, like from Novavax and AstraZeneca in partnership with Oxford University. Dozens more are in development besides, and different countries may use different vaccine formulations from different makers.

How many doses of the vaccine will be available right away? Pfizer and Moderna are ramping up production,

but we do know that initially there will be up to 50 million vaccine doses in 2020 from Pfizer and 20 million doses from Moderna. In 2021, we can expect to see 1.3 billion from Pfizer and anywhere from 500 million to 1 billion doses from Moderna. After the initial vaccine, a second dose will be required after a set period of weeks (depending on which vaccine you get, it could be three or four weeks). This is required for both Pfizer and Moderna vaccines. As a result, 20 million doses, for example, can vaccinate 10 million people. The US has a population of roughly 330 million.

Is the COVID-19 vaccine a shot or something else? The current immunization works as a series of two injections administered a number of weeks apart for the full inoculation to take place. There may in the future be another way to get vaccinated, such as an infusion, in which the vaccine is delivered intravenously, or an adhesive patch that you affix to your skin for a period of time. You'll need to get two coronavirus vaccine doses, about 3 weeks apart.

When will I be able to get the vaccine? Is there an

order to who receives it first? Yes. Since the doses are so limited, states will prioritize which groups of people will be first in line to get the COVID-19 immunization. An advisory group to the Centers for Disease Control and Prevention has made a recommendation, which the CDC could adopt. But each state will have the final word. Every major global and domestic recommendation so far puts health care workers at the top of that list, with the general population last in line. Depending on who you are, you may have to wait until spring or summer, when there are enough vaccines to go around, in order to be immunized. Here's a more complete list of who will likely receive the COVID-19 vaccine first (and last).

How will I know when I can get vaccinated? What do I do while I wait for a vaccine to arrive? Your state and local health provider will start to communicate who can get immunized against COVID-19 first and how to do it. We'll keep an eye out for more details and will update this section when we know more. In the meantime, health experts stress that you should continue to wear a face mask, socially distance from people outside your household and wash your hands to slow the spread of disease. The US is currently over 14 million reported cases, with more than 276,000 known deaths, as infections continue to surge alongside record-breaking hospitalizations.

Can I choose which coronavirus vaccine I get? It's

uncertain if you'll have your choice of which vaccine brand or type you'll get. This may depend on how many doses of the vaccine are available in your area and where in line you are to receive it. It also depends on if you live near a medical center with "medical-grade ultracold freezers," USA Today reports, as the Pfizer vaccine must be kept in cold, dry ice temperatures. The Moderna vaccine, on the other hand, can be stored at temperatures between 36 to 46 degrees Fahrenheit for up to 30 days, making it much more easily accessible. Note that once you get the first vaccine shot, you'll have to stick with that brand for the second shot. Everyone in the US could be vaccinated by June.

COVID-19 vaccines could arrive by the end of 2020. (Illustration Sarah Tew/CNET)

When will the vaccine be available for everyone? Everyone in the US could be vaccinated against COVID-19 by June, according to Moncef Slaoui, the top science advisor for the federal government's Operation Warp Speed. Dr. Anthony Fauci, the top US infectious disease expert, expects anyone to have access to the vaccine between April and June of 2021. When you get the coronavirus vaccine, however, will depend on which group you fall in. You could get it in January if you're a health care worker, or you may have to wait until June if you're a younger adult with no preexisting conditions.

How much will the coronavirus vaccine cost me? Regardless if you have health insurance or not, the COVID-19 vaccine will be free for all Americans, according to the Centers for Medicare and Medicaid Services. The government organization also said it plans to make sure you can reimburse any FDA-approved coronavirus treatments you're charged for. But just because the vaccine itself is free doesn't mean you won't get a bill. Many providers can legally charge an administration fee for giving the shot to patients, according to the CDC. You can file a claim with your insurance company, however, since they're required to cover approved preventive care under the Affordable Care Act. The Vaccine for COVID-19 may be free, but you could still see a bill. The COVID-19 vaccine itself will be free to all Americans, as noted by the CMS. The government organization also said it plans to make sure you can reimburse any FDA-approved coronavirus treatments you're charged for. However, providers will be able to bill you an administrative fee for giving the shot to patients, according to the Centers for Disease Control and Prevention.

Where can I get the vaccine once it's here? Does it have to be at a hospital? Much like the flu vaccine, you'll likely be able to get the coronavirus vaccine at pharmacy stores, clinics, hospitals, doctors' offices and health departments. A Walgreen's representative told CNET its pharmacies would be distributing COVID-19 vaccines to customers, but didn't say when. It's also likely that schools and community centers will serve as vaccination sites in the beginning, in order to accommodate more people, according to the Kaiser Family Foundation. The organization also says the states will need to approve "hundreds to thousands of partners and site locations for vaccine delivery."

What happens after I get the COVID-19 vaccine? Can I go wherever I want? Once you get the first coronavirus vaccine, you'll receive a vaccination

card that details which shot you received and when you need to go back for the second. After you receive both doses of the COVID-19 vaccine, the CDC recommends that you continue practicing social distancing and wearing a mask when you're out in public. The CDC says it's important to do so while "experts learn more about the protection that COVID-19 vaccines provide under real-life conditions." Even though scientific evidence so far shows reinfection is uncommon, there's still much we don't know about the new virus. That's why it's important to follow the CDC's guidelines for protecting yourself and others from the coronavirus, whether you've had the vaccine or not. For more coronavirus vaccine information, here's everything to know about the coronavirus vaccines rolling out this year and the CDC's priority list for who will get the vaccine first. For the most up-to-date news and information about the coronavirus pandemic, visit the WHO website.

How long will the vaccine protect me from COVID-19? Natural immunity to COVID-19, meaning the protection an individual gains from already having been infected, varies from person to person and evidence shows that it may not last very long. Concerning vaccination, the CDC website clearly states in its COVID-19 information page that: "Regarding vaccination, we won't know how long immunity lasts until we have a vaccine and more data on how well it works."

While knowledge about vaccine induced immunity is still not complete, scientists and researchers are hard at work to fill in the gaps about the vaccine's duration and effectiveness. In response to being asked how long the COVID-19 vaccine would last, Carl Zimmer at the New York Times reply that, "We don't know. Both Moderna and Pfizer started their trials on July 27, so they have been able to follow their volunteers for only a few months so far. It's conceivable that the vaccines provide long-lasting protection, or maybe even fade away in under a year and require a booster." Even if you get the vaccine, you should still continue to wear a mask, per CDC guidelines. (Courtesy cnet.com)

“The World’s Greatest Pilot”

Pilot Chuck Yeager Dead At 97— He Had ‘The Right Stuff’ And More

Chuck Yeager, standing next to the “Glamorous Glennis,” the Bell X-1 experimental plane with which he first broke the sound barrier. (Photo/AP)

Compiled And Edited By John T. Robbins, Southern Daily Editor

One of the world’s most famous aviators has died: Chuck Yeager — best known as the first to break the sound barrier — died at the age of 97.

A message posted to his Twitter account says, “Fr @VictoriaYeage11 It is w/ profound sorrow, I must tell you that my life love General Chuck Yeager passed just before 9pm ET. An incredible life well lived, America’s greatest Pilot, & a legacy of strength, adventure, & patriotism will be remembered forever.”

Yeager started from humble beginnings in Myra, W.Va., and many people didn’t really learn about him until decades after he broke the sound barrier — all because of a book and popular 1983 movie called *The Right Stuff*.

He accomplished the feat in a Bell X-1, a wild, high-flying rocket-propelled orange airplane that he nicknamed “Glamorous Glennis,” after his first wife who died in 1990. It was a dangerous quest — one that had killed other pilots in other planes. And the X-1 buffeted like a bucking horse as it approached the speed of sound — Mach 1 — about 700 miles per hour at altitude. But Yeager was more than a pilot. In sever-

al test flights before breaking the sound barrier, he studied his machine, analyzing the way it handled as it went faster and faster. He even lobbied to change one of the plane’s control surfaces so that it could safely exceed Mach 1.

General Chuck Yeager, the first person to break the sound barrier, speaks to a crowd Dec. 16, 2003 during the weeklong First Flight Centennial Celebration that is taking place at the Wright Brothers National Memorial in Kill Devil Hills, North Carolina. (E. Ozier ELO/GAC/Files/Reuters) As popularized in *The Right Stuff*, Yeager broke the sound barrier on Oct. 14, 1947, at Edwards Air Force Base in California. But there were no news broadcasts that day, no newspaper headlines. The aviation feat was kept secret for months. In 2011, Yeager told NPR that

the lack of publicity never much mattered to him. “I was at the right place at the right time. And duty enters into it. It’s not, you know, you don’t do it for the — to get your damn picture on the front page of the newspaper. You do it because it’s duty. It’s your job.”

You don’t do it ... to get your damn picture on the front page of the newspaper. You do it because it’s duty. It’s your job.

— Chuck Yeager

Yeager never sought the spotlight and was always a bit gruff. After his famous flight in the X-1, he continued testing newer, faster and more dangerous aircraft. The X-1A came along six years later, and it flew at twice the speed of sound. On Dec. 12, 1953, Chuck Yeager set two more altitude and speed records in the X-1A: 74,700 feet and Mach 2.44.

It’s what happened moments later that cemented his legacy as a top test pilot. The X-1A began spinning viciously and spiraling to Earth, dropping 50,000 feet in about a minute. His flight helmet even cracked the canopy, and a scratchy archive recording from the day preserves Yeager’s voice as he wrestles back control of the aircraft: “Oh! Huh! I’m down to 25,000,” he says calmly — if a little breathlessly. “Over Tehachapi. I don’t know if I can get back to base or not.”

Yeager would get back to base. And in this 1985 NPR interview, he said it was really no big deal: “Well, sure, because I’d spun airplanes all my life and that’s exactly what I did. I recovered the X-1A from inverted spin into a normal spin, popped it out of that and came on back and landed. That’s what you’re taught to do.”

It’s more than that, though. Yeager was a rare aviator, someone who understood planes in ways that other pilots just don’t. He ended up flying more than 360 types of aircraft and retired from the Air Force as a brigadier general.

Yeager strikes a pose with Sam Shepard, who played him in the movie version of

The Right Stuff. (Warner Bros./Getty Images)

Bob van der Linden of the National Air and Space Museum in Washington says Yeager stood out. “He could give extremely detailed reports that the engineers found extremely useful. It’s not just flying the airplane, it’s interpreting how the airplane is flying and understanding that. And he understood that, just because he understood machines so well. And was just such a superb pilot.”

Yeager grew up in the mountains of West Virginia, an average student who never attended college. After high school, he enlisted in the Army Air Corps where he didn’t have the education credentials for flight training. But once the U.S. entered World War II a few months later, he got his chance.

Van der Linden says Yeager became a fighter ace, shooting down five enemy aircraft in a single mission and four others on a different day. Then he faced another challenge during a dogfight over France. “He got himself shot down and he escaped,” van der Linden says. “And very few people do that, and he managed not only to escape. He got back to England, and normally, they would ship people home after that. And he persuaded the authorities to let him fly again and he did which was highly unusual.”

In addition to his flying skills, Yeager also had “better than perfect” vision: 20/10. He reportedly could see enemy fighters from 50 miles away and ended up fighting in several wars.

Capt. Charles “Chuck” Yeager in 1947, the year he became “the

fastest man on Earth,” in his plane, *the Glamorous Glennis.* (Photo/Keystone/Getty Images)

Today, the plane Yeager first broke the sound barrier in, the X-1, hangs inside the air and space museum. Norm Healey was visiting from Canada and reading about Yeager’s accomplishments. “I loved airplanes as a kid. And Chuck Yeager was always sort of the cowboy of the airplane world. At least that was my perspective when I was young. As I’ve grown older and now have kids and a family and a wife, I appreciate it much more now, his courage.”

Yeager never considered himself to be courageous or a hero. He said he was just doing his job. A job that required more than skill. “All through my career, I credit luck a lot with survival because of the kind of work we were doing.”

Chuck Yeager spent the last years of his life doing what he truly loved: flying airplanes, speaking to aviation groups and fishing for golden trout in California’s Sierra Nevada mountains.

The world says goodbye to General Chuck Yeager, the first person to break the sound barrier.

“Gen. Yeager’s pioneering and innovative spirit advanced America’s abilities in the sky and set our nation’s dreams soaring into the jet age and the space age,” NASA Administrator Jim Bridenstine said in a statement late Monday. “Chuck’s bravery and accomplishments are a testament to the enduring strength that made him a true American original, and NASA’s Aeronautics work owes much to his brilliant contributions to aerospace science.” (Courtesy <https://www.npr.org/>)

遇纠纷如何找到好律师、哪些案子必告无疑? 如何与坏律师分手?

(本报记者黄梅子) 美南国际电视15.3《美南时事通》节目主持人盖军、记者肖永群日前邀请德州民事诉讼律师Tracy Lin壹起来谈谈遇纠纷如何找

到好律师、哪些案子必告无疑? 如何与坏律师分手?
盖军: 在美国生活, 有人说在美国壹定要两个朋友, 壹个是医生,

壹个是律师, 有了这两个朋友, 你心里就有底了, 干什么事儿都能预先有个人商量壹下, 咨询壹下, 少走弯路。尤其是移民美国的移民, 有很多事情不懂, 美国的法律又多如牛毛, 所以凡事请教律师非常重要。

Tracy Lin: 华人来到美国, 要找到壹个适合你的律师非常重要, 因为每个人的需求都不同, 美国诉讼文化流行, 华人千万不要忍气吞声成弱者。遇到法律问题的时候, 先去朋友圈里打听, 哪个律师比较靠谱, 相对于广告来说, 口碑比花钱打广告更靠谱。口碑, 口碑, 口碑!

盖军: 我有个朋友, 出了车祸, 他束手无策, 像这种情况应该怎么办?

Tracy Lin: 其实, 在律师界, 车祸这种案子是最基本的小案子, 基本上律师助理就可以办。你委托律师事务所

所办, 但实际上也是律师助理在办。但是, 选律师助理也不是那么简单的, 你打电话过去, 接电话的律师助理接你的电话, 与你对话, 其实大家心里就可以有个大概其的看法, 知道是不是要选择这家律师事务所。

盖军: 很多人不敢去打诉讼, 有壹个很大的原因是认为律师费很贵, 您可不可以透露壹下律师费的行情。

Tracy Lin: 不同的律师收费也不同, 不同类型的案子收费也不同, 不过壹般都是按小时来收费的。对于民众来说, 最好是找不胜诉不收费的律师, 当然这个也要看案子的具体情况, 没有人敢说这个案子最后会怎么样, 因为这个是要看法庭怎么判, 但是律师是可以寻找最有利于客户的方法去打官司。

肖永群: 华人的个性是比较会息事宁人, 不想惹事。那么, 您作为律

师, 建议华裔民众遇到什么样的案子壹定不能忍, 要去法庭打官司。

Tracy Lin: 其实, 两万块以下的诉讼金额都可以自己上小额法庭去办, 那里有表格自己填, 费用很少, 而且有时候还有义工律师免费帮忙。德州的小额法庭是很偏向于民众这壹边的, 偏向于弱势群体, 不会偏向于大公司, 华人民众学会自己处理这些小案子, 对自己来说既能省钱又能锻炼自己的自信, 是很好的体验。

《美南时事通》节目是美南国际电视的主打时事政论节目, 每天7PM首播。每周壹至周五6:30PM是美南新闻联播直播, 7PM就是《美南时事通》, 主持人盖军是美南新闻总编辑, 他与美南新闻记者肖永群壹起每天采访美国华人华侨界的风云人物, 畅谈政治, 针砭时弊。请每晚7点守住15.3频道, 收看《美南时事通》。

《婚禮跑到趴》

女主直呼：演完不想結婚！

365天，7場婚禮，1個真愛！《男女生沒了》導演全新愛情喜劇力作《婚禮跑到趴》(英文片名: The Wedding Year)攜手《時空永恆的愛戀》製作團隊打造年度壓軸爆笑浪漫喜劇，卡司陣容更找來《摩登家庭》莎拉海蘭、《底特律》泰勒詹姆斯威廉斯、《歌喉讚》安娜坎普、《鬼入鏡4》馬特夏夫利、《東區女巫》珍娜戴溫等多位實力派卡司領銜主演，大銀幕上演史上最荒唐的新世代速食戀情！《婚禮跑到趴》故事講述

27歲的攝影師瑪拉，在洛杉磯過著無憂無慮的生活，某天，她藉由交友軟體認識了身為廚師的傑克，相聊甚歡的兩人迅速墜入愛河，然而，甜蜜的戀愛氛圍卻被周遭親朋好友的「結婚潮」給打亂，隨著雪片般飛來的「紅色炸彈」不斷湧入，兩人決定攜手面對眼前的「婚禮大冒險」，在一年之內參加完7場婚禮，究竟瑪拉與傑克的關係會產生什麼樣的變化呢？《婚禮跑到趴》將於12月31日在台上映，中華電信MOD、Hami Video

影音平台也將於1月8號獨家與院線同步上架！在搞笑美劇《摩登家庭》當中飾演長相貌美卻腦袋空空的「海莉」走紅的莎拉海蘭，本次於《婚禮跑到趴》中飾演崇尚不婚主義的女主角「瑪拉」，由於父母離異，導致瑪拉對婚姻十分沒安全感，然而，隨著身邊的親朋好友陸續宣布結婚，請帖一張又一張的湧入家中，她與愛人傑克竟下定決心以「喝酒划拳」來決定該去哪些婚禮！荒謬的劇情走向，搭配演員們的精湛演技，

讓《婚禮跑到趴》被國外影迷大讚：「爆笑程度超越《27件禮服的秘密》」。女主角莎拉海蘭近日接受媒體訪問時表示：「《婚禮跑到趴》表面上看似是一部逗趣的愛情喜劇，卻有許多橋段與對白不禁意地戳中現代人對於該不該踏入婚姻的苦惱；在拍攝本作之前，我原本非常期待結婚這件事，但在演繹過「瑪拉」這個角色後，意外發現許多婚姻裡暗藏的黑暗面，現在面對結婚這件事，內心真的會有點卻步！」

《瑰麗卡萊爾：浮華紐約》

入住瑰麗酒店象徵成功！

英國皇室、費德勒、喬治克隆尼等大咖都住在這！

被外媒譽為「以紀錄片拍下紐約上流社會編年史」的新銳導演馬修米勒(Matthew Miele)最新力作《瑰麗卡萊爾：浮華紐約》(英文片名: Always At the Carlyle)再次揭開上流社會神秘面紗，此次導演以紐約上東城瑰麗酒店為主體，紀錄政商名流在此的生活軌跡！瑰麗酒店在紐約走過近九十個年頭，向來是政商名流的紐約聚會首選，最豪華的派對永遠在這裡舉行，夜夜笙歌、紙醉金迷、醜聞八卦也隨之而生。瑰麗酒店不只是紐約上流社會的代名詞，更是一種充滿秘密的巨大宮殿，這個神秘又危險的地方，至今仍是名人造訪紐約時入住的不二首選，究竟瑰麗酒店有何魅力讓名人們對其死心塌地？導演耗時四年拍攝，不僅訪問瑰麗酒店各層級工作人員，更是訪問無數名人：英國皇室、喬治克隆尼、導演魏斯安德森、名廚安東尼波登、網球巨星費德勒、時尚設計師王薇薇等人都在電影中暢談屬於瑰麗酒店的最私密的故事。而其中最為人知的就是美國總統甘迺迪與瑪麗蓮夢露的地下情也將在電影中揭曉，謠言盛傳瑰麗酒店暗藏秘密電梯及通道就是為了讓兩人私會所設置，不僅如此，那座神秘的電梯也同時乘載過英國皇室黛安娜王妃、麥可傑克森和賈伯斯！所有秘密傳言即將揭曉，不為人知的精采故事即將展開！

《瑰麗卡萊爾：浮華紐約》不僅揭開酒店的神秘面紗，更讓大眾窺探上流社會的真實樣貌，導演表示因為執導這部紀錄片，他花了大把時間在瑰麗酒店，更是常常見到名人入住。他說道：「瑰麗酒店保持著低調和神秘的作風，他們不討論客人因此成為名人們入住的原因之一，我常常在咖啡廳看到伍迪艾倫，我們也不會貿然上前，因為我們希望能記錄到雙方都開心的訪談。」導演也表示因為製作團隊以不打擾酒店客人為原則進行拍攝，願意受訪的巨星們總是侃侃而談。他說道：「在螢光幕前沉默寡言的明星，像是湯米李瓊斯、哈里遜福特，他們在談論瑰麗酒店時都非常熱情，看的出來是真的喜歡瑰麗酒店。」

13年奪5座影后獎

《水漾的女人》名導拒拍性愛戲

德國名導克里斯汀佩佐(Christian Petzold)，今年推出描述愛情與背叛的新作《水漾的女人》(Undine)，除勇奪柏林影展國際影評人費比西獎，更將25歲女星寶拉貝爾(Paula Beer)送上柏林影后寶座。有趣的是，向來堅持不在電影中拍攝性愛場面的佩佐，13年前也曾以《耶拉》(Yella)將女星妮娜霍斯(Nina Hoss)拱成柏林影后，6年前再度讓她以《回不去的時光》(Phoenix)連奪多倫多、西雅圖影協等3座影后大獎，博得「影后製造機」封號。這部柔情似水、感人至深的電影《水漾的女人》，上月也入圍第33屆歐洲電影獎最佳影片及最佳女主角，各方預測寶拉貝爾奪獎機會濃厚，將於本週末(12/12)於柏林揭曉。《水漾的女人》將於12月31日在台上映。

電影《水漾的女人》拍攝靈感來自奧地利作家英格博格赫曼(Ingeborg Bachmann)的小說《溫蒂妮》(Undine)。書中「溫蒂妮」是個女水神，她遭到男人的背叛，決定在婚禮之夜殺死男人，「我用悲傷的淚水結束了他的生命」，從此潛入水底、不再登岸...。但片中「溫蒂妮」(寶拉貝爾 飾)則是個歷史學家，並在柏林提供城市導覽服務，也剛歷經一場背叛與分手。若根據神話的詛咒，她必須復仇並且殺死男人。但溫蒂妮卻決定反叛詛咒，她不想歷史重演，也不想離開柏林，她仍然想要愛，於是她愛上了另外一個男人...。寶拉貝爾演活了這個為情所傷、為愛而活的女人。當她勇奪柏林影后銀熊獎那一刻，在旁

的「影后製造機」克里斯汀佩佐早已熱淚盈眶、哭成淚人了。克里斯汀佩佐在新作《水漾的女人》中，將古老歐洲神話的滄桑愛情，結合了飽經風霜的柏林，拍出這片昔日為沼澤之地的愛與重生。該片劇情從男人的出軌展開，再以歐洲神話、柏林歷史作為推展，讓神話裡的愛與背叛，在現實中重現及幻變。佩佐將這個愛情傳說，結合了柏林城市的滄桑桑田，形塑出這部神秘與浪漫兼具的電影，除動人的愛情讓人心碎心醉，感動及節奏的掌控力亦更上層樓，連國際媒體都讚嘆「只有佩佐最懂女人心」。片中魔幻與現實交織的情感戲，甚至被譽為超越奧斯卡電影《水底情深》，除在柏林連獲大獎，上月更入圍第33屆歐洲電影獎最佳影片及最佳女主角雙料大獎。

有趣的是，曾榮膺柏林影展最佳導演的克里斯汀佩佐，電影中的主角向來都是「容易受傷的女人」。拍過無數愛情電影的他，卻罕見堅持拒絕性愛戲。日前他接受外媒專訪時直言「電影裡所有性愛戲都是荒謬虛假、令人臉紅的」，更認為「性」不須被搬上大銀幕來說，「愛」才是電影的真正核心。他這部新作《水漾的女人》，由新科柏林影后的寶拉貝爾與《賣場華爾滋》演技派男星法蘭茲羅戈斯基(Franz Rogowski)二度合作，默契十足的兩人，片中從柏林城市愛到幽深水域，凄美愛情令人動容，被媒體形容是「德國最優秀導演的怪美愛情」。

開心麻花科幻喜劇電影《獨行月球》開機 沈騰馬麗主演

張吃魚導演的科幻喜劇電影《獨行月球》正式開機並曝光了壹張概念海報，宣布沈騰、馬麗領銜主演。讓人驚喜的是，這次《獨行月球》不僅延續了開心麻花壹貫的爆笑風格，也將首次嘗試工業化的科幻電影制作。

《獨行月球》的故事發生在2033年，為了抵禦小行星的撞擊，拯救地球，人類在月球部署了月盾計劃。全員撤離時，維修隊獨孤月（沈騰 飾）被領隊馬藍星（馬麗 飾）落在了月球。不料月盾計劃失敗，獨孤月成為了“宇宙最後的人類”，開始了他在月球上破罐子破摔的生活……

據了解，《獨行月球》中將呈現許多震撼場面，全片90%以上鏡頭涉及特效制作並由國內頂級特效團隊完成，傾力打造沈騰這場硬核爆笑的“月球漂流記”。沈騰和馬麗領銜主演的組合，也不枉粉絲多年的期盼。從春晚裏的郝建和馬科長，到《夏洛特煩惱》裏的夏洛和馬冬梅，再到《我和我的家鄉》裏的馬亮和秋霞，沈騰和馬麗，這對國民喜劇CP賺足了觀眾的歡笑。有意思的是，不同於以往作品中，馬麗總是被沈騰“坑”，在《獨行月球》裏，馬麗直接把他忘在了月球上，也是狠狠地“坑”了沈騰壹把。沈騰能不能重返地球？這對歡喜冤家又會發生怎樣的爆笑故事？令大家期待萬分。

紀錄片《中國》今日開播

大型歷史紀錄片《中國》於12月7日19:30在湖南衛視、芒果TV雙平臺開播。作為首部以“中國”命名的歷史紀錄片，該片被列為2019年國家廣播電視總局重點紀錄片創意選題，以及湖南衛視“2020年重點紀錄片項目”。全片將用三季共36集體量，在全景視野下，以意識形態與國家制度為主線，挖掘從春秋時期開始，對今日中國最具有影響力的人和故事，並通過電影化的拍攝手法，再現中國歷史群星的個人選擇及閃耀瞬間，用壹幅有血有肉的歷史畫卷，讓當代的中國和中國人，在影像中探尋中國精神、中國力量、中國自信的源泉和密碼。

今日播出的紀錄片《中國》第壹季共12集，故事從先秦諸子百家爭鳴的春秋戰國時期，壹直講述到開放進取、兼容並蓄的大唐盛世。首集便聚焦中華文明的靈魂人物、儒家學派創始人孔子，截取其人生兩大重要轉折點，會見另壹位思想泰鬥老子以及遭遇陳蔡之厄，延展出孔子跌宕卻偉大的壹生，並由此展開對中國原發思想啟蒙與發展歷程的追溯。

帶有濃烈思想感情。在制作方面，本片采用當下的語言風格、認知體系、遣詞造句來講述歷史，選擇去劇情化的再現拍攝手法，邀請到北京人藝、國家話劇院的老戲骨，何炅、汪涵等等常年活躍在觀眾視野中的熟面孔，以及於朦朧、賴雨濛等新生代演員，通過演繹的方式將當時的歷史深入淺出地展現現在觀眾眼前。在視聽表現方面，《中國》大膽啟用“假定性美學”，融匯戲劇舞臺的假定性和象征性手法，建立起鮮明、自成壹套的美學風格。同時，本片應用了6K超高清拍攝等前沿視聽技術，力求呈現給觀眾壹場極致純粹的歷史文化視聽盛宴。

此外，中國人民大學明德書院院長、西北大學歷史學部主任、中國人民大學壹級教授、博士生導師王子今教授作為學術顧問；教育部青年長江學者、陝西師範大學歷史文化學院教授及博導、人文社會科學高等研究院副院長、絲綢之路研究中心主任沙武田擔當本片學術統籌；日本著名音樂家梅林茂與國內著名作曲家徐鯉聯袂完成本片音樂創作；視覺創作方面，更是請到了著名攝影師羅攀，團隊以電影級別的標準來建構了整個紀錄片的視覺創作，每壹幀畫面都可以作為單獨的攝影作品。

紀錄片《中國》也是壹次“長視頻精品路線”的全新嘗試。不同於常規紀錄片攝制，該片采用紀錄片內容團隊搭檔電影呈現團隊的制作模式，並與國內外頂級團隊共同傾力打造。總導演李東坤曾制作紀錄片《河西走廊》《重生》，聯合總導演周艷曾擔任紀錄片《大國崛起》執行總導演、總撰稿；總撰稿鄧永建曾擔任《河西走廊》《重生》等紀錄片總撰稿。他們還在2018、2019年度中國最具影響力的十大紀錄片系列活動中獲評最具影響力制作人及最具影響力撰稿人，為本片的質量保駕護航。

談及本片的創作契機，張華立表示，當代中國經歷著我國歷史上最為廣泛而深刻的社會變革，也正在進行著人類歷史上最為宏大而獨特的創新實踐。“在這個複雜的、未來充滿不確定性的背景下，我們以影像為誌，梳理歷史，記錄中國，正當其時。這既是湖南衛視、芒果TV作為黨媒的使命擔當，也是新時代媒體人的心靈召喚。”

不忘來路，始知歸處。在總導演李東坤和聯合總導演周艷看來，“梳理漫漫來時路，不只是為了解歷史知識，更是為了走好今天和未來的路。”《中國》正是以當代人的視角回望歷史，思考漫長的中國史如何影響了今天的中國和中國人，圍繞“實現中華民族偉大復興”的中國夢，探索偉大復興夢是從何而來，通過再現歷史中的中國人如何築夢、追夢、圓夢，引領當代青年特別是當代青年未來的逐夢之路。

致敬中國航天人 楊利偉助力《大國飛天》 夢想啟程

由張蠡執導，凌瀟肅等演員領銜主演的中國首部全景展現新時代航天事業電視劇《大國飛天》日前在京宣布開機。該劇首次以載人航天、北鬥導航、嫦娥工程、空間站研制以及未來火星深空探測等重大工程的發展歷程為背景，描繪了近三十年、兩代航天人的青春奮鬥群像。凌瀟肅飾演的方嘯天是壹名天才型航天人員，發布會現場他不僅講述自己為該劇做的努力，也參與作畫遊戲繪圖兒時心中的航天飛行器。

在電視劇《大國飛天》中，凌瀟肅飾演的方嘯天是壹名心懷航天員夢想卻被調配為總控室骨幹的叛逆天才，生活中神經大條，但面對工作始終壹絲不苟。發布會現場，凌瀟肅也談及自己為參演這部劇做了不少準備：“在接這部戲之前，對航空航天事業大多是仰望狀態，此次要飾演專家，是時間緊任務重，在熟悉劇本之余也要看大量的資料，盡力在出演角色時做到神形兼備”。為表達對太空漫步的憧憬，凌瀟肅還在現場互動中畫下兒時心中的火箭模樣，簡易又極具中國標識的畫作引得現場陣陣掌聲，環節也笑料不斷，現場氛圍十分活躍。

據悉，電視劇《大國飛天》將正式開拍歷時近5個月的拍攝工作，並橫跨多地，全景展現新時代中國航天事業的偉大成就。期待首次挑戰航空人角色的凌瀟肅，能將中國航天人代代相傳的特別能吃苦、特別能戰鬥、特別能攻關、特別能奉獻的精神傳遞給觀眾，打造彰顯中國航天精神的優秀作品。

休斯頓房地產 停看聽系列講座(二十六)

中西合璧的凱蒂亞洲城商圈

2020的疫情时代凯蒂亚洲城Katy Asian Town 众多商家坚持合作，联亚营销联盟(AsUnited Marketing Alliance Group)推进外卖整合平台AMA ON-THE-GO 让这个新兴地标商圈安度疫情冲击，年终岁末酬宾活动一起迎向2021。

优质新地标，凯蒂亚洲城商圈结合多元文化与机能

这个难得的亚洲城商圈位于州际公路I-10 和99号交界处，有着与Costco选址一样的视角，周围新兴建筑与开发带来无限商机，在此125英亩的大型造镇计画中结合了住家与商铺多元机能，成为极具特色的商圈，其中包含全美规模最大的旗舰国际超市(H-mart)、提供最优质的新鲜食材、JCPenny 则是提供了杂货及家居用品，喜满客影城和卡丁车室内游戏场提供了育乐设施，而在亚洲城广场云集了各式各样的亚洲美食、餐饮品牌，为顾客提供多元且高品质的消费选择。

凯蒂亚洲城的出现，造福了休斯顿大西北地区多元族裔的需求，也连带吸引了想要尝鲜和寻求郊区闲逸的休斯顿居民造访。不少人对于凯蒂亚洲城的多元性感到讶异，因为这里拥有中国、日本、韩国、越南、港式和马来西亚料理，甚至连夏威夷风味的餐馆都有。

翻转传统中国城和或韩国城等的印象，体验中西合璧的多元

很多人评论凯蒂亚洲城有着清新和干净的特点，甚至说凯蒂亚洲城将会是亚裔美国人的商圈典范，亚洲城拥有超多的停车空间与便捷的交通区位，使得人们想吃亚洲美食的时候，不再去中国城的百利大道用餐，而是选择凯蒂亚洲城。从2016年至今，经过四年的努力和发展，凯蒂亚洲城已经成为Katy时下最火热和最受年轻族群喜爱的商圈之一。

疫情下的团结，AMA Group整合外卖平台创造共赢

凯蒂亚洲城透过网路行销，与网红合作的风势让知名度在年轻族群里快速打开，这次的疫情影响了很多商家的生意，今年亚洲城为了让Katy亚洲城的商家渡过艰难的疫情阶段，同时也为了让Katy地区的所有客户可以有更安全和更好、更快捷的服务，而推出了AMA ON THE GO的外送服务。

AMA ON-THE-GO整合所有Katy亚洲城的商家，同时专注服务于Katy区域的客户，提供迅速、快捷、安全的一站式外送服务。在AMA ON THE GO你可以只下一个order就可以点亚洲城内20+家商家的任意商品，而且速度快，即时送达。

凯蒂亚洲城商家一同除旧迎新，嘉惠顾客惊喜连连

在新年来临期间，AMA ON THE GO更是整合了亚洲城的商家共同推出了总价值达到\$500+的优惠回本券，在AMA ON THE GO外送网站上只需要花\$25就可以购买，不过每个order仅限2本，优惠回本券可以享受多重优惠：

1. 用25元购买优惠券，价值达\$100-500
2. 若在网站上订购满\$35，可用\$10加购价购买到价值\$100-500的优惠券
3. 集满8个印章可以免费参加二次抽奖（苹果IPAD和无线耳机）
4. 集满所有的印章更可以有额外惊喜回报

我们在未来会推出更多的活动和招募更多的知名商家来丰富KATY亚洲城，让整个KATY社区更加繁荣昌盛！
