Biden promises 'whatever needed' for U.S. bank system as SVB shock hammers stocks

March 13 (Reuters) - Bank stocks around the world plunged on Monday even as President Joe Biden vowed to take whatever action was needed to ensure the safety of the U.S. banking system, after the sudden collapse of Silicon Valley Bank (SIVB.O) and Signature Bank (SBNY.O).

Biden's efforts to reassure markets and depositors came after emergency measures by the United States to guarantee deposits at both banks failed to dispel investor worries about potential contagion to other lenders worldwide.

Major U.S. banks lost more than \$70 billion in stock market value on Monday, bringing their total loss over the past three days to about \$170 billion.

Shares in First Republic Bank (FRC.N) tumbled by as much as 76.6% despite news it had secured fresh financing, while Western Alliance Bancorp (WAL.N) and PacWest Bancorp (PACW.O) fell by 82.5% and 53%, respectively. Trading in the stocks was halted several times due to volatility. New Zealand house prices fall in February as economic head-

banks and insurers after SVB India proposes additional net ex-

penditure of 1.48 trillion rupees for 2022/23

First Republic had been able to meet withdrawal demands on Monday with the help of extra funding from JP Morgan Chase, the mid-cap lender's Executive Chair Jim Herbert told CNBC, adding that it was not seeing a massive deposit outflow.

Shockwaves were also felt in Europe, where the STOXX banking index (.SX7P) closed 5.7% lower. Germany's Commerzbank (CBKG.DE) fell 12.7%, while Credit Suisse (CSGN.S) slid 9.6% to a new

record low.

Swiss financial regulator FINMA said it was closely monitoring banks and insurers, while a senior European Central Bank supervisor said the board overseeing the euro zone's biggest banks did not see any need for an emergency meeting.

Biden said his administration's actions over the weekend meant "Americans can have confidence that the banking system is safe", while also promising stiffer regulation after the biggest U.S. bank failure since the 2008 financial crisis.

"Your deposits will be there when you need them," he said.

Shares in U.S. banking giants JP Morgan Chase (JPM.N), Morgan Stanley (MS.N) and Bank of America (BAC.N) nevertheless weakened.

An administration official said there was no timeline for Biden to make any requests of Congress as his aides were still working to manage the immediate situation and better understand what caused the crisis, and what to ask of lawmakers.

In the money markets, indicators of credit risk in the U.S. and euro zone banking systems edged up. Europe's volatility index (.V2TX) jumped to its highest level since October 2022.

"When a step (is taken) this big, this quickly, your first thought is 'crisis averted'. But your second thought is, how big was that crisis, how big were the risks that this step had to be taken?" said Rick Meckler, partner at Cherry Lane Investments.

Emboldened by bets that the U.S. Federal Reserve may have to slow its rate hikes, and with investors seeking safe havens, the price of gold raced towards the key \$1,900 level.

"There is a sense of contagion and where we see a repricing around financials is leading to a repricing across markets," said Mark Dowding, chief investment officer at BlueBay Asset Management in London.

U.S. regulators stepped in on Sunday after the collapse of SVB, which had seen a run after a big bond portfolio hit.

SVB Financial Group (SIVB.O) and two top executives were sued

on Monday by shareholders, who accused them of concealing how rising interest rates would leave its Silicon Valley Bank unit, "particularly susceptible" to a bank run.

The proposed class action against SVB, Chief Executive Greg Becker and Chief Financial Officer Daniel Beck was filed in the federal court in San Jose, California.

SVB's customers will have access to all their deposits from Monday and regulators set up a new facility to give banks access to emergency funds and the Federal Reserve made it easier for banks to borrow from it in emergencies

Regulators also moved swiftly to close New York's Signature Bank, which had come under pressure in recent days.

"A serious investigation needs to be undertaken on why the regulators missed red flags ... and

what needs to be overhauled," said Mark Sobel, a former senior Treasury official and U.S. chair of think tank OMFIF.

FALLOUT

Companies around the globe with SVB accounts rushed to assess the impact on their finances, while in Germany, the central bank convened its crisis team to assess any fallout.

And after marathon weekend talks. HSBC HSBA.L said it was buying the British arm of SVB for one pound (\$1.21).

While SVB UK is small, its sudden demised prompted calls for government help for Britain's start-up industry, and its heavily exposed biotech sector in particular.

Prime Minister Rishi Sunak added his voice to those in the UK saving there was no concern about systemic risk."Our banks are well capitalised, the liquidity is strong," Sunak told ITV during a visit to the United States.

WEALEE'S GLOBAL NOTES

03/11/2023

We Are Creating A New Chapter In Our History Together

Today all of us joined together in support of the big rally at Stafford Center in Stafford, Texas. We have combined Chinese, Asian, African American and Latino communities together along with political leaders from national, state and local governments to build an history making platform for an American Ethnic Alliance.

This is the first time in American history that we as ethnic citizens are all moving toward one goal and are united together in one strong front to fight for our political rights.

On the stage of ethnic unity today are U.S. Congressman Al Green, Sylvia Garcia, Texas State Senator John Whitmire. Texas State Representative Gene Wu, Ron Reynolds Fort Bend, County Judge KP George, Commissioner

Grady Prestage, Dexter McCoy, Harris County Commissioner Rodney Ellis, Stafford Mayor Cecil Willis, Missouri City Mayor Rubin Elackatt, Stafford City Councilwoman Alice Chen, NAACP Houston Chapter Chair Bishop James Dixon, LULAC Chair Hugo Monica, Attorney Dawn Lin, Southwest District Chair Kenneth Li, Chinese Community Center CEO Chi-Mei Lin, Chinese Civic Center President Yichuan Fan, United Chinese Americans President Haipei Shue and International District Chair Wea Lee.

Today we are facing the changing political and economic situation both at home and abroad. Asian Chinese and ethnic minorities are also facing an unprecedented crisis and most of the political power is in the hands of a very few politicians. They do

whatever they want and use national security reasons as an excuse to steal political dividends.

The founding fathers of our country created a constitution for a free democracy and the rule of law. Over the years, many civil rights leaders have paid with their blood and their very lives in the fight for equal justice for all people across all the diverse layers of society.

At today's event, we are so happy that we have formed the "American Ethnic Political Alliance" in Houston, Texas. Together we will hold hands and go forward to fight for the legitimate rights for all people.

Elon Musk Plans to Build His Own Texas Town

Elon Musk has announced his plans to build a live-work community outside of Austin next to the Boring and SpaceX facilities for the employees of the billionaire's companies. The planned town is called Snailbrook, in reference to the mascot of Musk's tunneling company, Boring Co. Located in Bastrop County near Boring and SpaceX facilities, the site would be designed as a live-work community for employees of Musk's companies.

Billionaire, SpaceX CEO and Twitter troll/owner Elon Musk plans to build a town on thousands of acres of pasture and farmland located east of Austin, Texas, according to a report from the Wall Street Journal. Musk is attempting to execute his vision for "a sort of Texas Utopia along the Colorado River, where his employees could live and work," according to WSJ, which reported that Musk and his companies have bought at least 3,500 acres in and around Austin in the past three years, though real estate agents and officials have indicated in past statements that the total is closer to 6.000 acres.

The idea is to provide employees of Musk's companies in Central Texas with a place to live. Musk-owned companies in the region include Tesla, SpaceX, Starlink and the Boring Company. Musk hasn't exactly made it clear why he wants his Central Texas employees to live together in one town that he built and owns beyond his "Texas utopia" comments.

The future Bastrop County town has already been named "Snailbrook," according to WSJ, and the county has already approved plans for streets called Boring Boulevard, Waterjet Way and Cutterhead Crossing. County officials have also signed off on plans to build and run a Montessori school within Snailbrook town limits

The proposed municipality is said to be adjacent to the Boring and SpaceX facilities that are currently under construction, and to already include some modular homes and signs hang from poles reading, "welcome, snailbrook, tx, est. 2021. Snailbrook is the name of Boring's mascot.

Musk reportedly wants to offer rental houses to workers that are well below the local market value. One ad allegedly put the price of a two- or three-bedroom home at \$800, compared to \$2,200 a month in nearby Bastrop, Texas. There are also plans for a Montessori school in the municipality

Over the past three years, entities tied to Musk have bought at least 3,500 acres in the general Austin area. The Journal says some reports indicate Musk controls as much as 6,000 acres.

Musk first came to Texas two years ago, abandoning California and calling it the land of "overregulation, overlitigation, overtaxation." Last month, though, Tesla announced plans to expand its California presence, moving its engineering headquarters to the

News of Musk's plans is the latest development in his ongoing focus on Texas as a hub for his business and manufacturing endeavors. After buying Twitter last year, Musk announced in late November that he's considering building one of two possible company headquarters in Texas.

Elon Musk has been known to run his numerous businesses unconventionally. Just take his chaotic, no holds barred takeover of Twitter as an example. Now, the Wall Street Journal reports that the tech titan plans to take it to the next level by building an entire town of his own. Entities tied to Musk and his companies have amassed at least 3,500 acres of land outside of Austin, Texas, per the report, though some sources told the publication that the property totals closer to 6,000 acres.

of Musk's tunneling company, Boring Co. Located in Bastrop County near Boring and SpaceX facilities, the site would be designed as a live-work community for employees of Musk's companies. Incorporating his own town would allow Musk to make some of his own regulations and dodge the slowdown effects of bureaucracy. 'I think it's the ability to work with folks on a direct level, and not having tons of red tape," Bastrop director of tourism and economic development Adena Lewis said of Musk's decision to set the town in the small county, per the Wall Street Journal.

With lower-than-market-rate housing. Snailbrook, although not vet an incorporated township, reportedly already has some modular homes, plus a public pool, gym, and outdoor sports area. An advertisement for Boring Co. employees last year touted two- to three-bedroom homes for rent starting at \$800 a month, while the median rent in the area is about \$2,200 a month, according to the

Musk moved much of his business operations from California to Texas a couple of years ago due to the lighter regulations in the state. Texas has looser laws regarding labor, the environment, and zoning, in addition to no corporate income tax.

Deeds and land records show the extent of the project and the billionaire and Twitter owner has attended meetings with land owners and real estate agents in which he and his staff have outlined his ideas for the project that The Wall Street Journal calls "a sort of Texas utopia along the Colorado River" where staff could both

People familiar with the project have told The Journal that Mr. Musk and his executives want his staff in the area around Austin including employees at the Boring Company, SpaceX, and Tesla, to be able to live in new homes for rents below market value. Personal And Professional Highlights

Early life

Childhood and Family

Elon Reeve Musk was born on June 28, 1971, in Pretoria, South Africa. His mother is Mave Musk (née Haldeman). a model and dietitian born in Saskatchewan, Canada, but raised in South Africa. His father is Errol Musk. a White South African electromechanical engineer, pilot, sailor, consultant, and property developer who was once a half-owner of a Zambian emerald mine near Lake Tanganyika.

Musk has a younger brother, Kimbal (born 1972), and a younger sister, Tosca (born 1974). His maternal grandfather, Joshua Haldeman, was an adventurous American-born Canadian who took his family on record-breaking journeys in a single-engine Bellanca airplane to Africa and Australia; Musk has British and Pennsylvania Dutch ancestry. When Musk was a child, his adenoids were removed because doctors suspected that he was deaf, but his mother later decided that he was thinking "in another world."

The family was very wealthy in Elon's youth; Errol Musk once said, "We had so much money at times we couldn't even close our safe". After his parents divorced in 1980, Musk mostly lived with his father in Pretoria and elsewhere, a choice he made two years after the divorce and subsequently regretted. Musk has become estranged from his father whom he describes as "a terrible human being... Almost every evil thing you could possibly think of, he has done." He has a half-sister and a half-brother on his father's side. Elon attended an Anglican Sunday school in his youth. Around age 10, Musk developed an interest in computing and video games and acquired a Commodore VIC-20. He learned computer programming using a manual and, at age 12, sold the code of a BASIC-based video game he created

called Blastar to PC and Office Technology magazine for approximately \$500. An awkward and introverted child, Musk was bullied throughout his childhood and was once hospitalized after a group of boys threw him down a flight of stairs. He attended Waterkloof House Preparatory School and Bryanston High School before graduating from Pretoria Boys High School.

Education

Aware that it would be easier to enter the United States from Canada, Musk applied for a Canadian passport through his Canadian-born mother. While awaiting the documentation, he attended the University of Pretoria for five months; this allowed him to avoid mandatory service in the South African military. Musk arrived in Canada in June 1989, and lived with a second cousin in Saskatchewan for a year, working odd jobs at a farm and lumber-mill. In 1990, he entered Oueen's University in Kingston, Ontario. Two years later, he transferred to the University of Pennsylvania, where he graduated in 1997 with a Bachelor of Arts degree in physics and a Bachelor of Science degree in economics.

Musk graduated from Pretoria Boys High School in South Africa. In 1995, he was accepted to a Doctor of Philosophy (Ph.D.) program

in materials science at Stanford University in California. Musk attempted to get a job at Netscape but never received a response to his inquiries. He dropped out of Stanford after two days, deciding instead to join the Internet boom and launch an Internet startup.

Business Career

In 1995, Musk, his brother Kimbal, and Greg Kouri founded web software company Zip2 with funds from angel investors. They housed the venture at a small rented office in Palo Alto. The company developed and marketed an Internet city guide for the newspaper publishing industry, with maps, directions, and yellow pages. Musk says that before the company became successful, he could not afford an apartment and instead rented an office and slept on the couch and showered at the YMCA, and shared one computer with his brother When he and Kimbal could not agree on business decisions, they settled their differences through wrestling.

X.com and PayPal

In 1999, Musk co-founded X.com, an online financial services and e-mail payment company. The startup was one of the first federally insured online banks, and, in its initial months of operation, over 200,000 customers joined the service. The company's investors regarded Musk as inexperienced and had him replaced with Intuit CEO Bill Harris by the end of the year. The following year, X.com merged with online bank Confinity to avoid competition. Founded by Max Levchin and Peter Thiel, Confinity had its own money-transfer service, PayPal, which was more popular than X.com's service. Within the merged compa-

Due to resulting technological issues and lack of a cohesive business model, the board ousted Musk and replaced him with Thiel in September 2000. Under Thiel, the company focused on the PayPal service and was renamed PavPal in 2001. In 2002. PavPal was acquired by eBay for \$1.5 billion in stock, of which Musk—the largest shareholder with 11.72% of shares received \$175.8 million.

He met with companies NPO Lavochkin and Kosmotras: however. Musk was seen as a novice and was even spat on by one of the Russian chief designers.

three ICBMs. They had another meeting with Kosmotras and were offered one rocket for \$8 million, which Musk rejected. Musk instead decided to start a company that could build affordable rockets. With \$100 million of his early fortune, Musk founded Space Exploration Technologies Corp., traded as SpaceX, in May 2002.[73] As of 2021, he remains the company's CEO and also holds the title of Chief Engineer.

SpaceX attempted its first launch of the Falcon 1 rocket in 2006, and although the rocket failed to reach Earth orbit, it was awarded a Commercial Orbital Transportation. Services program contract from NASA later that year. [76] After two more failed attempts, which reportedly caused Musk so much stress that he was "waking from nightmares, screaming and in physical pain," SpaceX succeeded in launching the Falcon 1 into orbit in 2008, making it the first private liquid-fuel rocket to do so.

Later that year, SpaceX received a \$1.6 billion Commercial Resupply Services program contract from NASA for 12 flights of its Falcon 9 rocket and Dragon spacecraft to the International Space Station, replacing the

Space Shuttle after its 2011 retirement. In 2012, the Dragon vehicle berthed with the ISS, a first for a private enterprise. (For additional reference, go to: https://en.wikipedia. org/wiki/Elon Musk) Tesla, Inc.—originally Tesla Motors—was incorporated

三月六日,韓國外長朴振在外交部舉行記者會,正式公佈了韓國政府解決二戰期間被日本強徵勞 工對日索賠問題的方案。根據方案,當年強徵韓國勞工的日本企業基本免除賠償責任,賠償將由韓國財 團作爲第三方籌款並代替日企支付二〇一八年韓國大法院就三項索賠案向日本企業判處的賠償金和拖欠 利息。這標誌着南韓政府對日政策的重大轉變

方案公佈後,韓國輿論陷入巨大的對立與撕裂中。韓國政府宣稱:"這是符合國情的大局決斷,也 是我們主導的解決方案。"在野的共同民主黨發表聲明稱:"解決方案中旣沒有真正的道歉,也沒有戰 犯企業的賠償,相當於受害者韓國向加害者日本低頭宣佈投降,這將成爲韓日關係歷史上最嚴重的外交

二〇一八年,韓國大法院判決的強徵勞工受害者總計十五人,曾在日本製鐵、廣島三菱重工和名古 屋三菱勤勞挺身隊強制勞動。此外,仍有九項強制徵用相關訴訟正在等待大法院的最終判決。日本則根 據一九六五年簽訂的《日韓請求權協定》,主張被告企業沒有賠償責任,並拒絕道歉,日韓關係出現惡

二〇一九年七月,日本限制對韓出口高純度氟化氫,這種用於蝕刻晶圓半導體的關鍵材料,日本產 能大約佔全球產能的七成。同年八月,日本將韓國踢出出口管理優待對象國。韓國隨後宣佈採取"應對 措施",並將此事告上世貿組織。二戰期間被日本強徵勞工從一九九七年起,爲對日方索償進行了長達 二十六年的鬥爭。因此,該案被稱為韓日之間的"最大懸案"。

尹錫悅上台後,宣佈將強化與美國的盟友關係,並與日本首相岸 田文雄通話,就改善韓日關係等問題達成共識。不過,尹錫悅奉行的 "親美和日"政策面臨巨大挑戰。就在不久前舉行的紀念"三一抗日 獨立運動"一百〇四周年儀式上,尹錫悅聲稱日本已從過去的"軍國 主義的侵略者"轉變爲"攜手合作的伙伴",還強調韓美日三國合作 的重要性。然而此番言論在韓國網絡上掀起一片罵聲,網民大罵尹錫 悦在"三一節"這個特殊日子不要求日本反省反而宣稱日本是夥伴, 怒批尹錫悅是"瘋子"、"親日派",促他趕快下台

尹錫悅政府直接爲日本企業二戰強徵勞工問題"埋單",不僅無 法讓日方切實正視和深刻反省歷史,反而爲日本軍國主義洗刷罪行。 尹錫悅政府拿出的"第三方賠償方案",不過是韓當局的一個政治籌 碼罷了,不僅難以解開韓日兩國"最大懸案",恐怕還會被反噬,將 自己推向與民衆對立的深淵。

尹錫悅當局的二戰勞工賠償方案背後推手很可能是美國,目的則是鞏固美日韓同盟,共同制衡中國 這也意味着很大程度上消除了韓日這兩個東亞戰略盟友之間的內部分歧,韓日的緊張關係正在緩和, 也說明美國的東亞軍事行動已沒有內部障礙。
